

### TPAC Youth Choir Audition Information

Please sing a 24-32 measure cut from any genre song that adequately shows your ability and range. The preference will be for you to be easily understood and easily heard. Cellphone videos are acceptable. Please also allow for enough room between you and the camera for us to see you.

Please look over this small sightreading example and be able to sing this on solfege, numbers, or “la” at the end of your audition as part of your singing audition. It starts on “Do”.
