Situation: 4-H members and their horses are on display for the public at The New England 4-H Horse Program Activity at Eastern States Exposition. If youth want to sit in front of their stall to make their equine exhibit available for public interaction, then they may use a chair or "Bucket Buddy" during the time they are involved in this activity.

6. Parents and other adults are encouraged to use the end cap or outside areas for seating.

If an event should occur on the Exposition Grounds that would require the evacuation or removal of animals being exhibited or shown under the control of the Agricultural Department of the Eastern States Exposition, the following guidelines should be implemented to assist in the timely and orderly evacuation of these animals.

1. The Director of Agriculture and Education of the Exposition will notify the Security Department that a situation exists that would require the evacuation of some or all of the animals on the Exposition grounds.

2. Upon notification from the Exposition Director of Agriculture and Education, a Seasonal Police supervisor will be dispatched to the Agricultural Department office located in the Mallary Complex, or other location as directed, to act as a liaison between the Seasonal Police and the Agriculture Department Director.

IAFE
INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS
NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the “IAFE National Code of Show Ring Ethics,” fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal’s performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and
analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal’s performance or alter its natural contour, conformation or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.

6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.

7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.

8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.

9. The application of this code of ethics provides for absolute responsibility for an animal’s condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.

10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.

11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules
may be released to appropriate law enforcement authorities with jurisdiction over such infractions.
2022 Animal Health Rules for Fairs and Shows

Special Notes: Massachusetts COVID-19 response orders supersede all other exhibition guidance

Due to the recent US outbreak of High Path Avian Influenza (HPAI), Animal Health Officials from all six New England States are recommending all competitions, exhibitions, shows, swaps, or other in-person events encouraging the gathering or comingling of domestic fowl or poultry be postponed until at least July 1, 2022.

In addition to complying with all laws and regulations governing animal health issues, all fairs must adopt and enforce the following rules for governance for the fair.

NO animal will be admitted to the fairgrounds unless it meets the requirements below. NO animal is to be unloaded or enter a barn or tie-out stall until the animal and its paperwork have been inspected and approved for entry.

A. General Rules for All Animals: See M.G.L. c. 128 §2C, 129 §2

1. All animals must be in proper physical condition, be properly identified and free of visual evidence of infectious, contagious or parasitic disease at time of arrival. Specific diseases and conditions which will disqualify an animal for entry are identified for each species in the following sections of the rules. Animals of any species with open or draining wounds will not be approved for entry.

2. Evidence of infectious, contagious or parasitic disease or failure to produce the necessary documents for health certification, vaccination or testing will result in the animal's rejection for entry. **THE INSPECTOR'S DECISION IS FINAL.**

3. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only, and except for surgical procedures performed by a duly-licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.

4. Official ID: See Final Rule: Summary of Traceability for Livestock Moved Interstate (Summary of general requirements by species)

All livestock must have proper official, individual ID as required and approved for the species, e.g., official metal ear tag, tattoo, scrapie tag, or microchip. Registration forms must accompany health certificates when used as part of official identification.

5. Health Certificates: --

One Official Certificate of Veterinary Inspection (OCVI) may be allowed for animals of the same species to be exhibited at fairs or shows in any of the New England states (CT, *ME, MA, **NH, RI, and ***VT) when submitted with an itinerary of the dates and locations of the events at which the listed animals are expected to be shown. Only animals that are healthy at the time of shipment may be moved. Note that *ME, **NH, and ***VT have additional requirements. Certificates of veterinary inspection in these states are valid for a shorter period of time and may have additional language, movement and permit requirements.
For the 2022 Show and Fair Season, livestock animals being exhibited in New England states must have official certificates of veterinary inspection (OCVIs) that meet the following requirements:

a. **MA and RI:** OCVIs issued on or after January 1, 2022 may be used for those animals being shown at multiple fairs and shows in CT, MA, and RI through the 2022 show/fair season ending October 31, 2022.
   i. **CT and ME:** An importation permit for exhibition animals is also required. Contact CT Dept. of Agriculture (860-713-2504) or ME State Veterinarian’s Office (207-287-3701) for permits or questions.
   ii. **MA -Note:** The Big E Fairgrounds in West Springfield requires a CVI issued within the prior 30 days for all horses entering the premises for any show, fair, or exhibition.
   iii. **NH:** To qualify for the extended CVI, animals exhibited in NH must originate in a New England state and move on OCVIs issued on or after April 1, 2022 to participating NH fairs and shows from July 1 to October 31. The extended CVI is not available for animals that do not reside in New England. Contact NH State Veterinarian’s Office (603) 271-2404 for details and permits.
   iv. **VT:** Contact the VT Animal Health Office (802-828-2421) for specific import requirements that deviate from the general information in this letter and must be met for legal import of livestock.

b. A single OCVI from the animals’ home state may be completed for travel to and from the New England states in which the animals will be exhibited. **MA animals being shown ONLY in MA may substitute a signed, dated letter on the letterhead of an accredited veterinarian for an OCVI if all required information is included and all additional requirements are met.**

c. Multiple animals of the same species may be listed on one health certificate with appropriate individual IDs and descriptions. Animals of different species may not be listed on the same official health certificate.

d. An itinerary of the names and locations for each New England fair or show at which owner expects to show the listed animals and the dates when each animal is expected to be on each site, must be prepared by the owner and presented to the veterinarian at the time the OCVI is written.
   i. A copy of this planned itinerary must be attached to the official health certificate (import and export) for it to be used for more than one fair or show.
   ii. That proposed list should be signed by the veterinarian and the owner/exhibitor and reference the relevant OCVI number(s).

e. The name and address of the first show or fair where the listed animals will be exhibited is to be used as the “destination” on the OCVI form. In addition, “See attached list” or a similar statement directing Animal Health Officials or Fair Inspectors to the attached proposed itinerary must be included.

f. Exhibitors must keep an accurate list of the show locations and dates when their animals were actually on the show/fairgrounds. This record must be available to fair inspectors at each inspection and check-in.

g. Any animal listed on an OCVI that becomes sick must remain home. If the animal is refused entry to any exhibition during 2022 for health reasons it must have a new health certificate issued by an accredited veterinarian within 30 days of the next interstate movement.

h. Any New England state may end their participation in this agreement and revert to the standard published requirements for livestock imports in the state at any time, in the event of foreign animal disease outbreak or changes to state legislation.

All petting zoos are required to have a USDA APHIS Exhibitor’s License (as needed) and valid 2022 health certificates.
