- d. All equines must be free of visual evidence of the following diseases and conditions: mange, ringworm, soring, strangles, and open or draining wounds.
- e. While not required, it is strongly recommended that all equines be vaccinated for rabies, tetanus, EEE and WNV within one year of the fair.

- j. The show veterinarian will document all potentially sick horses and provide that information to Massachusetts Department of Animal Health.
- k. It is recommended that all horses exhibited at ESE should be vaccinated within the past six months for respiratory infection.

Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only, and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
