4. LDAF/State Fair of Louisiana Livestock guidelines for intrastate movement to Louisiana 4-H/ FFA and Open Shows are:
  - a. Original or copy of an official health certificate is required for each family.
  - b. In-state health certificates are valid for 60 days and must be written by a Category II accredited veterinarian.
  - c. More than one owner will be allowed on the health certificate if the Shipper/Consignor is identified as the Parish AgCenter (parish of origin, i.e., Acadia Parish AgCenter) with the parish AgCenter address.
  - d. More than one destination will be allowed on the health certificate if the Receiver/Consignee is identified as LA 4-H/FFA Show Circuit.
  - e. More than one species will be allowed on each health certificate. Animals must be individually identified and listed on the health certificate or on an attached spreadsheet.
  - f. Livestock identification that may be used by the accredited veterinarian to write a health certificate to 4-H and FFA Shows are:
    - USDA Metal “Brite Tags” or calfhood vaccination tags
    - 840 RFID tags
    - Microchips
    - Scrapie Tags
    - Leg bands
    - Breed registry tattoos, breed registry brands, or breed registry ear notches IF breed registry documents accompany the animal shipment
    - State Fair of Louisiana Livestock Show Tags issued by the State Fair of Louisiana for commercial and market animals for intrastate exhibitors only

5. \*Note to Accredited Veterinarians:
  - a. If an animal is presented for a health certificate before the LA Show Tag has been issued, then an official ID tag must be applied to the animal to write the certificate or you must wait until the show tag has been issued. Ear notching is NOT acceptable identification for swine unless it is a breed registered ear notch and breed registry papers must accompany the health certificate.
  - b. If an animal is presented for a health certificate by a single family, then the standard one family, one destination health certificate should be written. It is valid for 60 days if it is written for an LSU AgCenter show. The parish-wide certificate is a convenience for the Parish County Agent and attending veterinarian to coordinate multiple families and multiple species with a group veterinary visit.
  - c. The veterinarian must make a visual inspection of all animals listed on the health certificate.
6. Health certificates may be checked by LDAF personnel at the State Fair of Louisiana shows.
7. Regulatory personnel may be walking through barns and checking animals and papers at shows.

If it is not possible to move an animal, the animal may not be exhibited in such show.

If an appeal satisfying the forgoing requirements is filed with the IBBA Board of Directors, the IBBA Board of Directors shall hold a hearing at which the appealing party and the veterinarian or designated association representatives whose decision is being appealed shall present statements and other evidence that are relevant to the matter, following which the IBBA Board of Directors shall render a decision which shall be final and conclusive.

Staff or a representative of IBBA will supervise the collection of tail hair samples, which can be taken at shows, fairs and events where IBBA contributes premium money or where IBBA staff personnel participate. If a recorded parent is excluded (as a parent) as a result of DNA analysis, the owner of the animal may request, as his or her own expense, further determination of the actual parent. However, the animal can be disqualified by the Ethics Committee if the rule violation is deemed valid. 5. ## **PROJECT HARDSHIP POLICY AND GUIDELINES**

### **OBJECTIVE:**

The objective of the youth livestock program is to develop responsibility, dedication, decision-making, leadership, trustworthiness, sportsmanship and citizenship through the possession and personal care of a live animal project. The youth (4-H or FFA member) are afforded many educational opportunities and activities to learn about animal agriculture and develop life skills. The ultimate goal is to strive for maximum contact with the animal and participation in educational activities along with learning responsibility for raising and caring for livestock.

### **HARDSHIP POLICY:**

Livestock management understands that as in any life event there may be conflicts or extenuating circumstances, but it must be understood that guidelines along with deadlines must be adhered to in promoting responsibility for participation in any competitive event. The guiding concern in granting permission for hardship requests should be the education and development of youth.

### **GUIDELINES FOR GRANTING HARDSHIPS:**

#### **CATEGORY I – POSSESSION OF ANIMALS**

- a. Possession deadlines for project animals are set forth in the Livestock Rules and Guidelines to allow for conformity and organization within the livestock show thus allowing for fair and equal opportunity for all competitors.
- b. Validation and DNA submission for project animals is a required step for entry and also has deadline requirements set for within the Livestock Rules and Guidelines thus allowing for honest accountability and equal opportunity for all competitors.
- c. Hardship request for non-conformity to these deadlines must include a detailed explanation of the extenuating circumstances as to why the guidelines were not met. Consideration for hardship for late submission must fall within extreme circumstances such as hospitalized illness, death in family, etc.

#### **CATEGORY II – HOUSING OF ANIMALS**

- a. If housing for a project is not available the exhibitor may request a secondary location. It is recommended that the animal be housed within a reasonable distance to allow youth to interact with the animal project on a positive basis.
- b. Youth should do the majority of work and care for the animal project.

- c. Hardship housing requests must be made prior to possession date;
  - 1. Residential restrictions will be considered.
  - 2. Alternative opportunities for housing will be considered.
- d. Animals housed across the parish line must be recommended by Agent and/or FFA Advisor.

#### CATEGORY III – REPLACEMENT OF INJURED OR DECEASED ANIMALS

- a. Injured animals must be checked and verified by the 4-H Agent and/or FFA Advisor or veterinarian. Notification thru the hardship process should be completed in a timely manner of notification to the Livestock Show Manager.
- b. A replacement animal should be of comparable quality. Replacement of animals will be considered only to those exhibitors with;
  - 1. Only one small market animal project per species left for exhibit.
  - 2. Project animals meeting possession and validation/DNA deadlines.
  - 3. Replacement animals must be obtained within a reasonable amount of time to be determined by Livestock Show Manager.

#### CATEGORY IV – CONFLICTS WITH SHOW AND EXTENUATING CIRCUMSTANCES

Exhibitors must show their own animals. Exceptions will be made only in the following cases and with proper approval. In all cases, when the exhibitor cannot show his/her own animal, the exhibitor must have a bona fide 4-H or FFA member to show in his/her place. If the animal qualifies for the championship classes and the exhibitor is unable to show the animal, the same individual exhibiting in class must show the animal in the championship class.

- 1. Exceptions:
  - a. Exhibitors' animals will be allowed to show in class and in the championship drive only if the exhibitor cannot show due to illness, physical handicap, personal injury or death in the family. The Livestock Show Manager shall approve or disapprove these requests.
  - b. Academic conflicts (school tests, academic contest, ACT, etc.) will be considered. The Livestock Show Manager shall approve or disapprove these requests.
  - c. To obtain an exception for school conflicts and physical handicap, the exhibitor must file a Livestock Project Possession/Hardship Form and have proper approval prior to The State Fair of Louisiana.

**HARDSHIP PROCEDURE:**
