DAIRY SHOW RULES AND REGULATIONS

1. READ GENERAL RULES. All entries and awards within this show will be subject to the General Rules and Regulations published in this Premium Book and the following Special Rules. Any attempt to circumvent rules will result in disqualification of exhibitor(s).

2. ARRIVAL TIMES. Every effort must be made to arrive in the hours designated on each breed page. Inspectors shall inspect each animal as they are offloaded and are scheduled for specific arrival times. If you are unable to arrive at the designated time you must call the livestock office so inspector schedules may be changed.

3. PREMIER AWARDS. These rules apply unless specific rules for a breed are given. Awards are based on the exhibitor of six or less animals in each breed who accumulates the highest total points under the following system. If a tie occurs the points will be calculated based on the next animal.

4. PREMIER EXHIBITOR. The exhibitor (See General Rules and Regulations #11) credited with the most points on animals including those in multiple ownership, which he owns and exhibits in the open single class. If an exhibitor for Premier Exhibitor uses partnership or syndicate animals, these animals used in the groups must also be entered under his/her name. Breed rules take precedence, unless indicated differently in specific breed show rules on unique ownership. It is the exhibitor's responsibility to notify the Agriculture office which person of a multiple ownership will receive exhibitor points. This must be done before the day of the show.

5. PREMIER BREEDER. Awarded to the breeder of animals credited with the most points, regardless of ownership. Rules defining exhibitor and breeder also apply. Breed rules take precedence, unless indicated differently in specific breed show rules on unique ownership. It is the exhibitor's responsibility to notify the Agriculture office which person of a multiple ownership will receive exhibitor points. This must be done before the day of the show.

6. JUNIOR DAIRY SHOWS. These shows are open to exhibitors who are qualified as Juniors and who have owned or leased cattle by specified dates as established under the rules of their respective breed associations. For Juniors to be eligible for Junior Awards all ring assistance must come from another Junior.

7. BEST BRED AND OWNED. For Best Bred and Owned in the Open Show, the animal can be bred by the farm and shown by a family member. For JUNIOR Best Bred and Owned, the JUNIOR must have owned the dam. See respective breed rules concerning specific rules for Bred and Owned. Judge may designate Best Bred and Owned rather than call for a walk-in class.

8. JUNIOR EXHIBITORS. Junior exhibitors will be treated as adults, but may have their cattle stabled together if requested. Junior owned and leased animals will be judged with open cattle and will be asked to step forward just prior to the time of ribbon presentation (exception: Milking Shorthorn). Classes will follow those of the Open Show. Separate championship classes will be run. Youth Leases will be verified with breed associations. Please make sure they are up to date.

9. FITTING AND SHOWMANSHIP. Individual breeds may have Junior Fitting and Showmanship contests which will be held open to all youth who exhibit or who are assisting with farm-exhibiting cattle. The exhibitor need not own the animal they show. Exhibitors must comply with the age limitations for their breed as printed in the catalog. Exhibitors will be divided into classes (usually Junior, Intermediate and Senior) by birth date with exhibitors from those breeds present, combined. Register with your breed representative upon arrival.

10. AGE. Junior exhibitors MUST provide birth date on the entry form. This will allow us to designate the Junior exhibitors in the catalog.

11. MILK MARKETING. Exhibitors may avail themselves of the pipeline milking facilities or transfer system and filter facility. Due to increased concerns about the quality, exhibitors

CHRISTMAS TREE
electing to milk by other means may do so, furnishing their own equipment, sanitizing in the parlor before each use, and conveying milk from their cows to the bulk holding vessel as directed by the Idaho Parlor Supervisor. A tag indicating the sanitizing is complete will be issued for the container. Milk must be transferred immediately after milking for cooling purposes. Non-saleable milk must be disposed of via the sanitary drain in the Milk Room. Any other means of milk disposal, for example pouring down wash rack or aisle drains, is prohibited and grounds for show ejection, forfeit of premiums.

13. Stabling Requests. Stabling requests must be received in the Agriculture office NO later than August 31. Tie ins should be noted on stabling requests.

14. Quality Assurance. Eastern States Exposition has a commitment to provide opportunities for the development and promotion of the dairy industry. It is our responsibility to provide an environment for a fair and competitive competition and to make sure the dairy industry is providing a good display of animal husbandry for our fair going public.

15. Large Bales. Large square or round bales delivered by the Feed Store must be going public.

16. Horns. Animals with horns over 2” may not be exhibited.

17. Tents. One 12’x12’ tent will be allowed per exhibit - NOT exhibitor.

Eastern States Exposition endorses the PDCA Code of Ethics in all their breed shows. Though the Exposition realizes that there are certain management practices that are required to ensure the health of a dairy animal while on exhibition, the Exposition will not tolerate any unethical practices to enhance the appearance of the animal. Show Management reserves the right to use technology to test body fluids, such as milk, and to use the examination technology of ultrasound to detect unethical practices.

Exhibitor, by making an entry, is consenting to the collection of materials, e.g. milk, and photographic examination of the animal. By making an entry, the owner or exhibitor, as well as any individual handling or fitting the animal, is agreeing to supply proper animal and personal identification when asked by ethics personnel or Show Management.

Practices constituting a major violation will be subject to review by the Ethics Committee.

Major violations are defined as being fraudulent and/or unethical in the showing of dairy cattle. These include:

1. Misrepresenting the age and/or milking status of the animal for the class in which it is shown.
2. Treating the animal, particularly the udder, internally or externally, with an irritant or counter-irritant, or using a device to artificially create or enhance the udder crease or other substances as detected by testing that cause changes in the udder to artificially improve the conformation.
3. Administration of an injected or applied anesthetic to alter the carriage of the tail or other body parts.
4. Surgical or unethical insertion of any matter under the skin or into body cavities, performed to change the natural contour or appearance of the animal’s body (e.g., administration of fluid via a stomach tube or other similar apparatus to fill the rumen) though not to preclude practices required or involved in normal management.
5. Criticizing or interfering with the judge, Show Management or other exhibitors while in the show ring, or other conduct detrimental to the breed or the show.
6. Challenging, threatening, criticizing or interfering with an Ethics Committee member or volunteer appointed by Show Management to monitor the animals on exhibit on the show grounds.
7. Not providing proper animal and/or personal identification will result in a major ethics violation and the suspect animal could be disqualified from showing.
8. These major violations will be reported to Show Management and can result in animals or exhibitor, owners or representatives being barred. Serious and minor violations as defined in the PDCA Code of Ethics may also be reported to Show Management.

ENFORCEMENT PROCEDURE
Complaints of alleged violations may be presented to the Director of Agriculture. The complaints of alleged violations received by the above individuals will be presented to the Ethics Coordinator for review by the Ethics Committee.

Following the judging of the milking cow classes, the first place cow, the third place cow and one random select will be ultrasounded and a milk sample may be taken. Any second place cows will be tested if awarded a Reserve ribbon.

Following the evaluation of the ultrasound readings and upon the receipt of the milk sample analysis or other lab reports, the Ethics Coordinator will submit a report to the Director of Agriculture and Education if any violations have occurred. This reporting will happen approximately 2 weeks after the end of the show.

The Director of Agriculture and Education will then immediately notify the accused individuals that a major violation of the Show Ring Code of Ethics has occurred and all of the supporting evidence will be shared confidentially with the exhibitor. Approximately two weeks later an ethics hearing will be scheduled.

If found guilty of a major violation of the Show Ring Code of Ethics, the individual, the exhibitor and/or owner, the representative and/or the animal, will be barred from participating at Eastern States Exposition for a minimum of one year and up to three years. The identity of the animal(s), exhibitors and/or representatives that are barred will be kept confidential.

Barring an exhibitor or representative and/or an individual will result in animals owned fully or in partnership by that individual, farm and/or affiliated entity not being allowed to enter or exhibit in any Eastern States Exposition show. That individual will also be ineligible to serve on an official committee, be present in the show ring and/or serve in any other ESE official capacity for the length of the barred term.

An animal found in violation of the Show Ring Code of Ethics will forfeit all class and/or futurity monies.

IN 2022, BROWN SWISS, RED AND WHITE, HOLSTEINS, JERSEY, AYRSHIRES & MILKING SHORTHORN will be tested.

2. **Production Awards.** Donated by Fightbac, Inc., awarded to the animal with the highest total consisting of the sum of the highest actual 305 day or less milk, amount of fat and amount of protein. Awarded for official lactations completed within the last 12 months from the date of show, and the animal must currently be on official test. Substitute entries are eligible. If there are more than ten animals in the class only the top half are eligible. Records should be listed on the entry blank at time when entries are made. These records will appear in the catalog. Records will be accepted when the breed superintendent checks in the cattle. DHI records must verify all records. Records will not be accepted day of show.

3. **Parentage Verification.** The Ayrshire Breeders’ Association has instituted a National Parentage Verification program. The Association will parentage verify, on a spot check basis, the high placing animals at the four National, Regional or State shows. Each year they will select one or more shows at random. The Association will cover the parentage verification charges. Their objective is to validate the parentage of and give credibility to those animals gaining national attention and recognition. Samples must be taken before the animals leave the Exposition grounds or the breeder will be required to provide the sample by a licensed veterinarian at his/her expense. The blood typing laboratory costs will be absorbed by the Association for the optional programs.

If total points are tied, then actual pounds of fat will be used as a tiebreaker. If still tied, the judge will be asked to break the tie. Record to be used is last completed 305 day record based on an M.E. 4% E.C.M. (Records to be on hand and made available by the exhibitor prior to show day.)
