a. Fitting goats, sheep, swine, and cattle with adhesive or like substances is permitted.

31. ANIMAL/EXHIBITOR DISQUALIFICATION: To foster fair competition, to provide a level playing field and to protect the safety of food, the following will be prohibited: the showing of unethically fitted animals, animals in violation of rules on prohibited substances, and/or falsification of records. Additionally, any animal that has been administered a drug that is FDA approved for its species is subject to disqualification if that animal tests positive for that drug upon arrival at the Aksarben Stock Show. All animals must remain free and clear of all drug and chemical residues while on the grounds.

a. **Unethical Fitting:**

i. **Description:** Unethical fitting means any attempt to alter the natural appearance, conformation, musculature or weight of an animal by any unnatural means, as well as changing the normal conformation of any part of an animal's body or using drugs, medications, chemicals, or other substances (including over the counter and extra-label substances and uses), or mechanical devices to alter the physical makeup or performance of the animal. Unethical fitting includes, but is not limited to the following:

1. Treating or massaging any part of the animal's body, internally or externally, with an irritant, counterirritant, or other substance to temporarily improve conformation. This includes the application of any substance per rectum.
2. Balancing the udder by any other means than natural milk left in any or all quarters.
3. Blocking the nerves to prevent limping or switching of the tail.
4. Bruising or blemishes to the animal, especially those that negatively impact food safety or marketability of an animal's carcass.
5. Surgery or other practices performed to change the natural contour or appearance of an animal's body, hide, hair or feet (this includes materials added to the feet of an animal) except the removal of warts or horns and the permitted clipping of hair and trimming of hooves.
6. Insertion of foreign material under the skin, whether gas, solid or liquid.
7. Changing the color of hair, spot, or area on the animal's body.
8. The act of artificially filling animals internally, which would include stomach pumping, drench tubes or any other method per esophagus.
9. The use of diuretics.
10. Administration of an illegal, unapproved or performance enhancing drug internally or externally.

ii. **Verification:** All exhibitors must submit a signed ethics affidavit and statement of disclosure to the Aksarben Stock Show superintendent for each species they are exhibiting at the time of check in. This form shall serve as an acknowledgement of having read the show/premium book and a willingness to abide by it. By submitting and signing the Aksarben Stock Show Livestock Ethics Form and Statement of Disclosure, the exhibitor and

parent/guardian certify that the entry has not been administered or that the exhibitor and/or parent/guardian do not have knowledge that this entry has received any substance not approved by the Food and Drug Administration (FDA) and/or the U. S. Department of Agriculture (USDA) for food animals. Furthermore, by signing these forms, the exhibitor and parent/guardian certify that this entry is free and clear of drug and chemical residue that exceeds allowable limits set by the Food and Drug Administration (FDA) and/or the U.S. Department of Agriculture (USDA) for class and species of animals. If an exhibitor discloses use of a substance that does not meet the withdrawal time per the determination of the Aksarben Stock Show Veterinarian, then that animal is subject to disqualification.

- iii. **Approved Medication Prior to the Aksarben Stock Show:** In instances where an animal has been administered a drug that is FDA-approved for its species, the exhibitor must be aware that the time it takes for all drug residue to completely clear the system is **generally longer than labeled withdrawal time** for most drugs and varies from animal to animal. Adequate time must have passed so that an exhibitor's animal is outside the withdrawal time of the medication. Once the animals arrive on grounds, they must remain free and clear of all residues of medications, drugs, chemicals, and other substances. It will be considered a violation if a test result indicates the presence of an approved drug, additive or contaminant that exceeds a residue limit (tolerance) set by the FDA and applied by the FSIS.
- iv. **Unapproved Medication:** Those animals that have consumed or been given, even under the care of a licensed veterinarian, any type of unapproved drug, chemical or medication are prohibited from showing. Such drugs include, but are not limited to any diuretic, unapproved growth stimulant, steroids, caffeine, and other unapproved medication. Unapproved means not approved by the Food and Drug Administration and/or US Department of Agriculture for animals. It is the responsibility of the exhibitor to be aware that federal law prohibits the use of certain drugs, families of drugs, and substances for extra label use. It will be an increased penalty if a market animal tests positive for any of these prohibited drugs or drug families.
- v. **Medication during the Aksarben Stock Show:** The Aksarben Stock Show Veterinarian Office is located on the east side of the Sheep Barn. For the convenience of our exhibitors, the Aksarben Stock Show arranges to have veterinarians available; however, they do not donate their services or medications. Fees should be discussed before treatment. Additionally, it is the responsibility of the exhibitor to communicate if the animal is eligible for further competition. **All medication and treatment administered during the livestock show must be administered by the official Aksarben Stock Show Veterinarian** and a written medication record filed. Animals which are administered treatments with a withdrawal period beyond the time of show will be disqualified from competition. Furthermore, the official Aksarben Stock Show Veterinarian, in agreement with show management, reserves the right to treat any animal, if in the opinion of the Aksarben Stock Show Veterinarian, it is in the best interest of the animal's health and well-being to be treated.
- vi. **Beta-Agonists:** The Aksarben Stock Show will not tolerate the presence of ractopamine hydrochloride (re Optaflexx, Paylean) in market entries other than market beef or market swine, respectively. The Aksarben Stock Show will not tolerate the presence of any other beta-agonist.
- vii. **Inspection/Testing:**

1. Each exhibitor, by entering or exhibiting an animal at the Aksarben Stock Show, agrees that any animal entered by him or her may be subjected to inspection or examination by any veterinarian appointed by the Aksarben Stock Show. The Aksarben Stock Show may subject any animal to tests, sample-takings, or inspections that the Aksarben Stock Show deems necessary and appropriate, including but not limited to testing for drugs or other substances at any time. The Aksarben Stock Show reserves the right to conduct or have conducted for all its tests, inspections, or analyses it deems appropriate, including blood, urine, hair, fiber, tissue, milk, saliva and/or fecal. Any samples taken for testing become property of the Aksarben Stock Show. Positive test results may be made public. The Aksarben Stock Show may impound any animal for testing. Refusing such tests shall be cause for disqualification.
 - a. All Grand and Reserve Grand Champion Market Beef, Market Lambs, Market Swine & Market Goats will be tested under the terms of the Aksarben Stock Show Market Animal Drug Testing Policies and Procedures immediately following the final selection of that species. During the collection procedure, the exhibitor and a designated responsible adult must always present, unless a substitute exhibitor is approved by the Superintendent. Following the collection, the exhibitor and a parent/guardian MUST complete and sign the Aksarben Stock Show Drug Use Notification and Test Sample Collection form.
 - b. All other market animals will be subject to random testing. Random tested animals will not be harvested but will be subject to all sanctions including but not limited to disqualification, forfeiture of monies, and may be banned from future participation at the Aksarben Stock Show.
 2. The animal owner, exhibitor, fitter and associated participants bear absolute responsibility for an animal's condition, whether he or she was actually instrumental or had actual knowledge of the administration of drugs or medication or treatment of the animals.
- viii. **Wholesome Meat Act:** The United States Department of Agriculture Wholesome Meat Act applies to ALL market livestock exhibited at the Aksarben Stock Show.
1. Animals must be in good health and carcasses free of drug or chemical residues.
 2. Antibiotics and sulfonamides have required withdrawal periods.
 3. Drug label directions for use and withdrawal periods must be followed. Please note that elimination time (the time it takes for no drug residue to be found in the system) is generally longer than the labeled withdrawal period for most approved drugs.
 4. If drug or other chemical residues are found in tissue of carcasses, the entire carcass may be condemned.
 5. **The Nebraska State Fair Board shall not be liable or responsible for the condition of the carcass or the sale price of the animal.**
 6. Wholesome Assurance Statement:
 - a. The use by non-veterinarians* of any animal drugs or other substances in any manner other than in accord with labeling approved by FDA is a violation of federal law.

- v. Exhibitor will receive official notice of sanctions. At that time, they may choose to appeal the decision of the committee.
 - vi. If an appeal is requested a hearing will be convened by the Nebraska State Fair Board Agriculture Committee prior to the next scheduled Nebraska State Fair Board Meeting with the committee presenting final recommendations afterwards to the Nebraska State Fair Board.

IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS) CODE OF SHOW RING ETHICS

- Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial, and national levels. All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards, and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.
 - The following is a list of guidelines for all exhibitors and all livestock in competitive events:

- 1)** All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
- 2)** Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
- 3)** Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
- 4)** Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of, consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state, and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state, and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by official veterinarian.
- 5)** Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
- 6)** The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
- 7)** Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair, and livestock show management, or other show officials shall be treated with courtesy, cooperation, and respect and no person shall direct abusive or threatening conduct toward them.
- 8)** No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
- 9)** The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
- 10)** The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expos and any special notices to members.
- 11)** The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.
