## THE 4-H YOUTH DEVELOPMENT DEPARTMENT

4-H Youth Development Education Programs create supportive environments for culturally diverse youth and adults to reach their fullest potential. In support of this, 4-H:

- Provides formal and non-formal, community-focused, experiential learning,
- Develops skills that benefit youth throughout life,
- Fosters leadership and volunteerism in youth and adults,
- Strengthens families and communities, and
- Uses research-based knowledge and the Land Grant University System.

As a result of participating in the Fair, 4-H members are provided with an educational experience that includes:

- Learning and mastering life skills throughout the 4-H year.
- An interactive evaluation process with an evaluator. Evaluators award and encourage work that meets or exceeds desired standards. Evaluators will also provide positive comments and information that will help a member to reach desired standards
- An opportunity to showcase a completed project.
- Development of positive sportsmanship habits.
- An opportunity to develop teamwork skills by working with and helping others.

These combined help youth to become capable, competent, and caring citizens in their communities.

**It is the goal of 4-H to foster educational growth and development of youth through 4-H youth development program projects based on the teachings and research of the land grant colleges in the United States. In an attempt to reach that goal, the following rules and regulations have been established.**
