2024 California Fair Season

Welcome to the 2024 California fair season!

California fairgrounds continue to play a vital role in our state. As we enter a new year, and prepare for the new fair season, there is so much to be excited about. As a California fair exhibitor, you have a key part to play in teaching the public about the history of agriculture and its importance for the Golden State. Whether you are a new or a seasoned exhibitor, this is a unique opportunity to engage with members of your community, form a connection with California's farmers and ranchers, and attract future generations of agricultural leaders.

Annual fairs in California provide an invaluable family experience and proudly display our state's vast diversity of cultures and traditions, all while operating as economic engines and creating jobs within their communities. When fairgrounds are not hosting their annual fairs and other events, they serve their communities as resilience centers. During various floods, storms, and wildfires last year, fairgrounds across the state were activated by their local Office of Emergency Services to serve as evacuation centers for people, pets, and livestock.

Time and time again, fairgrounds demonstrate their importance to our state, and so much of this would not be possible without the good work of our dedicated fair exhibitors. Thank you for your advocacy and commitment to our state and the agricultural community. We look forward to another successful year in 2024!

Sincerely,

Gavin Newsom
Governor of California

CALIFORNIA DEPARTMENT OF
FOOD & AGRICULTURE

Karen Ross, Secretary

December 20, 2023

Thank you all for your efforts in showcasing California's bountiful agriculture!

California is very fortunate to have some of the richest agricultural resources in the world and your exhibits play a vital role in presenting this to your communities and the public. Each fair has a unique, local agriculture flavor that brings people together to celebrate the tradition and innovation of our farmers and ranchers.

In addition to helping promote California's agriculture, the annual fair events also educate the general public on new technology that improves agriculture's effect on the environment, stewardship of water and natural resources, and practices that help preserve farmland for future generations.

When fairgrounds are not hosting the county fair, they are also used for quinceaneras, weddings, funerals, and many other community events. In times of need, fairgrounds are amongst the first to open their doors and be used as resiliency centers to serve their communities as cooling centers, evacuation shelters, first responders, food hubs, and workforce development. Fairgrounds are equipped with kitchens, sanitation facilities, and provide a safe space for sheltering people, pets, and livestock.

Your support of California fairgrounds and the annual fair is extremely important to the success of current and future generations and I look forward to hearing about the great success of the 2024 season.

Yours truly,

Karen Ross
Secretary

Excessive use is defined as the use of a substance to the point that it irritates the animal.

5. Any animal that is unmanageable or that could be a safety hazard to the public will be removed from the fairgrounds. The Livestock Superintendent makes this decision final.

 - a. Any return of entries under this rule must be done on a nondiscriminatory basis.
 - b. The horse show management must divide classes of 50 or more. Separate prize money and ribbons shall be provided for each class.

Nine permissible medications (dexamethasone, diclofenac acid, firocoxib, flunixin, ketoprofen, meclofenamic acid, methocarbamol, naproxen, and phenylbutazone) are restricted to therapeutic usage as prescribed or administered by a licensed veterinarian, and test-sample levels detected must be in compliance with plasma or urine levels associated with limited dosing*. Additionally, the detection of more than one non-steroidal anti-inflammatory drug in either a blood or urine sample is a violation of California rules. Maintaining a current listing of specific prohibited substances is impossible due to the continual introduction of new pharmaceuticals, discontinuation of old ones, off labeled prescription of human products, and utilization of foreign products. Additionally, some exemptions exist.

*Specific information is contained in the "EMMP Medication Guidelines Brochure" found at http://www.cdfa.ca.gov/ahfss/Animal_Health/emmp/ or may be requested from CDFA/EMMP at (916) 508-3302 or emmp@cdfa.ca.gov.

- c. Horses must be withdrawn from competition for at least 24 hours after administration of a prohibited substance. Chalk Drawing Rules

Due to the "blend-ability" and softness of the colors, chalk drawings automatically take on an almost ethereal appearance. In Mary Poppins, they are downright magical! Wouldn't it be fun to pop into a drawing and explore it just like Mary and Bert? If a drawing could take you anyplace you'd like to go, what would you draw? An actual place like the moon, another country, or the top of Mt. Everest? Or, an imaginary place like Hogwarts? You decide!

1. Create your drawing on a 9"x12" sheet of construction paper, any color. Do not attach drawings to any type of mounting board or backing.
2. Please use ONLY regular chalk or chalk pastels to create your drawing. NO oil pastels.
3. Required: Please write the location of your drawing in the bottom right corner of your paper using chalk, pencil, pen, or marker.
4. Optional but not required: Drawings may be laminated or sprayed with a fixative to resist smearing.
5. Entries will be judged on originality, creativity, appearance, and adherence to rules.

Currently, the CDFA AHFSS Division is the only governmental entity certifying agent and certifies at no cost to the producer. If a producer would like CDFA to certify their farm, they can contact the ACP at AnimalCare@cdfa.ca.gov to inquire about applying for certification.

Harris Ranch Beef Company - Feed Yard Supplier Agreement

Increasing demands on the part of retail and foodservice customers of Harris Ranch Beef Company (HRBC); coupled with the need to provide assurances that all beef produced by HRBC meets the same standards regarding production practices, food safety and label claims (both existing, and future claims) has prompted HRBC to request suppliers of fed steers and heifers to provide the following assurances:

Animal Welfare - The Beef Quality Assurance (BQA) program establishes best management practices to assure the consuming public of the safety and wholesomeness of beef. HRBC is requesting approved suppliers to provide assurances that their employees with direct management responsibilities and day-to-day oversight of cattle are properly trained, and certified, through the BQA program. The BQA certification process is relatively simple, and can be accessed through the website of the National Cattlemen's Beef Association at beef.org

Cattle of Domestic Origin - Although Country of Origin Labeling (COOL) is no longer required of those marketing beef in the U.S., HRBC maintains programs that allow for the identification and segregation of cattle, beef and beef products generated from cattle of domestic origin. As such, HRBC is asking all approved suppliers to identify cattle sold to HRBC as being either: 1) all of domestic origin; or 2) cattle that have originated from Mexico and/or Canada have resided in the United States for a minimum of 100 days (days on feed/or pasture). Records are maintained for a minimum of 3 years.

Adulterated Cattle - The Federal Food, Drug and Cosmetic Act prohibits the feeding of mammalian tissue (meat and bone meal) to ruminant animals. Feeds containing these products cannot be fed to cattle. Additionally, to ensure violative levels of animal drugs are NOT present at the time of slaughter, strict adherence to withdrawal times is required. Feedlots identified by USDA/FSIS as being "repeat violators" of federal drug residues policy cannot sell cattle to HRBC.

EU Veterinary Requirement - The EU requires all livestock establishments to have a valid Veterinarian-Client-Patient- Relationship (VCPR), and an annual on-site visitation by an accredited veterinarian. By signing this document, you attest to having both a VCPR and onsite visit by a veterinarian on an annual basis.

Tallow - If feeding tallow in your rations, federal law (21CFR:589) requires that insoluble impurities within tallow cannot exceed 0.15%. We ask you obtain a Certificate of Analysis (COA) when receiving tallow at your feedlot, and keep this documentation for a minimum of three years.

This signed agreement acknowledges your ability to meet the requirements described above, and provide the necessary information (if requested) to demonstrate the same. This agreement shall remain in force until revoked in writing by the undersigned seller and such revocation is delivered to HRBC.
