Our goal is to work in conjunction with local governmental agencies to ensure that all events and rentals have appropriate safety plans in place. **Please pay attention to special guidelines for events that will have 2,500+ at one time on MEP property.**

It is the promoter's responsibility to know the rules and regulations contained in this handbook as they are an extension of your Lease Agreement. **IT IS CRITICAL THAT PROMOTERS COMMUNICATE ALL PROPERTY POLICIES AND RULES TO VENDORS AND/OR PARTNERS WHO ARE PART OF THEIR EVENT.** Failure to comply will result in forfeiture of security deposit. We encourage all promoters to conduct a site inspection and to plan for such in advance so we can prepare accordingly.

Management reserves the right to amend, add to and interpret the following Rules and Regulations, and determine all questions and differences with respect thereto, arising out of, connected with or incident to the Promoters use of the facility and/or grounds. Your signature on the facility contract represents your acceptance of our policies, operations guidelines and event services. FOOD VENDOR PERMITS

Meadow Event Park is in the Rappahannock Area Health District. A temporary food vendor permit application is available at www.vdh.virginia.gov/rappahannock or it can be obtained at the Caroline County Health Department. If your event includes food vendors above and beyond the contracted MEP concession, these permit rules must be followed.

Contact:

Jennifer Davies,

Environmental Health Supervisor,
Rappahannock Area Health District
540-507-7393;
Jennifer.Davies@vdh.virginia.gov

- ❖ Anyone wanting to prepare and/or serve food should contact RAHD and ask if they are required to have a temporary food vendor permit.
- ❖ Some mobile units are permitted year-round and can operate without further inspection.
- ❖ Other mobile units do not have year-round permits in Virginia and may need temporary food permits.
- ❖ Mobile units that serve frozen desserts only such as ice cream and frozen yogurt should be inspected/licensed by the Virginia Department of Agriculture.
- ❖ Vendors preparing and/or serving food under a tent or at a booth inside one of the buildings may or may not need a permit depending on the types of foods they are serving. For example, someone opening containers of peanuts and serving samples would not need a permit but a vendor roasting peanuts on site would need one. Foods must be from approved sources (manufactured in a facility under regulatory inspection)".
- ❖ Temporary event applications must be submitted no later than 10 days before the start of the event (or when the vendor is requesting the inspection).
- ❖ Applications must be submitted for each event the vendor is participating in. Currently there is a \$40 annual fee charged. If a vendor has paid the fee for the calendar year, they do not need to pay again but they do need to attach a copy of their receipt with the application showing that they have paid.

It works best when event coordinators of large events provide a list of food related vendors in advance. Inspections are conducted by our department and permits issued before the vendor can start preparing or serving any foods.

FIRE CODE REGULATIONS

Listed below are the most common Fire Code Regulations that pertain to events in the MEP. Not all regulations are listed. If there is a concern regarding an exhibit or event, please contact your Event Manager.

Show management, exhibitors, service contractors and all other involved parties must comply with all Federal, State and municipal fire codes that apply to places of public assembly.

Sections of the Life Safety Code Book, which are pertinent to places of public assembly, shall be considered part of all eases whether specifically referenced or not.

1. All drapes, curtains, table coverings and skirts, carpet or any materials used in exhibits must be flame retardant. Flame retardant chemical certificates must be current and available to the Fire Marshall upon request. All such material is subject to flame testing by the Fire Marshal. Firefighting and emergency equipment may not be hidden or obstructed, including fire extinguishers and fire hose cabinets, fire alarm pull stations, standpipes and exit signs.
2. Exhibit booths and other structures constructed within an area equipped with an automatic sprinkler system, shall not be constructed with any roof, ceiling, or other enclosure which would prevent the sprinkler system from protecting the booth area. For approved canopy structures, contact the Fire Marshall. Any multi-level booth may require approval by the Caroline Building Official and may require floor plans in advance.
3. Crates, wooden boxes, packing material, etc., may not be stored in public spaces, meeting rooms, ballrooms or exit areas. Lessee and Service Contractors are expected to make arrangements for proper storage of all crates and packing material. Vehicles with gasoline engines may be displayed with a minimum of $\frac{1}{4}$ of a tank of gas remaining in the tank. No fuel may be drained in the facility or on the loading dock. A locking gas cap must be installed, or the tank must be adequately sealed by tape or in some other appropriate manner. All battery cables must be disconnected and taped to avoid potential sparks. No vehicles may be moved during event hours. Liquid petroleum fuel tanks shall be removed.
4. No gasoline, kerosene, diesel fuel or other flammable liquids may be stored, permanently or temporarily, inside the facility. Refueling must be done a minimum of fifty (50) feet beyond the exterior of the facility.
5. Access to fire exit doors, corridors, switch gear, fire hose cabinets, standpipes, extinguishers and alarms must always remain visible and accessible.
6. The use of pyrotechnics, welding equipment, open flames or smoke emitting material as part of an exhibit must be specifically approved on an individual basis by the Caroline County Fire Department.
7. Depending on the event, extra fire extinguishers may be required by the Fire Marshall at the expense of the Lessee.
8. Propane tanks are not permitted in the building.
9. The exhibit halls, ballrooms and meeting rooms have limited areas for storage. Corridors are designated as fire exits and may not be used to store equipment of any kind.

Department of Fire-Rescue and Emergency Management

Timelines, Submittal and Approval

- ❖ Events with more than 2,500 people on property will require a Special Event Application from Caroline County.
 - From which the Fire Chief will determine what, if any, levels of Fire/EMS coverage and Emergency action plans are necessary.
 - Promoters are urged to set-up a meeting with the Caroline County Fire-EMS Department as early as possible to discuss required planning and operational elements.
 - Only a complete set of planning elements will be reviewed. Partial plans shall only be accepted, in advance of the 21-day business day submittal timeline.
 - The Fire Chief may determine, based on the activity or event, additional review time will be required. In such cases, the Fire Chief will document in writing the required time.
- ❖ Review and comments shall be submitted to the event promoter and VFBHC within 10 business days of the complete submittal.
- ❖ A letter of Approval or Denial with comments will be forwarded to the event promoter and Virginia Farm Bureau Holding Corporation (VFBHC).
- ❖ All planning elements shall have (1) point of contact for communication.

Emergency Action Plans

- ❖ A hazard assessment will be provided by the Fire Chief, detailing what Emergency Action Plans (EAP) will be required of the Event Promoter or VFBHC for the associated risks with an event.
- ❖ An Emergency Action Plan, or EAP, is a formal written plan, developed by the event promoter that identifies potential emergency conditions at the event site and prescribes the procedures to be followed to minimize or prevent loss of life and property.
 - An EAP is needed for two main reasons:
 - ▲ To define the coordination of necessary actions by the sponsor of the event and the responsible municipal, county, and state officials to provide for timely notification, warning, and evacuation in the event of an emergency, to include catastrophic emergencies beyond the normal expected hazards, i.e., weather phenomenon, etc.
 - ▲ To reduce risk of loss of life and property damage resulting from an emergency. Unique situations do sometimes develop that may result in emergencies. Therefore, it is prudent for the sponsor to identify conditions that could lead to on-site or site related disasters, in order to initiate emergency measures that could prevent or minimize the consequences to life and property.

Fire Services

- ❖ All events, renters, promoters and users of the facility will adhere to the provisions of the Virginia Uniform Fire Code. Virginia State Fire Marshal's office will provide fire inspections at events when necessary.
- ❖ Contingent upon the hazard assessment, the Fire Chief shall determine if stand-by services are needed. Example: Engine Companies, Fire Marshals, Command Staff, etc.
- ❖ **Pyrotechnics Permit**
 - If your event includes any pyrotechnic display (aerial fireworks/proximate effects etc.), you must obtain a separate permit for the use of fireworks from the Department of Fire-Rescue.

Emergency Medical Services Requirements

Timelines, Submittal and Approval

- ❖ An essential requirement when planning a special event is the adequate provision of first aid and/or emergency medical services. It is imperative that normal emergency medical services operations for the County are not hindered by the staging of a special event. The Department of Fire-Rescue must review and approve your plans for first aid and/or emergency medical services to ensure that provisions are in place for coverage by proper licensed/certified personnel.

Meadow Event Park requires events that have attendance over the 2,500 threshold to schedule on-site emergency medical personnel (EMS) with one of VFBHC's preferred EMS providers. Should MEP management and promoter propose an alternative to the present providers, the contracted medical provider shall conform to all Virginia Office of EMS regulations, and meet the conditions and criteria set by Caroline County for service delivery.

All contract EMS providers must comply with the Following:

- I. VA Code: 12VAC5-31-30 Paragraph (B).
 1. No person may establish, operate, maintain, advertise or represent themselves, any service or any organization as an EMS agency or as EMS personnel without a valid license or certification, or in violation of the terms of a valid license or certification issued by the Office of EMS.
 2. A person providing EMS to a patient received within Virginia whether treated and released or transported to a location within Virginia must comply with these regulations unless exempted in these regulations"
- II. Be pre-approved by Caroline County Fire-Rescue to provide EMS service in Caroline County (Chapter 15, local ordinance.)

The Code of Caroline states **Fire-EMS Chief** - "shall be responsible for regulating and managing the provision of pre-hospital emergency patient care and services and for regulating providers of the non-emergency transportation of patients requiring medical services" (Chapter 15-4(a)). The Fire Chief requires that **all persons** or **business** providing pre-hospital care in Caroline County follow Virginia State EMS Regulations, to include VA Code: 12VAC5-31-30 Paragraph (B). 1. No person may establish, operate, maintain, advertise or represent themselves, any service or any organization as an EMS agency or as EMS personnel without a valid license or certification, or in violation of the terms of a valid license or certification **issued by the Office of EMS.**

Things to be aware of:

- Anyone certified or non-certified in Virginia may provide treatment to the Basic First Aid level to include CPR and AED.
- Anyone providing EMS care in Caroline beyond "Basic First Aid/CPR" must be operating through a licensed Virginia EMS agency, and certified in Virginia as a First Responder, EMT, EMT-E or EMT-I or EMT-P and subject to all the rules of the office of EMS.
- EMT's are certified and as such must work under a Doctor's License & Insurance. Many times, EMT believe they are free to practice as an EMT with or without compensation using their existing Operational Medical Directors consent.
- As such any individual contracted or providing volunteer EMT or above service in Caroline County is required to have a letter from their OMD stating his/her consent and liability coverage.
- These individuals must also provide permission to practice in either the ODEMSA or REMS region.
- Have an approved means of reporting / documenting the incident and treatment.

Physicians.

Are regulated by Virginia Board of Medicine. See Regs.

https://www.dhp.virginia.gov/medicine/leg/Medicine_07162015.doc

Physicians must be licensed to practice medicine in Virginia. Physicians that are going to act as an Operational Medical Director (have EMT's, Paramedic's Etc.) would need to follow State Regulations for EMS Licensure.

Out of state physician can practice in Virginia without a VA state license if its pro-bono (18VAC85-20-22)

The following is a guide based solely on the number of people anticipated at an event. The following conditions may affect the staffing/response levels of your event: nighttime vs. daytime, availability of alcohol, location of event or dynamic events, number of patrons/spectators, type of event, weather and time of year, length of event, crowd demographics, event medical history, density of crowd, on-site camping, among others. Additional EMS response resources not included on the matrix that may be required are: EMS bike teams, foot patrol teams, golf cart/UTV response teams, mass casualty incident response equipment, or other specialty teams as needed.
