# CARNIVAL LIGHTS AND TREAT STREET DELIGHTS

## Welcome to the Carnival Lights and Treat Street Delights Fair!

We are so excited to share these beautiful Fairgrounds with you and your family. This year, we've found a great way to showcase our well-known "Treat Street" that is proudly operated by Nevada County nonprofit organizations. Did you know that in 2023, over one-million dollars was raised for local nonprofits on Treat Street alone? As you grab a taco, pulled pork sandwich, funnel cake or frosty freeze ice cream cone, you can feel good knowing that the money you spent will directly help our local community!

Butler Amusements is also helping us deliver the "carnival lights" portion of our theme by the return of the Giant Wheel! Hop on for your bird's-eye view of the Fairgrounds as you soar to heights of one hundred feet! While up

there, be sure to snap a picture and tag us on social media or use #nevadacountyfair2024. Who knows, you might just see your picture used in future marketing.

Throughout this guide, you'll find hour after hour of great entertainment including well-known bands like the Crowned Kings, Heather McFadden Band, The Edgetones and the Ariel Jean Band. As you're walking around the grounds, don't forget to stop in at the Special Events Tent where you can find fun activities for the whole family including nightly karaoke.

Our very talented and dedicated fairgrounds team has been working tirelessly over the last several months to produce the most enjoyable Nevada County Fair. We hope that you make memories to last a lifetime!

## From Despair to Hope: Conquering Peripheral Neuropathy

*"It's as though I'm stepping from razor blade to razor blade."*

*"It feels like my feet are under attack by fire ants."*

*"Like I'm walking on wet paint with rolled up socks."*

And you're in this kind of pain all the time.

"It's relentless, keeping you up at night and preventing you from doing even the most mundane tasks. Things that I used to take for granted, like wearing shoes and going grocery shopping. Two of my three children were getting married last year and I wasn't even sure I was going to be able to attend their weddings," shares Rose W. Rose was diagnosed with peripheral neuropathy in 2015, a degenerative condition affecting almost 5% of people over the age of 55. "My doctor sat me down and said, 'Rose, I'm so sorry to tell you this, but you have peripheral neuropathy. I'm going to prescribe you gabapentin to manage the

discomfort but overall, neuropathy is untreatable.' My first thought was, 'we can cure cancer but you can't stop my feet from hurting?' It felt like a cruel joke." While neuropathy can be caused by a number of things including diabetes and chemotherapy, over 23% of neuropathy cases are classified as idiopathic. In layman's terms, the cause is unknown. This was the case with Rose. "Basically every question I had was met with an 'I don't know.' It was depressing to say the least." Eventually, Rose was forced to quit her job because the numbness had started to set in and prevented her from driving. Fortunately for Rose, she would hear a special on the radio featuring Fusion Acupuncture Nevada County (FANC) and the work they were doing to treat peripheral neuropathy. "I thought it had to be a sham. After so many specialists told me there was no hope here was this Doctor saying she had a 90% success rate in treating neuropathy! I just had to call

## with Fusion Acupuncture Nevada County

and I can't begin to tell you how grateful I am that I did." Jade Lee, founder of FANC, says that cases like Rose's are incredibly common. "Almost all of my neuropathy patients have been told at one point or another that there is no hope. I like to think I specialize in offering hope." To quote the New York Times, "Chinese medicine proves itself where Western medicine fails."

"Acupuncture has been treating complicated, chronic conditions like neuropathy for thousands of years," shares Lee. "I start with a foundation based on this time-tested science and my years of clinical experience. I then tailor treatments based on a number of factors including the severity of your neuropathy, how long you've had it, whether or not there are any underlying factors, things of that nature. It's because of these personalized treatment programs that we're seeing such incredible results!" Four months after treatment, Rose is back at work and thriving. "Being back at work isn't

even the most exciting part," exclaims Rose. "Not only was I able to attend my son's wedding, but I could walk down the aisle! It was the most magical moment and I have FANC to thank for it. To think, I might've missed that." Rose held back tears. If you've recently been diagnosed with peripheral neuropathy, regardless of its cause, it's time to call Dr. Lee and the staff at FANC.

Call **(530) 652-4727** to schedule your very own comprehensive consultation and visit **[Fusionacu.com](http://Fusionacu.com)** to take advantage of their new patient offer, a \$0 consult (normally \$240).
