

HOW TO DEDICATE A MEMORIAL TREE

One creates a living memorial by dedicating a tree within the Arboretum. You are invited to make your dedication by either adopting an existing tree or purchasing and planting a tree from the approved list. If you choose to plant a tree you must pledge to maintain the tree and ground around it. This is most important in the first few years when the tree is getting established. In addition, the cost and mounting of the memorial plaque is the responsibility of the person adopting or planting a tree. Guidelines will be provided to assure a uniform appearance and if needed a Master Gardener volunteer can assist you. The current vender for plaques is Olde Town Awards and Engraving located on 912 Center Street NW, Conyers. The cost is under \$30.

DIRECTIONS: From I-20 take exit #82 and head east on Hwy 138 (~ 3.7 miles.) Turn right on Olympic Parkway (~ 2 miles.) Then right on Gee's Mill Rd. Take the next left onto Mane St. Watch for sign on right after an open green space.

VISITING THE MEMORIAL ARBORETUM

Arboretum is Latin for “garden of trees,” a serene retreat where the sounds of nature replace those of traffic and noise. Here we come to reflect and celebrate the lives of those we have known and loved.

Walk the trails which meander through the five plus acres of native trees.

Sit on a bench and meditate.

Read the plaques honoring loved ones. Signage also identifies the approximately 37 species of trees that make up the garden.

A BRIEF HISTORY OF THE GARDEN

The Rockdale County Master Gardeners' Memorial Arboretum was started in 2005 due to the inspiration and unwavering hard work of Master Gardener Cesare Matrundola.

The City of Conyers has generously given a long term lease on over five acres within the Georgia International Horse Park to the Rockdale Co. Master Gardener Association (RCMGA) with the understanding that member volunteers would clear underbrush, establish paths and manage the process under which memorial plaques are dedicated and maintained. Currently there are over 50 trees that stand with a memorial plaque of honor. This is an ongoing labor of love requiring monthly workdays throughout the year.

WHAT DO MASTER GARDENER VOLUNTEERS DO?

The mission of Georgia Master Gardener Program is to assist the University of Georgia Cooperative Extension Service to provide research based horticultural information to the community. All Master Gardeners are trained and VOLUNTEER to work on various community gardening projects. The Memorial Arboretum is only one of the many projects in the community the Master Gardeners Extension Volunteers (MGEV) in Rockdale are involved with.
