GARDEN EXHIBITS

Superintendent: Jan Barnason

Entries in this department must have been grown by the exhibitor during the current year. All items shall be displayed on paper plates or preferably plastic coated paper

plates, which the exhibitor shall furnish, unless otherwise specified. Points the judge will be looking for are: uniformity, not too large and all shaped the same and have a good smell.

Vegetables should be clean and displayed in the following manner. Green and yellow wax beans shown as pods and should be whole, including the short stem which is attached to the plant. They may be washed or cleaned with a damp cloth. Cabbage Stalks should be cut smoothly at the base or head. Outer leaves may be removed, but not any more than necessary to present an attractive appearance. All carrots, beets, kohlrabi and turnips should have the top cut back to one inch in length. Side roots should be carefully removed so that the skin of the vegetable is not scuffed or broken. Celery should be at least nine inches long from the base of first leaflet on the outside petiole.—Remove the small outside stalks or suckers. The leaves may be partially clipped. Trim off diseased and broken leaves and small stalks and suckers on the outside until the color is uniform. Sweet corn should be husked, but DO NOT cut off either end. Cucumbers need to have short stem attached. Onions and garlic should have the top cut to one inch in length. The roots are to be trimmed to one inch. Some of the papery skins surrounding the bulb may be carefully removed but at least one should be left covering the onion and garlic bulb. Rhubarb needs a two inch leaf on the end. Do not cut off the root end; leave as pulled. Tomatoes should have a short stem left on the fruit and be mature. NO GREEN TOMATOES WILL BE ACCEPTED.
