Entry Procedures & Department Rules

1. Please read all Open Class Static Exhibitor Rules
2. Flat ribbons will be awarded for 1st, 2nd, 3rd places and rosette ribbons for Best of Class and for Best of Show in each Division.
3. Special awards are listed at the end of the department.

Entry Hints:

To help you select and prepare your entries, a good reference is the OSU Extension Service Bulletin "Selecting and Preparing Vegetables for Exhibit" available at the Benton County Extension Office, 4077 SW Research Way.

1. **Trueness to type** - specimens should be typical of the variety in shape, color, and size.
2. **Quality and Condition** - specimens should be edible, in prime condition, free from blemishes or damage from insects, disease or handling. Specimens with the deepest color are preferred.
3. **Uniformity** - specimens should be alike in size, shape, color, texture, and stage of maturity.
4. **Size** - contrary to popular opinion, large entries do not have a competitive edge over other entries (except for special entries such as largest pumpkin, watermelon, or head of cabbage). Largeness suggests coarseness. Medium-sized specimens are more typical of a variety and most desired.
5. **Cleanliness** - dirt distracts from the natural attractiveness of vegetables and conveys an unfavorable impression to judges and the public. Wipe cucumbers, tomatoes, peppers, and other soft skinned vegetables with a

damp cloth. Wash or lightly brush soil from potatoes, carrots, and beets. Clean leafy vegetables such as Swiss Chard by dipping in cool water.

6. **Neat arrangement in containers** - carefully align specimens to enhance their most attractive and desirable characteristics.
7. **Exhibitors are encouraged to replace items that may be perishable as often as necessary for the duration of the Fair.**
8. **No entry will be release or removed before Sunday, August 5, 2018 - NO EXCEPTIONS.**

VEGETABLES

Class 1 - Vine

Lot

1. Beans - lima - 6 pods
2. Beans - snap - 6 pods
3. Beans - any one other - 6 pods
