COMMERCIAL VENDOR VIOLATIONS NOTICES

The Benton Franklin Fair Management will use “Violation Notices” to inform Commercial Vendors of occurrences that are not in accordance with the Rules and Regulations established in the Vendor Manual issued to all Commercial Vendors.

It is Fair Management’s philosophy that the use of written notification given to the offending Vendor in a timely manner offers the following benefits:

- Provides the Vendor the opportunity to take corrective measures.
- Defines the offense in exact terms instead of the vagueness that sometimes accompanies verbal descriptions.
- Provides the opportunity for verbal dialogue with Management regarding reasonable corrections.
- Enhances the long-term relationship between the Fair Management and the Vendor.

Violations are divided into three “levels” depending on the seriousness/repetitiveness of the particular offense. While it is virtually impossible to anticipate and list all potential infractions, an effort is made here to cite examples of the various levels in order to provide an understanding of the concept for the Vendor. Severe violations may cause finding of Level III or termination of contract.

LEVEL I

Examples of infractions that may cause an issuance of a Level I Violation Notice include:

- Failure to move signage when asked.
- Cleanliness.
- Animals in booth.

LEVEL II

Example of infractions that any cause an issuance of Level II Violation Notice include:

- Repeated Level I violation.
- Failure to have booth open on time.
- Failure to have booth manned during Fair hours.

LEVEL III

Example of infractions that may cause an issuance of a Level III Violation Notice include:

- Illegal behavior
- Failure to cooperate with Fair Management and Staff.
- Failure to abide by the rules outlined in this manual.

NOTE: It is important to note, as stated previously, that the above examples are given to assist Vendors in understanding Fair Management’s Philosophy and views of the types of offenses that create the issuance of a Violation Notice. In no instance are the examples listed above to be interpreted as the complete list, nor are they intended to be rigid in their enforcement. It is Management’s opinion that, due to the many variables and contributing factors, each instance must be decided independently based on the facts available.
