Dunk has strong EPD's and M6 performance genetics on both sides of his pedigree. He is deep bodied and easy doing with a sound structure.

Why Not

Use a Registered Charolais Bull?

If your goal, as a beef producer, is to market a calf with wide market acceptance, why not use a registered Charolais bull? In a recent analysis of seven years of extensive Superior Livestock video auction marketing data including more than two million head of cattle, Charolais-sired steer calves outsold all other English-Continental breed cross steers by \$3.73 per hundred weight.¹

Use genetic verification through CharAdvantage to earn more premiums.

Why?

- Market demand ■ Predictability
- Increased weaning & yearling weights
- Easy calving ■ More live calves
- Adaptability
- Value of Charolais-cross females
