

Candidate Bio: Elizabeth Courtright

Elizabeth is the 19-year old daughter of Chris and Anna Courtright of Traverse City. She graduated from Grand Traverse Academy in 2021, and currently attends Michigan State University studying Chemistry. She will be entering her 3rd year of college in the fall, as she plans to graduate a year early and apply to medical school the spring of her graduation. Elizabeth spends her time at MSU conducting undergraduate research through the department of Chemistry, playing club ultimate frisbee, and volunteering through The MSU Center for Survivors as an advocate for sexual assault survivors.

Elizabeth has been an avid cherry festival goer since before she could walk, and has consistently been involved with the community. One of her passions is skiing, as she grew up on Mt. Holiday, and became a ski instructor as soon as she could. She is starting her second summer at Munson Medical Center as a cytology lab aide; a former tube station aide. She hopes to gain a wide range of skills in the medical field as her career goal is to become a physician.

Elizabeth aspires to translate all of her experiences she has gained in various outlets of her life to make her a well rounded doctor.

Elizabeth is sponsored by Wolverine Cabinet Company.
