

REPETITIVE LOSS STATEMENT

| APPLICANT | PW REF NO. | FIPS NO. | CATEGORY | DISASTER |
|------------------|------------|----------|----------|---------------|
| City of Gonzales | PW-F | | F | DR-4332-TX TX |

1. **Has this project / site had previous damage?**
(If the answer is NO, It is not necessary to address the remaining questions)

 Yes
 No
 Unsure

2. **Did FEMA provide funding for the repair of this previous damage?**
(If the answer is NO, It is not necessary to address the remaining questions)

 Yes
 No
 Unsure

3. **What is the date and cause of the previous damage?**

Date (MM/DD/YY):

Fire
 Flood
 Earthquake
 Tornado / Wind
 Hail / Rain

4. **Was mitigation approved in the previous disaster?**

 Yes
 No
 Unsure

5. **Was the mitigation work completed prior to this disaster?**

 Yes
 No
 Unsure

6. **If known, provide the following information on the previous disaster:**

| | | |
|---|---|---|
| Disaster No: | PW No: | Version No: |
| <input style="width: 100%; height: 25px;" type="text"/> | <input style="width: 100%; height: 25px;" type="text"/> | <input style="width: 100%; height: 25px;" type="text"/> |

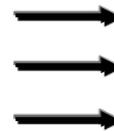

7. **Comments:**

National PW Template V2.6 June 2012 Excel 2007/2010

**MACROS must be
ENABLED to use this
form!!!!**

**This PW must be saved as
a "Excel Macro Enabled
Workbook"**

INSTRUCTIONS TO ENABLE MACROS (TWO STEPS)

STEP 1:

1. Open the Excel workbook and override the initial Security Warning.
2. A new screen will open – Select the radial button for “Enable this content”
3. Select OK – Let the Office Enterprise Configuration run – it will take a couple of minutes.
4. Then let the Install run
5. DO NOT restart your computer now – Select Cancel or NO
6. Now a window will open showing the dates of Cost Code Updates.

STEP 2:

1. Click on the Office Icon (upper left)
2. Select “Excel Options” (bottom right)
3. Click on “Popular” (top left)
4. Select the radial button “Show Developer tab in the Ribbon”
5. Select “OK”. The “Developer” Tab will now be shown.
6. Click on “Developer” Tab
7. Select “Macro Security”. A new screen will Open
8. Select “Macro Settings” (middle left)
9. Select the radial button for “Enable all macros (not recommended; potentially dangerous code can run)”
10. To access the cost codes, go to the Main tab and click "Update Cost Codes".

Notes

** This file is a national template. It should be saved before entering any data. (Save As an “Excel Macro Enabled Workbook”)

** Only print pages that are used.

** If pages do not print correctly, select “View” and “Page Break Preview” and adjust manually.

** Press “CTRL q” to realign all pages.

Update Cost Codes

INSTRUCTIONS

Insert the date the cost codes were updated:

| Cost Code | Cost Code Description | Unit | Unit Price |
|-----------|--|------|------------|
| 3016 | AGGREGATE SURFACE (SAME AS 3012 EXCEPT | CY | \$15.00 |
| 4140 | AGGREGATE SURFACE MATERIAL | TON | \$6.50 |

ELEMENTS OF A PROJECT WORKSHEET

Overview

This Fact Sheet outlines the types of and order in which necessary documentation should be compiled to support a Project Worksheet (PW). It will be used to promote consistency in PW preparation by Public Assistance staff nationwide. The provision of timely, thorough, and accurate documentation will facilitate PW uniformity and expedite data entry, Quality Assurance/Quality Control (QA/QC), the obligation of funds, and eventual project closeout. States may require additional documentation applicable to sub-grantees.

PW Documentation

To facilitate efficient review and processing of PWs by Joint Field Office (JFO) staff, PW writers should compile all PW documentation (refer to Figure 1 and subsequent explanations) in the same order. Every PW must contain the required support documentation to substantiate the scope of work being funded. The scope of work documents "*work completed*" and/or "*work to be completed*."

Records for eligible "*work completed*" costs incurred should be included in summary format, and may include: labor, materials from inventory, materials purchased, equipment owned, equipment rented, services purchased (e.g., engineering), labor benefits, labor policies, etc. The format should follow (and must include all of the information indicated on) FEMA Forms 90-123 through 90-128, even if the Applicant elects not to use the FEMA forms. Source documentation, such as copies of time sheets, payroll records, and invoices should not be attached to a PW; instead, the PW writer should sample and note in the general comments section the percentage of source documents verified and percentage of errors. However, source documentation must be available for final closeout, audits, or other required follow-up actions. An Applicant is responsible for maintaining support documentation per 44 CFR Part 13.

Records for "*work to be completed*" should include detailed information that supports the estimated costs.

DISASTER ASSISTANCE FACT SHEET DAP9580.5

ELEMENTS OF A PROJECT WORKSHEET

Documentation for the PW should be compiled in the following order:

1. **Project Worksheet Cover** – FEMA Form 90-91. The PW is the primary form used to document the project and includes the location, damage description and dimensions, scope of work, and cost estimate for each project.
 - a. **Location**
 - i. Identifies location of all damages using addresses and/or proximity to landmarks.
 - ii. Includes latitude and longitude of the project, if known.
 - b. **Damage Description**
 - i. Describes the damage, including the cause of the damage.
 - ii. Quantifies specific disaster-related damages or emergency services provided.
 - iii. Quantifies specific non-disaster-related damages, if applicable.
 - c. **Scope of Work**
 - i. Describes the work necessary to remove and dispose of disaster-related debris, conduct emergency response measures, or repair or replace a disaster-damaged facility to pre-disaster condition.
 - ii. Documents the percentage of “work completed” and/or “work to be completed.”
 - iii. Describes the basis for the cost estimate.
 - iv. Quantifies eligible costs.
 - v. Describes any Special Considerations that affect the scope of work.
 - vi. Documents ineligible work and associated costs.
 - d. **Cost Estimate**
 - i. Summarizes actual costs incurred or expected for the project.
 - ii. Identifies unit prices.
 - iii. Documents total project cost.
2. **Damage Description and Scope of Work Continuation Sheet** – FEMA Form 90-91A. Used, if necessary, to expand the PW blocks for damage quantities and description, scope of work, and cost extensions.
3. **Project Worksheet – Cost Estimating Continuation Sheet** – FEMA Form 90-91B. Includes Cost Estimating Format (CEF) worksheets for large permanent work projects. If the CEF is not applicable, the basis for the cost estimate should be clearly denoted in the scope of work.

DISASTER ASSISTANCE FACT SHEET DAP9580.5

ELEMENTS OF A PROJECT WORKSHEET

4. **Special Considerations Questions** – FEMA Form 90-120.
5. **Hazard Mitigation Proposal (HMP)** – FEMA Form 90-61. Hazard mitigation applies to Categories C through G. In addition to the HMP itself, the proposal should include any documentation supporting the recommendation.
6. **Force Account Labor Summary Record** – FEMA Form 90-123.
7. **Applicant's Benefits Calculation Worksheet** – FEMA Form 90-128.
8. **Force Account Equipment Summary Record** – FEMA Form 90-127.
9. **Rented Equipment Summary Record** – FEMA Form 90-125.
10. **Materials Summary Record** – FEMA Form 90-124.
11. **Contract Work Summary Record** – FEMA Form 90-126.
12. **Contract Documentation** – Minimum documentation for contracted work should include: contract cover sheet or sheets, those portions of the contract defining principal parties, units of work bid, unit costs, and any other contract stipulations affecting scope of work or costs. Any addendums or extra work orders should be included, as well as procurement documentation indicating scope of work of the contract, number of bidders, and unit cost or lump sum bid by each bidder. If a bidder is disqualified, include an explanation. Frequently, a large portion of the contract defines general conditions. This portion of the contract is not required as an attachment, but should be maintained by the Applicant as source documentation.
13. **Insurance Information** – Attach only the information specific to the PW. This may include the Detailed Adjuster's Report, Statement of Loss, binders, settlement offers, insurance estimates, technical/engineering reports prepared by insurance company or adjuster, etc. In cases where several projects are covered by the same insurance policy, the information should be cross-referenced in the PW and the policy maintained in the Applicant's central file.
14. **Project Worksheet Maps and Sketches Sheet** – FEMA Form 90-91C. Used, as needed, to illustrate disaster-related damages, completed work, and proposed repairs. Limit attachments to 8.5 x 11-inch pages. If pages larger than 8.5 x 11 inches are required, they should be identified in the PW (title, date, preparer, number of sheets, etc.). Include a copy of the Flood Insurance Rate Map (FIRM) location and other site location maps.
15. **Project Worksheet Photo Sheet** – FEMA Form 90-91D. Used, as necessary, to illustrate and describe general project site conditions, disaster related damages, site irregularities, conditions relating to

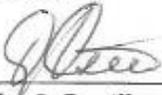

DISASTER ASSISTANCE FACT SHEET DAP9580.5

ELEMENTS OF A PROJECT WORKSHEET

damaged elements, facility identification (e.g., front gate or building signs), and completed work, or to demonstrate the presence of an immediate threat.

16. **Other Documentation** – Other information as required (e-mails, communications, etc.).
17. **Do Not Copy/Scan Sheet** – Back up documentation behind this sheet is not scanned into the database.
18. **Materials Back up Documentation** – If applicable, may include:
 - a. Engineering/technical reports that were considered in eligibility determinations. Reference such reports in the PW's scope of work by title, subject, date, preparer, pages, etc.
 - b. Source documentation sampled by the PW writer, such as copies of time sheets, payroll records, and invoices.
 - c. Applicable codes and standards, if a code upgrade is triggered. A copy of the code/standard, a copy of the legal action (resolution, ordinance, etc.) formally adopting the code/standard, and/or amendments or annexes to the code/standard should be submitted and referenced in the PW scope of work.
 - d. Lease or rental agreements for facilities rented *by* an eligible Applicant or rented *to* an eligible Applicant. If insurance is required as part of the agreement, refer to the insured item.
 - e. Facility maintenance records are required for: roads (if condition or usage is questionable), engineered channels (other than flood control works), debris basins and reservoirs where debris removal is contemplated, beaches where repair to an engineered beach is contemplated, and other facilities requiring maintenance to ensure proper function or that capacity has been maintained.
 - f. Facility inspection/safety reports for bridges.
 - g. Mutual aid agreements (referenced in the body of the PW).

For more information on writing and compiling documentation for a PW, please refer to FEMA's *Public Assistance Program Project Worksheet Development Guide*.

Check next to appropriate comment for Data Specialist to add to the Scope of Work

| Topic | Comment |
|-----------------------------|---|
| Record Retention | Complete records and cost documents for all approved work must be maintained for at least 3 years from the date the last project was completed or from the date final payment was received, whichever is later. |
| Direct Administrative Costs | <input type="checkbox"/> The subgrantee is requesting direct administrative costs that are directly chargeable to this specific project. Associated eligible work is related to administration of the PA project only and in accordance with 44 CFR 13.22. These costs are treated consistently and uniformly as direct costs in all federal awards and other subgrantee activities and are not included in any approved indirect cost rates. |
| Mitigation | No Mitigation Opportunities Identified because: <input type="checkbox"/> PW is for Emergency Work - Mitigation not eligible. <input type="checkbox"/> Work already completed and no add-on mitigation is feasible. <input type="checkbox"/> Mitigation not technically feasible. <input type="checkbox"/> Applicant has decided not to incorporate mitigation. |
| CEF | <input type="checkbox"/> This project was estimated using the Cost Estimated Format (CEF). |
| CEF - Not Used | This project was not estimated using the CEF because: <input type="checkbox"/> The PW is a small project. <input type="checkbox"/> The PW is for Emergency Work. <input type="checkbox"/> The work is greater than 90% complete at the time of inspection. |

SPECIAL CONSIDERATIONS

| DISASTER | APPLICANT NAME | PW REF NO. | FIPS NO. | DATE |
|--------------|------------------|------------|----------|----------|
| DR-4332-1 TX | City of Gonzales | PW-F | | 08/26/17 |

1. Does the damaged facility or item of work have insurance and/or is it an insurable risk? (e.g., buildings, equipment, vehicles, etc.)

Yes No Unsure

2. Is the damaged facility located within a floodplain or coastal high hazard area, or does it have an impact on a floodplain or wetland?

Yes No Unsure

3. Is the damaged facility or item of work located within or adjacent to a Coastal Barrier Resource System Unit or an Otherwise Protected Area?

Yes No Unsure

4. Will the proposed facility repairs/reconstruction change the pre-disaster condition? (e.g., footprint, material, location, capacity, use or function)

Yes No Unsure

5. Does the applicant have a hazard mitigation proposal or would the applicant like technical assistance for a hazard proposal?

Yes No Unsure

6. Is the damaged facility on the National Register of Historic Places or the state historic listing? Is it older than 50 years? Are there more, similar buildings near the site?

Yes No Unsure

Facility Constructed In:

7. Are there any pristine or undisturbed areas on, or near, the project site? Are there large tracts of forestland?

Yes No Unsure

8. Are there any hazardous materials at or adjacent to the damaged facility and/or item of work?

Yes No Unsure

9. Are there any other environmentally or controversial issues associated with the damaged facility and/or item of work?

Yes No Unsure

10

Yes No Unsure

NARRATIVE

During Hurricane Harvey, City crews which comprised of the street, maintenance, parks, and community development departments combined forces to clear the debris from 20 sites within the city limits. The majority of the trees and limbs that fell caused power outages and blocked streets. The sites (blocks) are as follows: 700 St. George, 500 St. Peter, 700 St. Francis, 100 St George, 100 Morey, 900 Water, 1400 Conway, 100 Plum, Park place entrance, 1400 Answorth, 1300 School, 900 Johnson, 1500 Burchard, 1400 Martin, 300 Smith, 1000 St. Lawrence, 100 Titcomb 800 St. Paul, 1600 St Lawrence, 700 Hopkins and Steirn Road by the cemmetry. From 9-11 to 9-13 the street crew and brush crew cut the fallen trees within the RV area of Independance Park.

FEDERAL EMERGENCY MANAGEMENT AGENCY
Federal/State Joint Field Office
EXIT BRIEFING FORM

[Insert State Seal Here]

FEMA DR-4332-TX DR TX

SUBJECT: Applicant Exit Briefing

APPLICANT NAME: City of Gonzales PA ID #

KICK-OFF MEETING DATE:

List the number of small and large project worksheets written for each category and the total number of Project Worksheets (PWs) by category. If there is no damage in a category, mark "N/A". This document is to be signed by the PAC Crew Leader, State Applicant Liaison and the applicant's Authorized Representative as shown on the Request for Public Assistance.

Provide a copy to the Applicant and turn in the original to the Data Coordinator.

| Completed Categories | # of Small Projects | # of Large Projects | Total # of PWs |
|---|---------------------|---------------------|----------------|
| Category A: Debris Removal | | | |
| Category B: Protective Measures | | | |
| Donated Resources (Cat A and/or B) | | | |
| Category C: Road and Bridges | | | |
| Category D: Water Control Facilities | | | |
| Category E: Building & Contents | | | |
| Category F: Public Utility System | | | |
| Category G: Other (Recreational) | | | |
| Total Number of Project Worksheets | | | |

Important Time Lines and Statutory Requirements

In accordance with §206.202(d)(1)(ii) of 44CFR, if additional damage is found, the applicant must notify the State in writing within 60 days of the Kickoff Meeting or by

The applicant must maintain complete records and cost documentation for all approved work for at least three years from the date the applicant's grant is officially closed.

In accordance with §206.206 of 44CFR, Applicants may appeal any determination related to an application for or the provision of Federal assistance, but must do so within 60 days from receipt of the determination.

All work must comply with provisions of the Clean Water Act, Clear Air Act, Resource Conservation and Recovery Act, Endangered Species Act, Fish and Wildlife Coordination Act, the National Historic Preservation Act, and related Federal statutes and associated State, Tribal and local laws, codes, ordinances and other statutes.

Any questions regarding Public Assistance, changes to the "Approved Scope of Work, Improved or Alternate Projects, 406 Hazard Mitigation, and/or major cost overruns require prior approval from FEMA. Please contact:

Ernesto R. Paiz - District Coordinator

FEMA PAC Crew Leader:

Date:

State Applicant Liaison: Ernesto R. Paiz

Date:

Certification:

To the best of my knowledge and understanding, Project Worksheets are written for all known damages and for all other disaster-related costs claimed under the Public Assistance Program for this disaster. Exceptions may include inundated or inaccessible sites and demolition-related projects. I have also read and understand the important time lines noted above and will comply with Federal, State, and local statutes and ordinances in completing disaster-related work under the Public Assistance grant.
