## V. CANNED GOODS **\*PLEASE PAY CLOSE ATTENTION TO THE RULES!!!!\***

**PREMIUMS: 1st (ribbon) 2nd (ribbon) 3rd (ribbon) Honorable Mention (ribbon)**

**General Rules. The USDA requires Recipes to ensure quality!**

1. All entries must have been preserved within the last year (12 months). If fresh produce is used, the exhibit should have been preserved within the last growing season; in no case should this exceed one year.

2. Unsealed exhibits or products showing signs of spoilage will not be judged.

3. **Exhibits must be labeled with the name of the food, the date preserved, and the method of preservation including process time, please do NOT personalize with your name. Entries without required labeling will not be judged.** If the food is canned, the label must state whether the food was hot or raw packed, boiling water or pressure canned the process time and the pounds of pressure if pressure-canned. **The RECIPE used must also accompany the entry.**

(A judge needs to know if the proper amount of citric acid, lemon juice or vinegar has been added to canned tomatoes, for example. The judge also has to know whether certain foods have meat, low acid vegetables, starches, etc. added)

**Example: Peaches, hot packed, boiling water canner, 20 minutes,**

**July 13, 2024, Recipe:**

4. An exhibit must not have been previously entered in the same event.

5. Judges are instructed not to award a premium or placing unless the exhibits are worthy.

6. Exhibits without competition will be judged on their own merit and will receive an award or placing only if determined worthy by the judges.

7. Judging will be done by comparison to recognized standards of quality and safety and by comparison to other exhibits to determine placing within a class (first, second, third, etc.)

8. Exhibits will not be judged by tasting; visual inspection will be used. Jars may need to be opened, however, when spoilage is suspected or differences among entries are very small.

9. Youth exhibits are judged separately from adults.

10. The decisions of the judge are final.

11. Foods that are opened during judging will be marked by the judges and should not be eaten when the fair event is over. The judges or fair attendants will dispose of any foods that are considered hazardous to consume. (This includes the jar and packing liquids/product that contained the food.)

12. **Canned products must be canned in clear, standard (half-pint, pint or quart) jars in good condition with new, two-piece canning lids (flat lid and band).** (Note: There are now 12-ounce canning jars available. If there is not a USDA recommended process time available for the 12-ounce jar, these may be used with a pint jar canning process recommendation. The process time for pints cannot be reduced for the small jar size. If there is only a USDA process for the half-pint jar size, the 12-ounce jar would be disqualified for lack of recommended USDA process time.)

13. Jar sizes for which there is no USDA canning recommendations will not be judged.

14. Jams, jellies, marmalades and preserves sealed with paraffin will not be judged; these products must be heat sealed (canned).

15. Fancy padded lids, colored jars, fabric over wraps or cozies interfere with the judging process and are not necessary and **should not be used.**

16. USDA Recommendations for Headspace in Canned Foods:

Headspace is the unfilled space above the food in a jar and below its lid. USDA recommends headspace in specific foods as follows:

A. Jams and Jellies: ¼ inch

B. Fruits, Tomatoes, Pickles, Relishes, etc.: ½ inch

C. Low Acid Food (to be processed in a pressure canner): 1 inch

(For correct headspace for each food, check the processing directions for each specific food or call your local County Extension Office.)

**SECTION NO. 77 - DECORATIVE PAINTING**, Mrs. Bonnie Seymour, Coordinator

A diverse art form that utilizes a variety of techniques and media to decorate **functional** and **non-functional** surfaces.

**Fine Art cannot be accepted in the Decorative Painting Section.**

Because of the systematic method employed, contemporary decorative painting is a highly teachable art form. The patterns or freehand designs allow a high degree of success without academic training or inherent drawing ability. Approached with creativity, discipline and craftsmanship, contemporary decorative painting offers opportunities for artistic self-expression and creative satisfaction.

The scope of the contemporary decorative painting is boundless. Styles and techniques of the past are incorporated into the materials of the present, while developing the decorative art heritage of the future.

Tole painting is the general term historically used to describe decorative painting of tin surfaces, especially in New England and or by the Pennsylvania Germans. Contemporary decorative painting encompasses not only the folk art style of Sweden, Norway, Germany, Russia, England and Mexico, but the many facets of Early American decorative painting such as stenciling, faux finishing, bronzing, gold leaf, country painting, theorem and graining.
