

COW PALACE - JR LIVESTOCK SHOW

# HEALTH & SAFETY POLICY

## COMMERCIAL VENDORS

We're excited to welcome you back!

Your **safety** is our #1 priority.

Kindly follow the safety procedures we've implemented to **#StopTheSpread**.

Thank you!

### LOGISTICS

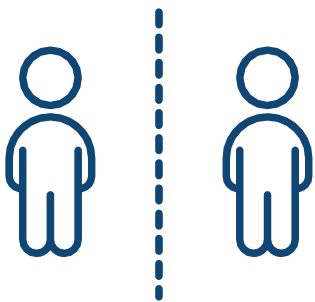

- Vendors will sign up for appointments for check-in, setup, and to receive information packets.

### MASKS ARE RECOMMENDED

- While a universal, countywide indoor masking mandate (for all indoor settings countywide) is not currently implemented by the health officer or the state, San Mateo County Health and Cow Palace Management urges all guests to wear a mask inside when not actively eating or drinking.
- Wearing a mask indoors reduces COVID-19 risks for individuals.

### PRACTICE SOCIAL DISTANCING WHEN POSSIBLE

- Social distance should be exercised whenever possible.
- A maximum of 2 vendors will be allowed per 10'x10' booth.
- Discourage customers from physically entering the booths when possible.
- Encourage cashless transactions.

### USE SANITIZER

- Credit card screens must be sanitized in between use.
- Provide hand sanitizers at vendor booth.

## O RISKS

- Participants, guests, and patrons understand and acknowledge that attendance at large events may expose them to contact with one or more persons who may have been infected with, and/or exposed to, the Virus and may expose them to contact with surfaces or objects that have been exposed to the Virus and may serve as a means for transmission of the virus to others who attend the event.
- Participants, guests, and patrons understand and acknowledge that participation in the Cow Palace/Grand National Jr. Livestock events and use of the facilities may expose them, along with others with whom they may come in contact after they leave the Cow Palace facilities, to a risk of infection with the Virus, which may cause significant and serious illness, temporary or permanent disability, and/or death.

You can do your part by **wearing a mask** and practicing **social distancing**.

### STAY AT HOME IF:

- You are experiencing any flu symptoms, such as headaches, shortness of breath, runny nose, sore throat, cough, or fever.
- You have a measured temperature greater than or equal to 100 degrees Fahrenheit (37.8 degrees Celsius).
- You've had known close contact with a person who is lab-confirmed to have COVID-19.
