- Exhibits must stay for the duration of Fair, unless given written permission from Fair Management.
- Ribbons will be awarded to Grand Champion, Reserve Grand Champion, Champion, Reserve Champion, and Best of Show. Champion ribbons will only be given if more than one class is exhibited in each breed (male and female).
 - *Note: The above ribbons will be awarded during shows. First, Second, and Third place cloth ribbons will be given on request by the exhibitor.*

ENTRIES

- Entries are considered incomplete until payment of the entry fee has been made. Fees are calculated per head or grouping. Check department details for fee amount.
- Registration papers must be available for inspection. Breeding animals must be registered and entered in the name of the owner, but the owner need not be the actual handler.
 - *Exception: "Paper pending" will be accepted for animals under 1 year old, or to conform to species standards as long as proof of eligibility for registration is available.*
 - *Exception: rabbits and poultry.*
- Breeding animals dually shown in Open Class and 4-H/FFA must be entered under the same exhibitor, and must enter by the Open Class deadline and pay the Open Class entry fee. The breeding animal must be registered in the exhibitor's name or family name. All animals exhibited in 4-H or FFA must be housed, groomed, and fitted (by the member) in the 4-H or FFA livestock area even when preparing for Open Class shows.
 - *Note: Conflicting Open Class and FFA/4-H show times will not be changed to accommodate exhibitors.*
- All sheep and goat exhibitors will be required to show proof of participation in the Scrapie Program. Appropriate Scrapie ID and/or paperwork showing compliance must be available for inspection.
- Exhibitors are limited to 2 entries per class.
- Animals shown in group, pair, herd or flock classes must be entered and shown in a single-animal class.
 - *Exception: cow/calf pairs.*
- Late entries and substitutions will be accepted or denied at the discretion of Fair Management.
- Divisions and/or classes may be split or combined (if needed) at the discretion of Fair Management.

DISPLAYS

 - *Note: Due to limited space, completed livestock entries will be excepted in the order they are received.*
 - *Note: Nurse cows will be stalled away from the livestock exhibits. Check with Fair Management for space.*
- All animals shall remain tied or penned at all times during Fair unless the animals are being fitted, washed, or shown. Safety ropes or neckties plus halters are required on all cattle.

- Signs offering an animal for sale cannot be displayed on the stalls or pens.
- All exhibitors must furnish feed and care for their animals during fair. Shavings are provided by the Fairgrounds.

- Animals of Oregon origin: no permits, health certificates, or tests are required for cattle, sheep, goats, and swine. All poultry (including exhibition, exotic, and game birds -- with the exception of waterfowl, pigeons, and doves) must be from a US Pollorum-Typhoid clean flock or have a negative test within 90 days prior to Fair.
 - *Note: A veterinarian or technician may be on hand to test birds (if needed), at no charge to the exhibitor.*
- Animals with Out-of-State Origin: both a health certificate from a veterinarian in the animal's state of origin AND an entry permit from the Animal Health Division, Oregon Dept. of Agriculture are required. Out-of-state veterinarians should call (503) 986-4689 for the permit number and specific requirements.
 - *Note: Cattle and horses must have a current brand inspection from the animal's state of origin.*
- No exhibitor will be allowed to administer medication to another exhibitor's entry.
 - *Note: If you feel an animal is in need of medication, contact the department superintendent.*
- No animals shall be drugged, tranquilized, or unethically fitted as determined by Fair Management.
- Fair management reserves the right to:
 - reject any animal that appears to be unhealthy.
 - call a veterinarian on behalf of a sick animal in cases where the animal's owner is not available.
 - remove any animals from the fair under a veterinarian's recommendation.

(Perishable items that might shrivel such as beets, carrots, beans, or radishes, etc. can be presented in a plastic bag on the required plate to maintain fresh appearance.)
3. Items with a **root ball** should have the root ball bagged in plastic or presented in a jar or container that will hold water to maintain freshness.
4. **Display herbs in water.** Vessels are available at exhibit drop-off.

TIPS ON PREPARING YOUR EXHIBITS

Vegetables should be in the stage of development where they are suitable for marketing or eating. These, along with good conditions, are the main points on which entries are judged. Where more than one specimen is required, uniformity is important.

- Gather your vegetables early in the morning or late in the evening to retain crispness and flavor. Wash root vegetables in cold water and cut the tops, where required, to within 1" to 2" of the base.
- Refrigerate items in a closed plastic bag.
- Peel away the damaged leaves on cabbage.
- Harvest onions early to allow for curing. Remove no more than one layer of skin to clean. Leave 1" at top and trim roots to 1/4".
- Dig potatoes early enough to cure well before Fair. Brush or wipe with soft cloth to clean.
- Beans should be tender and snap readily.
- Root crops should be of medium size and uniform in length and diameter.
- Slicing cucumber should be firm but not ripe.

- Summer squash and onions should be mature.
- Sweet corn should be succulent and not beginning to be starchy.
- Ripe tomatoes should be fully red but still firm.

Note: Classes may be combined or divided as numbers warrant.

Awards: Best of Show, Judge's Choice, Superintendent's Choice

GO GREEN!

Pick up a green leaf label during exhibit drop-off to indicate the specimen is organic.

Land Products (Dept. N), House Plants (Dept. O), Floral Design (Dept. P), and Floral Horticulture (Dept. Q) are eligible to have a special label indicating that the specimen is organic. This allows the public to determine what the differences are in the appearance and quality of organic specimens in comparison to non-organic.

Organic agriculture is the growing and caring of plants without the use of synthetic fertilizers or pesticides. In the US, to have the classification of "organic" agricultural farms and products claiming to be organic must be guaranteed by a USDA-approved independent agency and meet certain guidelines. It is up to the exhibitor to abide by these organic guidelines:

- Abstain from the application of prohibited materials (including synthetic fertilizers, pesticides, and sewage sludge).
- Prohibit the use of genetically modified organisms and irradiation.
- Employ positive soil building, conservation and manure management and crop rotation practices.

DIVISION 900: Showcase of Gardening in Central Oregon

Visit [Department V: Hobbies and Crafts](#) for more information on entering a photo of your garden. This contest is open to individuals, commercial/businesses, and non-profits/organizations.

GO GREEN!

Pick up a green leaf label during exhibit drop-off to indicate the specimen is organic.

Land Products (Dept. N), House Plants (Dept. O), Floral Design (Dept. P), and Floral Horticulture (Dept. Q) are eligible to have a special label indicating that the specimen is organic. This allows the public to determine what the differences are in the appearance and quality of organic specimens in comparison to non-organic.

Organic agriculture is the growing and caring of plants without the use of synthetic fertilizers or pesticides. In the US, to have the classification of "organic" agricultural farms and products claiming to be organic must be guaranteed by a USDA-approved independent agency and meet certain guidelines. It is up to the exhibitor to abide by these organic guidelines:

- Abstain from the application of prohibited materials (including synthetic fertilizers, pesticides, and sewage sludge).
- Prohibit the use of genetically modified organisms and irradiation.
- Employ positive soil building, conservation and manure management and crop rotation practices.

RULES & GUIDELINES FOR OPEN CLASS FLORAL DESIGN

1. One entry per class, per exhibitor. Exhibitors must place their arrangements in position desired for judging.
2. For division 633, **specimens do not have to be grown by the exhibitor.**
3. After initial judging on 8/8, exhibitors will be judged on **Showmanship** throughout the duration of Fair. Exhibitors should replace wilted flowers and material (additional plant materials cannot be stored at the Fairgrounds). CFH assistants will freshen water regularly.
4. Specimens should be displayed in **clear glass containers.** Stems should reach deeply into the container, if possible. Remove foliage that is submerged in water.
5. Unless stated in the class description, all **arrangements shall not exceed a width of 18 inches and depth of 16 inches** (measurements are including the base).
6. **Unless specified, do not use accessories** in arrangements. An accessory is anything added to the plant material, container, base, or background. If used, the accessory shouldn't be the focal point of the arrangement.
7. All arrangements must be easy to move. **Secure all accessories to the container or a solid base.**
8. The presence of insects, disease, and damage caused by insects and disease will disqualify an entry. The exhibitor is responsible for carefully **grooming and inspecting entries** prior to exhibit drop-off.
9. Gather flowers when temperatures are cool in mornings or evenings and place stems immediately in cool water. Place the container in a cool place overnight. To increase water uptake, use a sharp knife-cutting stem on a slant. Crush woody stems for at least 2 inches and stand in water overnight.
10. Do not place U.S. Flag (or flag symbols) within plant material, water, or container. The U.S. Flag can be used in an appropriate stand, placed beside the arrangement.
11. Do not use artificial flowers or plant materials in arrangements, or silk, plastic, paper, wax fruit, etc. Exceptions by the judge can be made when there is no competition represented.
12. **Dried plant material must be entered in Division 802 (Artificial & Dried Flowers) of Department V: Hobbies & Crafts.**

There are three accepted categories of plant materials:

- **Treated:** Naturally-growing and treated with glycerin, antifreeze, color preservative, stained, dyed or colored using food coloring, for example.
- **Fresh:** Naturally-growing, freshly cut, untreated.
- **Native:** Collected from nature in a legal manner, untreated.

- All entries must have been preserved within the last year of judging date, and can only be entered into Fair once.
- Each entry needs the following: Exhibit Tag and round Exhibit Label on lid.**
- The exhibit tag should include the Department, Division, and Class. Tape the tag string to the bottom of the jar.
- The exhibit label describes the **contents, processing method** (i.e. hot pack, raw pack, water bath, pressure cooker), altitude, recipe source, and **preservation date**. **LABELS MUST BE PLACED ON LIDS.** Failure to correctly label an exhibit may result in disqualification. **Labels are available at the Fairgrounds Office through 8/4, and at CFH on 8/7.**

Crook County 4-H members and volunteers can engage in more than 20 areas of interest such as food and nutrition, clothing and sewing, animal science, outdoor adventure, STEM, art, gardening, and much much more!

————— I pledge —————
my *head* to clearer thinking,

What is FFA?

The National FFA Organization is a dynamic youth organization that changes lives and prepares members for premier leadership, personal growth and career success through agricultural education. FFA develops members' potential and helps them discover their talent through hands-on experiences, which give members the tools to achieve real-world success.

Crook County FFA

Crook County High School students have the opportunity to take elective courses that include an FFA membership through the Oregon FFA Affiliate Membership Program at no cost to the student.
