### **The Numbers Game**

Creating a memorable and enjoyable experience for all attending your wedding is always on your mind as you plan the day! Accommodate your guests by offering the choice of meandering through the beautiful outdoors or enjoying the comforts of indoors. With on-site staging equipment, both indoor and outdoor space options offer quick flexibility for attendance numbers. An all-inclusive venue has on-site staff who are ready to make needed adjustments for you, and decrease your need to juggle multiple external vendors. More guests than you expected? Make an easy call to on-site staff and additional seating will appear. Suddenly have a guest who needs a vegetarian option? Catering staff are happy to accommodate with the convenience of a full commercial kitchen on site.

### **Certainty in Uncertain Seasons**

One of the Pacific Northwest's best features is its stunning outdoor landscapes. Whether your wedding is set against snow-capped mountains or brilliant florals, every season comes with weather worries. Put your mind at ease by choosing a venue with extensive space options that

can accommodate sudden weather shifts! Transition outdoor ceremony and reception sites indoors quickly and efficiently with plenty of on-site staff and setup equipment.
