WORKSHOP ROOM #3

LOOK MA, NO CABLE NEEDLE!

Skill Level: Intermediate; Advanced
Age Requirement: 13 & Up

Description: Once you have some experience with cables, you might find that cable needles slow you down. If you suspect there might be a better way, you're right! Cabling without a cable needle is surprisingly easy, and totally liberating. Your cabled projects will go much faster without spending all that time fiddling with a cable needle (and searching for it between the couch cushions). Students should have some experience with cables.
