## **Standard Electrical Service Rules and Regulations**

1. All equipment, regardless of source of power, must comply with the current National Electric Code, as well as State and Local safety codes.
2. All equipment must be properly tagged or marked with complete information as to the type and/or amount of amperage, voltage, etc. required.
3. All exhibitors' 120 volt cords must be of the 2 wire, grounded type. All exposed non-current carrying metal parts of fixed equipment, which are liable to be energized, shall be grounded.
4. The Fairgrounds reserves the right to refuse any connection to any exhibitor whose equipment is deemed unsafe by the electrical supervisor.
5. Permanent building electrical outlets are not part of booth space and are not to be used by exhibitors unless specified otherwise.
6. All service connections and overload protection to such equipment must be made by a "Fairgrounds Electrician" only.
7. Payment in full must be received prior to electrical service connection.
8. The Fairgrounds is not responsible for voltage fluctuation or power failure for temporary conditions. Surge protection is the responsibility of the exhibitor.
9. Payment in full must be received prior to electrical service connection.
10. Advance orders are those orders received by June 1 and paid in full. These orders receive priority service.
11. Unauthorized power not paid for will result in shutdown of electrical service. To get your electrical service restored, you must pay the on-site fee for the proper amperage plus 25% penalty.
12. Exhibitors supplying their own breaker boxes (must be pre-wired) are required to have a service cord that is a minimum of 75 feet long (SO cord only).
13. Extension cords will not be supplied to any outdoor exhibitors. If cords are needed, it is the responsibility of the exhibitor to supply their own cords.
14. Claims will not be considered unless filed by exhibitor prior to the close of the event.
