

## **FESTIVAL GROUNDS AND OPEN AREAS**

**(These spaces are outdoors)**

*Prices for Fiscal Year 2022-2023, July of 2022 through June 2023*

The "Festival Grounds", during the Fair, is where we have the carnival rides, however due to a placement of some trees and a curve along a drive to a gate, when planning a possible event in this area, it's best to visit the venue and do some measuring to see if it can accommodate your plans, and our staff is happy to help you with this. Depending on your plans and electrical needs, Power is available on the South side of this area. Electrical Service Drops made by our Maintenance Team to you are \$125.00 each. If you need a 50-amp, Single-Phase Service please ask about pricing for the delivery of that much electrical service.

We have small lawn areas that can be used for \$349 per Event Day, 2 larger spaces that can each be used for \$698 per Event Day, or an even larger space for \$1,700 per Event Day. It depends on the nature of what you are planning and what else we have going on at the facility at the time, as to what type of space will have the best potential for you.
