### CREATING A BETTER COMMUNITY THROUGH THE ARTS

You may have heard about us. We're in your kids' schools. We're in the mall. We're sprinkled across the Waterway. We're even growing into the hearts of members of our community. The Woodlands Arts Council, Inc. (TWAC) is a 501(c)(3) not-for-profit corporation whose mission is to provide regional cultural and educational enrichment. We do this by presenting The Woodlands Waterway Arts Festival and hosting community events+programs that support the performing, visual and literary arts. Our primary goal is to establish and support meaningful programs in the performing and visual arts to create a strong and vital arts presence in the area. We believe the arts can open the doors of our minds, strengthen character, heal the body and foster an appreciation of other cultures.

[www.thewoodlandsartscouncil.org](http://www.thewoodlandsartscouncil.org)

In 2004, inspired by a mother's need to provide a safe, meaningful, fulfilling life for her disabled son, a group of community leaders from Montgomery County, Texas joined with her to establish Texas New Community Alliance (TNCA), a 501(c)3 charitable and educational organization. At the cornerstone of TNCA was the vision for a self-sustaining, master planned, integrated community where adults with intellectual and developmental disabilities ("IDD") could Live, Learn, Work, and Grow emotionally, socially, and spiritually with their non-disabled peers. That vision has become a reality with the development of New Danville.

Today, New Danville serves over 500 adults a week. Known as "wranglers" and "mavericks", these men and women participate in a variety of activities in a pastoral setting at New Danville's Life Learning Center, an adult education and training center. Education and training activities are developed by talented and devoted staff, supported by caring volunteers that enrich the mind, the body and the spirit of each man and woman who participate during this weekday program. In addition to the day program activities, some wranglers have the ability to live independently, and chose to live in Meadowbrook, New Danville's first residential neighborhood.

Everything New Danville does is designed to develop a strong work ethic, real life skills, and helps to develop independence, confidence and social skills for the real world.
