The label must also state whether the food was hot or raw packed, boiling water or pressure canned, the process time, and the pounds of pressure if pressure-canned. The entry should also be accompanied by a complete recipe, including all ingredients used. (A judge needs to know if the proper amount of citric acid, lemon juice or vinegar has been added to canned tomatoes, for example. The judge also has to know whether certain foods have meat, low acid vegetables, starches, etc. added.) **Use EXHIBIT D to attach to canning entries- attach a string or yarn to the tag. Judging Criteria:

Impact is the sense one gets upon viewing an image for the first time. Compelling images evoke laughter, sadness, anger, pride, wonder or another intense emotion. There can be impact in any of these twelve elements.

Creativity is the original, fresh, and external expression of the imagination of the maker by using the medium to convey an idea, message or thought.

Technical is the quality of the image itself as it is presented for viewing, which includes the following aspects:

- Allowable amounts of retouching and adjustments (removal of red eye, cropping, minor straightening).
- Sharpness and correct color balance.
- Lighting, which includes the use and control of light. The use of lighting whether natural or man-made and its proper use to enhance the image.
- Posing and capturing of the image

Composition is important to the design of an image, bringing all of the visual elements together in concert to express the purpose of the image. Proper composition holds the viewer in the image and prompts the viewer to look where the creator intends. Effective composition can be pleasing or disturbing, depending on the intent of the image maker.

Subject Matter should always be appropriate to the story being told (i.e., category the photo is entered into) in an image. Subject matter also includes the center of interest for the photograph or where the maker wants the viewer to stop and they view the image.

Story Telling refers to the image's ability to evoke imagination. One beautiful thing about art is that each viewer might collect his own message or read her own story in an image.
