# Nutrition Plus

Branded For Quality

Nutrition Plus is an American owned and operated company that provides a full line of quality livestock minerals and other nutrition supplements. We are dedicated to providing our customers with the best products and services in the industry, offering the best nutrition for your cattle (cow/calf, stocker, feedlot), horses, sheep and goats. "Branded For Quality" is not just a phrase but a philosophy of commitment in all that we do.

## TEXOMA BRANDED MINERALS *can be custom formulated for your ranch and conditions*

In today's competitive cattle market, nutrition can positively influence health and growth of calves and can mean the difference between profit and loss. Give your cattle a leg up on the competition with any of a variety of quality Texoma supplement products:

- All Texoma-branded minerals are formulated specifically for Texas conditions, including enhanced iodine levels.
- *Stocker Minerals*  
Helps improve rate of weight gain and feed efficiency allowing calves to make the most out of available forages.
- Wide variety of products available including medicated and custom minerals.

**Proud Sponsor of the Fort Worth Invitational Commercial Heifer Sale for 26 years**

*20 pens in this years sale use Nutrition Plus Mineral.*

*Harry Hudgins and Dee Church will be on site on Friday, February 2, and Saturday, February 3, to discuss your mineral needs.*

## HOW TO PARTICIPATE ON

# LiveAuctions.TV

### 1 CREATE AN ACCOUNT

Click "Register to Bid" on the top right corner of LiveAuctions.tv. Fill out the required information to bid online. Agree to the terms of service and finish with the "register" button.

### 2 REGISTER FOR A BUYER NUMBER

From the home page or the "all auctions" page, choose the sale you're interested in. Once selected, click the "request a buyer number" button. Verify your email address with the email verification link. To verify your mobile number, click "send token". Follow the steps to authorize your mobile device and click "submit".

### 3 BID SUCCESSFULLY

You will only have to complete the two-step verification process one time. After that, you will be able to immediately request a buyer number on any auction without verification. If you're a winning bidder, your lots will appear in your cart on the bottom of your screen. You will be contacted by the ranch or sale manager for your payment and shipping plans.

IF YOU NEED HELP REGISTERING TO BID  
OR TO VIEW THE AUCTION PLEASE  
CONTACT TECHNICAL SUPPORT  
**(682) 816-4900**  
OR  
**TECHSUPPORT@LIVEAUCTIONS.TV.**

# RED CHAIN FEEDS

# Fort Worth STOCK SHOW

## — COMMERCIAL HEIFER SALE —

SATURDAY, *February 3*, 2024

West Arena, Fort Worth Stock Show - 3:00 PM - Fort Worth, TX

### 2024 SALE TERMS

- Terms of the sale are cash or check payable at the close of the sale and prior to load out unless previous arrangements have been made with the sale manager.
- All cattle will sell in groups as determined by sale manager and they will sell times the money. Example: 10 head @ \$1000 ea. = \$10,000 for the group. All announcements from the block, including the number of head and calves selling in a group, will take precedence over any and all printed material.
- All cattle in this sale that are of age (calves at the side of cows are not required) will be accompanied by health papers that will be valid for interstate travel to any state in the continental US. Each animal will be identified by a unique ID number on a permanent ID Clip or EID. Those numbers will be printed on the health paper.
- Cattle have been veterinary checked and pregnancy information is on each health paper. Sale management does not guarantee the accuracy of this information, it is furnished to the buyer as a guide for approximate calving dates.
- Liability - All persons attending this sale do so at their own risk. The consignors, Fort Worth Stock Show, sale management and the sale committee assume no liability, legal or otherwise, for accidents or loss of property.
- The auctioneer will settle all disputes and his decision will be final.
- Sale book printed at Slate Group, Lubbock, TX.
- Ownership changes at the time the auctioneer says "Sold". While we do everything possible to insure proper care of the animals after the sale, we do not take responsibility for death or loss of calves.
- All Cattle must be removed from the Will Rogers Complex by 3:00 p.m. Sunday, February 4, 2024. We can help you with transportation if needed, or you can contact the truckers at the bottom of this page.

The sale will take place in the West Arena, located in the west end of the Richardson Bass Building. The cattle may be previewed at the southeast corner of the Richardson Bass Building. Trailer Parking is south of the cattle barns.

## SCHACHER AUCTION SERVICES

Robert Schacher 817-219-0102  
PO Box 33804, Fort Worth, Texas 76162  
r\_schacher@msn.com • www.schacherauction.com

Dear Friends and Cattle Growers,

I would like to take a moment to welcome you to Fort Worth and the Southwestern Exhibition and Livestock Show. The best I can remember, I brought a heifer to Fort Worth for the first time in 1987, all the way from Elgin, Oklahoma. Since that original trip, the Fort Worth Stock Show has always been my favorite, and I have been to a few of them! I hope that you enjoy visiting as much as I enjoy helping to put it on.

Earlier today I attended the Livestock Appreciation where we honor a member of the community with the W.A. "Bill" King Award for excellence in agriculture. This year's recipient was our local State Representative, Charlie Geren, who has also served the Fort Worth Stock Show as a Steer Committee member for many years, as well as a fine marketer of beef through his restaurants, The Railhead. The keynote speaker was Collin Woodall, The CEO of the National Cattlemen's Beef Association. He gave an antidote that I thought was worth sharing here. He said when dealing with environmentalists, tell them that you have a machine that is solar powered, moves freely without fossil fuels and can convert otherwise useless commodities into high quality protein. Yes, you know the answer, The Bovine! In addition, Mr. Woodall informed us about the renaissance of Beef and that the demand for beef looks to be strong for the foreseeable future primarily due to the increased focus that we producers have put on quality.

Once again, our consignors have brought to you one of the highest quality sets of cattle in the Southwest. I am proud to present this set of cattle to you, and I believe that there will truly be something for everybody, and any environment you graze in.

If you have any questions, do not hesitate to contact me.

Sincerely,  
*Robert Schacher*

# JM Cattle Co.

Gause, Texas

Also look for our cattle in  
San Antonio and Houston.

## LOT 16

### 10 Solid Red Beefmaster/Red Angus Pairs

JM Ranch has been a long time consignor to Fort Worth and they always bring one of the most functional set of cows in the sale. This year you will have the first opportunity to add to your herd the Beefmaster X Red Angus females that JM Ranch is moving their program forward with. These are good sized, broad backed females that will adapt to any environment with efficiency and outstanding maternal ability. Perfect udder structure and good milk flow. JM has retained a percentage of the calves from these cows and they perform excellent in the feedlot. I am looking forward to the new generation from JM.

### DOSE AND ADMINISTRATION

LONGRANGE® (eprinomectin) should be given only by subcutaneous injection in front of the shoulder at the recommended dosage level of 1 mg eprinomectin per kg body weight (1 mL per 110 lb body weight). Each mL of LONGRANGE contains 50 mg of eprinomectin, sufficient to treat 110 lb (50 kg) body weight. Divide doses greater than 10 mL between two injection sites to reduce occasional discomfort or site reaction. Do not underdose. Ensure each animal receives a complete dose based on a current body weight. Underdosing may result in ineffective treatment, and encourage the development of parasite resistance.

LONGRANGE is to be given subcutaneously only. Animals should be appropriately restrained to achieve the proper route of administration. Inject under the loose skin in front of the shoulder (see illustration) using a 16 or 18 gauge, ½ to ¾ inch needle.

Sanitize the injection site by applying a suitable disinfectant. Clean, properly disinfected needles should be used to reduce the potential for injection site infections.

Body Weight (lb)	Dose Volume (mL)
110	1
220	2
330	3
440	4
550	5
660	6
770	7
880	8
990	9
1100	10

### Withdrawal Periods and Residue Warnings

Animals intended for human consumption must not be slaughtered within 48 days of the last treatment. This drug product is not approved for use in female dairy cattle 20 months of age or older, including dry dairy cows. Use in these cattle may cause drug residues in milk and/or in calves born to these cows. A withdrawal period has not been established for pre-ruminating calves. Do not use in calves to be processed for veal.

### Animal Safety Warnings and Precautions

The product is likely to cause tissue damage at the site of injection, including possible granulomas and necrosis. These reactions have disappeared without treatment. Local tissue reaction may result in trim loss of edible tissue at slaughter.

Observe cattle for injection site reactions. If injection site reactions are suspected, consult your veterinarian. This product is not for intravenous or intramuscular use. Protect product from light. LONGRANGE® (eprinomectin) has been developed specifically for use in cattle only. This product should not be used in other animal species.

### When to Treat Cattle with Grubs

LONGRANGE effectively controls all stages of cattle grubs. However, proper timing of treatment is important. For the most effective results, cattle should be treated as soon as possible after the end of the heel fly (warble fly) season.

### Environmental Hazards

Not for use in cattle managed in feedlots or under intensive rotational grazing because the environmental impact has not been evaluated for these scenarios.

**Other Warnings:** Parasite resistance may develop to any dewormer, and has been reported for most classes of dewormers.

Treatment with a dewormer used in conjunction with parasite management practices appropriate to the geographic area and the animal(s) to be treated may slow the development of parasite resistance.

Fecal examinations or other diagnostic tests and parasite management history should be used to determine if the product is appropriate for the herd/flock, prior to the use of any dewormer. Following the use of any dewormer, effectiveness of treatment should be monitored (for example, with the use of a fecal egg count reduction test or another appropriate method).

A decrease in a drug's effectiveness over time as calculated by fecal egg count reduction tests may indicate the development of resistance to the dewormer administered. Your parasite management plan should be adjusted accordingly based on regular monitoring.

Macrocyclic lactones provide prolonged drug exposure that may increase selection pressure for resistant parasites. This effect may be more pronounced in extended-release formulations.

### TARGET ANIMAL SAFETY

Clinical studies have demonstrated the wide margin of safety of LONGRANGE® (eprinomectin). Overdosing at 3 to 5 times the recommended dose resulted in a statistically significant reduction in average weight gain when compared to the group treated at label dose. Treatment-related lesions observed in most cattle administered the product included swelling, hyperemia, or necrosis in the subcutaneous tissue of the skin. The administration of LONGRANGE at 3 times the recommended therapeutic dose had no adverse reproductive effects on beef cows at all stages of breeding or pregnancy or on their calves.

Not for use in bulls, as reproductive safety testing has not been conducted in males intended for breeding or actively breeding. Not for use in calves less than 3 months of age because safety testing has not been conducted in calves less than 3 months of age.

### STORAGE

Store at 77° F (25° C) with excursions between 59° and 86° F (15° and 30° C). Protect from light.

Approved by FDA under NADA # 141-327

Made in Canada.

OUTLAST. OUTPERFORM.

**OUTDO**

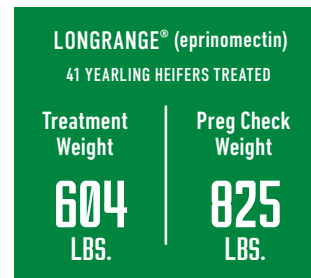

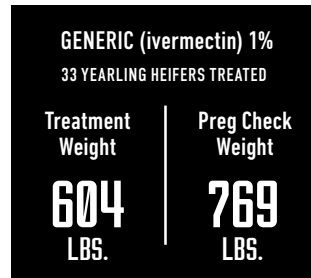

**INSISTING ON THE BEST MAKES EVERY REPLACEMENT HEIFER A HIGHER-YIELD INVESTMENT.**

**CONTROLLING PARASITES FOR UP TO 150 DAYS RESULTED IN GREATER WEIGHT GAIN AND MORE CALVES BORN EARLIER.<sup>1</sup>**

There's more to LongRange® (eprinomectin) dewormer than just putting on pounds. Pregnancy rates increased and calving intervals shortened — meaning more calves are born earlier, giving them all more time to gain. That's because LONGRANGE doesn't just get the job done, it gets it outdone. And we've got the studies to prove it.

**TOTAL WEIGHT GAIN OVER 233 DAYS ON PASTURE<sup>1</sup>**

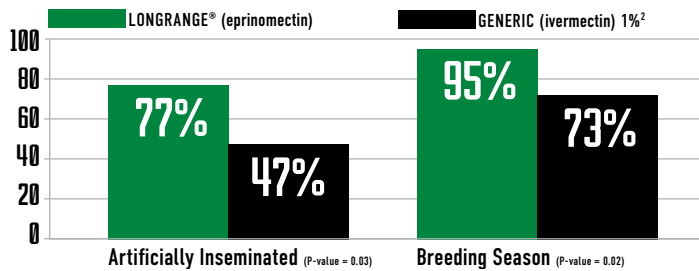

HEIFERS TREATED WITH LONGRANGE® GAINED AN EXTRA

**56** LBS.

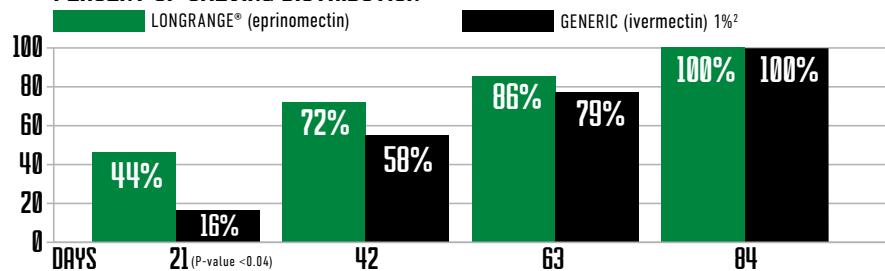

(P-value <0.001)

**REPRODUCTIVE SUCCESS OF REPLACEMENT HEIFERS<sup>1</sup>**

**MORE PREGNANT HEIFERS, MORE CALVES SOLD WITH LONGRANGE**

**PERCENT OF CALVING DISTRIBUTION<sup>2</sup>**

- Calves born early in the calving season are often healthier than calves born late in the calving season due to less pathogen accumulation and exposure.
- Heifers that calve earlier have more time to recover from calving and a greater opportunity to rebreed.
- Heifers that calve earlier in the calving season have lower chance of being nonpregnant at the end of the breeding season.

**LONGRANGE IMPORTANT SAFETY INFORMATION:** Do not treat within 48 days of slaughter. Not for use in female dairy cattle 20 months of age or older, including dry dairy cows, or in veal calves. Post-injection site damage (e.g., granulomas, necrosis) can occur. These reactions have disappeared without treatment. Not for use in breeding bulls, or in calves less than 3 months of age. Not for use in cattle managed in feedlots or under intensive rotational grazing.

**CALCULATE THE RETURN FOR YOUR OWN HERD.**

Use the LONGRANGE Investment Calculator to calculate what you could gain with us.

# Tigerstripes/Brangus

## LAVISTA RANCH

Gatesville, TX  
214-216-9505

### 1 Tigerstripe Pairs

*30-to-60-day old calves by Angus Bulls at side*

This is a nice set of ranch raised females that were sorted out of 50 of LaVista's top replacements. They are very uniform and in perfect condition with a beautiful color. The calves at side are by our Angus Bull that features quick growth and a great make up.

## JCW CATTLE COMPANY

Crockett, TX  
936-204-4244

### 5 Heavy Bred Tigerstripe Heifers

*7-8 months safe in calf to 44 Farms Angus Bulls*

Last year JCW impressed the crowd with their first offering in Fort Worth, and this group is set to do the same. These heifers have a deep dark cherry red color with a good stripe pattern and a very traditional look. They are a good size and have big tops and a nice bold rib shape. Very maternal with nice udders. They are springing heavy with 44 Farms Angus Sired calves in them.

## SANDERS AND SONS

Clifton, TX  
254-386-6411

### 2 Tigerstripe Pairs

*Calves at side by Joe Dean Angus Bulls*

Sanders and Sons has been farming and ranching in Bosque County, TX for many generations, and they are dedicated to providing their customers with only the top quality. Weather it is their top-notch Farm services or a high end set of replacement females like the ones they are presenting here, Sanders and Sons take pride in their product. This set of F1 Tigerstripe heifers are a big, long-bodied set that are starting to show a nice and uniform set of udders. The calves at side are by a high growth Joe Dean Angus Bull.

## HILLWOOD LAND & CATTLE

Fort Worth, TX  
817-454-0826 - 817-454-3165

### 6 Brangus Pairs

*60-90-day old calves at side by Cavender Ranch Brangus Bulls*

Hillwood land and Cattle has been a long-time supporter of the Fort Worth Stock Show and many time Champion in this Sale. This powerful set of females come from a long background of using the top genetics in the Brangus Breed. This will be the fourth generation of Genetrust/Cavender Ranch genetics out of our base cow herd that is primarily made up of Steiner Ranch Cattle. These heifers are always very sound and functional with good mothering ability. They have size and plenty of volume. These are the right kind of Brangus and will make an excellent addition to any Ranch. The Cavender Ranch Brangus sired calves at side are the big soggy kind that will pay the ticket to Fort Worth.

## S & W CATTLE

## MK RANCH

### 20 Superbaldie Heavy Bred Heifers

*8 plus months safe in calf to calving ease Angus Bulls*

### 21 Superbaldie Heavy Bred Heifers

*8 plus months safe in calf to calving ease Angus Bulls*

Long time consignor to Fort Worth, MK Ranch from Era, TX has once again sorted you two outstanding pens of Superbaldy Females. These heifers have rock solid genetics and years of breeding behind them. Always Eye-Appealing, the females from MK this year have a great look with a strong top that is long and level over the hips with a wide pin set. You will love the color on the faces of these with plenty of pigment on the eyes. Our repeat customers come for heifers like these.

## PAYNE CATTLE

Telephone, TX  
903-227-2094

### 26 Angus Pairs

*30-day-old Calves by Red-Black Angus RA Brown Genetics*

These heifers are out of Black-Red Angus bulls from RA Brown Ranch and out of the Payne Ranch core cow herd that has thrived in Telephone Texas for years. The Payne Family raises very practical cattle that will adapt to any environment. They are efficient, sound, fertile and offer cattlemen proven, problem free maintenance and longevity to raise top end calves year after year. These are always very popular in Fort Worth. The calves at side are sired by a Black/Red Angus Bull heavy in RA Brown Genetics, and they will be high growth and heavy at weaning this Fall. Heifers are very gentle, will follow feed truck, ATV, or moved by horseback.

## T BAR CATTLE

Haskell, TX  
254-485-4983

### 22 Superbaldie Heavy Bred Heifers

*8 Plus months safe in calf to RA Brown Red Angus Bulls  
Several calves already on the ground*

This is exactly what we want when we invite new consignors to Fort Worth! These heifers are daughters of females that Rod Townsend purchased from MK Ranch from this very sale. They are Angus sired out of the MK Ranch Superbaldies and they are impressive. Perfect sized and very eye-catching, they are long bodied with a level top and hip. They have a huge rib shape with plenty of depth from end to end and still have a smooth shoulder and feminine look. When they calve you will be impressed with the solid udders, as well as the Carcass oriented calves sired by RA Brown Ranch red Angus Bulls.

## GUIDE MOUND RANCH

Electra, TX  
940-636-3491

### 27 Ranch Raised Angus Pairs

*1-2-month-old calves at side by Joe Dean Angus Bulls*

This is a rugged, stout made set of Angus females raised in the heart of cow country. They have Joe Dean Angus genetics on the top and bottom of the pedigree. They are gentle and work easily on both horseback or on foot. They make really good cows with extra longevity. They have had three rounds of Blackleg, two rounds of Pyramid IBR and recently have had a Vibrio-Lepto Vaccine. These are the Ranchers kind.

### 45 Heavy Bred Red Angus Heifers

AI Bred 5/17/23 to 5/19/23 to ASR Birthright (Calving Ease Simmental)  
PE C-Bar One Way (Red Angus) 5/20/23 to 8/1/23

If you are looking for a very uniform set of Red Angus females, be sure to find this set. This set is springing right along and are showing a sound udder development. These heifers are big footed and have plenty of bone and a complete look with a solid square hip and hind leg, and a perfectly angled shoulder. They were AI Bred to a Simmental Bull that is in the top 2% of the breed for calving ease direct and a -2.5 EPD for Birthweight. Cleaned up with our Herd Sire C-Bar One Way. All Heifers will be 6-8 months safe.

Panhandle, TX  
806-683-7073

# 7

### 42 Heavy Bred Black Baldie Heifers

AI Bred 5/12/23 to Sitz Essential  
PE 5/14/23 to 7/23/23 to Calving Ease Angus Bulls

The Dauer heifers have consistently been some of the more popular heifers in the barn by both buyers and consignors. They are a slick set of beautiful, feminine fronted heifers with the right amount of chrome and pigment on their faces. This turns into a perfect shoulder to neck junction, and a big bold sprung ribcage behind the shoulder. Long and level over the hip and into the loin. They are structurally correct enough to stand any environment. They have been AI bred to a Sitz Angus bull that ranks in the top 2% of the breed for Birth Weight, and the top 10% of the breed for Marbling. Cleaned up with Potter's Angus Valley Low Birth Weight Angus Bulls.

### 46 Heavy Bred Red Angus Heifers

AI Bred 5/1/23 to GMS Stock Market J5633 (Calving Ease Red Angus)  
PE GMS Stock Market J5633 5/7/23-7/13/23, Heifers are all Due in February and March

This set of heifers is from RA Brown Red Angus Genetics on the top and bottom of the pedigree. This is a uniform set of heifers that exhibit a nice frame size with a solid structure and good feet and legs. They are all 8 plus months safe in calf to Red Angus bull GMM Stockmarket J5633, a true calving ease bull with a -4.5 Birth Weight EPD, but still has a growthy 119 Yearling EPD, and ranks in the top 1% of the breed for Marbling. Certified red Angus with an excellent health program including Calvary 9, Bovi One Shot, Pink Eye Vaccine, Long Range injectable and Dectomax Pour-on. Good looking set of heifers with outstanding genetics. Very gentle and handle well.

### 47 Fall calving Hereford Marked Club Calf Producers

PE 10/23/23 to 1/1/23 to calving ease black bulls (Corriente)

### 48 Fall calving Hereford Marked Club Calf Producers

PE 10/23/23 to 1/1/23 to calving ease black bulls (Corriente)

Mates to these heifers have produced Hereford Champion Steers over the entire state of Texas including both the Champion and Reserve Horned Hereford and the Champion Polled Hereford Steers right here in Fort Worth in 2023. They were the top selling pen in this sale in 2019 and 2023. They have the right genetics and the right look to do it for you as well. Moderate framed, big-backed and super stout rear quarters along with the chiseled front you need to produce the Champions. Safe in calf for summer and fall calves to calving ease black bulls.

# Simmental/Char Cross

## SIMMENTALS OF TEXAS

Granbury, TX

### 49 SimAngus Pairs

A super set of SimAngus pairs, calves born in Sept., Oct. and Nov., 2023 that we are consigning to the Ft. Worth Commercial Female Sale. The heifers are all two year olds and they calved unassisted with a great set of calves weighing about 300 pounds now. The cows and calves are a mixed set of Reds and Blacks because some are Angus based and some are Red Angus based. The heifers were AI bred to Mr Ishee Trail Blaze, a calving ease with high growth numbers on Dec. 19, 2023 and SOT K760 was turned out on Dec. 27th, 2023. All these females are Fleckvieh based and are complete out crosses to most all SimAngus currently on the market. Milk, fertility, growth and red meat describes this set of females with a set of calves that are full of red meat. Many will be 3in1's. Don't miss this set, raised by cattlemen for the next generation of genetics.

### 50 SimAngus Bred Heifers

We have gone into the keeping pen to select this set of SimAngus heifer for the Ft. Worth Commercial Female Sale. Ten heifers that are both Angus, Red Angus and Fleckvieh based, all coming two year olds. Due to calve in Feb. and March to a black SimAngus sire. Another mixed color set due to the Angus and Red Angus based but what a set of females to start or add to your commercial cattle operation. Ranch raised to meet the needs of the cattle industry, with outcross genetics. Don't miss this set, raised by cattlemen for the next generation of genetics.

## BAR S RANCH

Paradise, KS  
785-483-1454

### 51 Heavy Bred Buckskin Char Cross Heifers

AI Bred 5/18/23 to 5/19/23 to WEBR Brigade 13G (Red Angus)  
PE 5/30/23 to 9/29/23 to WEBR Open Range 134H (Red Angus)

New to Fort Worth, but not new to the Cattle business, Bar S is a reputation outfit that dates back to 1900. These Buckskin Heifers are from the heart of our program of known pedigrees from Charolais and Red Angus. They are big and powerful and have been raised in big ranch country in Northwest Kansas. Be sure to find these, they will be awesome calf raisers! They were AI Bred to our Sr Herdsire, a legit calving ease Red Angus bull that has maternal merit as well.

## SIDWELL HAY & CATTLE

Carpenter, WY  
970-381-4701

### 52 "Peach" Char Cross Heavy Bred Heifers

AI Bred 5/30/23-6/2/23 to Mr. Peacemaker (Red Angus)  
PE 6/20/23-8/1/23 to Herring Angus Bulls

### 53 "Silver" Char Cross Heavy Bred Heifers

AI Bred 5/30/23-6/2/23 to Mr. Peacemaker (Red Angus)  
PE 6/20/23-8/1/23 to Herring Angus Bulls

### 54 Purebred Charolais Heavy Bred Heifers

AI Bred 5/30/23-6/2/23 to Mr. Peacemaker (Red Angus)  
PE 6/20/23-8/1/23 to Herring Angus Bulls

These Char and Char cross heifers from Sidwell have been some of the most talked about and popular females in the barn for several years. It is hard to continue to replicate the flawless design of these heifers year after year with their huge tops and butts along with the tremendous depth and spring of rib. With all this power behind the shoulder, they are still wedgy and smooth through the front end. Ideal sized and ready to produce your next great ones.

## SIDWELL HAY & CATTLE

Carpenter, WY  
970-381-4701

### 55 Club Calf Sired Heavy Bred Heifers

PE 6/20/23-8/1/23 to Herring Angus Bulls

These heifers are sired by Here I Am, Turning Point, Good as it Gets, Knock Knock, Gone Viral and In God We Trust. If you are looking to expand your Club Calf production, you need to come and take a look at these potential donors that have winning in the blood. All of the Sidwell heifers were synchronized with MGA and received an Estro Alert Sticker and Heat detected, not just time AI Bred. After AI, they were moved to our summer pasture south of Cheyenne where they run at 6,000 feet for the next four months. They were ultrasound preg checked on 9/8/23, and in mid-October they return to Carpenter and put on a hay and silage ration. They received a pre-breeding vaccine in April, as well as two rounds of 7-way blackleg vaccine. They have been poured three times and will receive a scour guard vaccine in January.
