All persons on the sporting clays course during shooting are required to wear eye protection. Shooting glasses or equivalent prescription glasses are required.

All persons on the sporting clays course are required to use hearing protection. Ear plugs or earmuffs are required. Electronic devices, other than those specifically designed for hearing protection only, are forbidden on the shooting field forward of the safe line. This includes, but is not limited to radios, CD players, MP3's, walkie-talkies and cell phones either wired or wireless.

All firearms will remain open and empty until the exhibitor or participant is on the shooting station/cage. The gun must be open and empty before leaving the shooting station/cage. If carrying an over and under shotgun over your shoulder, the muzzles must be forward and under your control.

Exhibitors and participants must maintain control of their muzzles at all times. Exhibitors should report to the appropriate location approximately 30 to 45 minutes prior to their scheduled time. Exhibitors may **ONLY** practice on the designated practice course and participate in side games. Any exhibitor shooting a course designated for the competition will be disqualified and forfeit their entry fee.

10. Official Scores: The official score is the record kept by the referee/trapper on a sheet furnished to them by Management. The referee/trapper's decision on whether a target is dead or lost is final. All reported scores are checked for accuracy and corrections will be made when required. Management maintains the objective of producing timely, accurate and complete scoring records for each event. They do not represent any club, county, team or individual. Management, via the Shoot Coordinator, will be responsible for conducting any and all aspects of the event pertaining to "shooting" including, but not limited to squadding, scoring, posting of scores, determination and conducting shoot-offs, determination of winners and rules interpretation.

Once the exhibitor has changed posts or exited the shooting cage, such right of appeal is lost. The referee/trapper may poll the squad at his or her discretion or ask assistance from Course Superintendent at his/her discretion. The decision of the referee/trapper in regard to dead or lost targets on the field is final and not subject to further appeal. A parent or coach's score is not an official score and will not be consulted.

12. Protests: Only exhibitors may protest any perceived injustice, violation of the rules or other circumstances that may have resulted in placing them at a disadvantage relative to other exhibitors. Such conditions must be reported to the Field

Referee/Course Superintendent immediately. If satisfaction is not obtained, the situation should be reported immediately to the Shoot Coordinator. If resolution is not reached at this point, the exhibitor only has the right to present a written protest with a non-refundable \$100.00 protest fee to the Course Superintendent or Shoot Coordinator within one (1) hour of the time their squad has finished, or score was posted. The Protest Jury will investigate and reach final resolution of the matter as soon as possible considering all circumstances. Results of all protests are final and will be reported to the contestant. The names of the Shoot Coordinator and Protest Jury members will be posted at the shoot. Time of day and weather conditions during flight times are not within the control of Management and therefore no protests concerning the same will be considered.

• **Ammunition- FACTORY AMMUNITION ONLY- NO RELOADS-** Exhibitors must furnish their own appropriate ammunition which conforms to governing body rules. This includes violating the designated boundaries rule (Firing Line Boundary) and/or altering the pace of competition for photography purpose. Any violation of this rule will be subject to appropriate actions, up to and including removal from the event, range, area or grounds.

Commercial photography and filming are often conducted by SWELS. You and/or your likeness may be depicted in photographs or video recordings of any SWELS event, and by entering the grounds, Defender and/or competitive events associated with the SWELS, you consent to the use of any depictions in connection with advertising, news reporting, public relations, webcasts or other broadcasts, or any other activities relating to the SWELS, and you further release and waive all claims for compensation and any rights of review and approval, copyright and right of publicity with respect thereto.

21. Firing Line Boundaries: Spectators are not allowed beyond designated boundaries. The firing line boundary for sporting clays is per NSCA rules. Please respect these boundaries and the directions of officials. Failure to do so or argument with officials is considered unsportsmanlike conduct and will result in appropriate actions, up to and including removal from the event, range, area, or grounds and disqualification of the associated exhibitor or other participant.

22. Use of Two-way Radios: To assist us in range and match operations, only authorized persons are permitted to use two-way radios on the grounds. Any action by either youth or adults interfering with the frequencies in use imposes a safety hazard. Deliberate disruption of range communications by anyone at the event will be considered a safety violation and treated as such.

23. Coaching: Coaching during competition will not be permitted while exhibitors and participants are on the firing line. Coaching includes any communication between the coach, parent or other spectator and the exhibitor or participant, verbal or non-verbal (including any electronic and/or smart devices). The exhibitor or participant may request assistance from a Course Superintendent, and the Course Superintendent may assign an assistant.

24. Electronic Devices: Electronic devices, other than those specifically designed for hearing protection only, are forbidden on the shooting field forward of the safe line except by shoot personnel. This includes, but is not limited to radios, CD players, mp3's, walkie-talkies, cell phones, and smart watches. Any violation of this rule will be subject to appropriate actions, up to and including disqualification and/or removal from the event, range, area or grounds.

25. Disruption: Parents, coaches or other individuals should remain positive and supportive, being careful not to disrupt or exhibit behaviors deemed detrimental to exhibitor, participants or the operation of the match. Sanctions ranging from a warning to ejection from the grounds or disqualification of exhibitors or participants may be imposed for interference with the operation of the match or disruption of the events on a firing line or field.

26. Interference: If any exhibitor or participant, in any way, whether in person or by agent, interferes with the judges, trappers or other officials during their adjudication, or shows any disrespect to them or the show or competition, they are subject to be penalized. Management may demand a proper apology from the exhibitor or participant, may exclude him/her from competition, bar him/her from the grounds/Defender, and may also withhold any prizes that may have been awarded.

ATTACHMENT A - LEWIS CLASS SYSTEM

There will be two (2) Lewis Classes per Division. The Lewis Class calculation format below governs. The Lewis Classes will be set for each Division using all scores for that Division from the two courses shot by that Division in the Sporting Clays First Round. All exhibitors placing first (1st) through fifth (5th) in the Championship for each Division and the Grand Champion, as applicable, will not be included in the Lewis Classes for their respective Division. After all of the exhibitors placing in the Championship and Grand Champion have been removed, the remaining exhibitor scores will be listed in descending order for their respective Divisions. The remaining exhibitors represent the total Lewis Class number used in the following calculations for each Division.

The list of exhibitor's scores will be divided into classes by placing dividing lines (original line) based on the following calculation:

- Total number of exhibitors in Lewis Class divided by number of classes
- If the result is a whole number, it is the number of exhibitors for each class
- In the event that the calculation does not end up as a whole number, the whole number portion of the result is the base number for each class. The remainder is to be multiplied by the number of classes. This will generate a remaining whole number that will be less than the total number of classes. This is the number of classes that need to have one (1) added to the base number, starting with the lowest class and then moving up.

When an original line is placed between a number of tied scores, the exhibitors will be re-assigned as follows:

- Majority above the line, those exhibitors below the line are moved above the line. Majority below the line, those exhibitors above the line are moved below the line.
- Equal number above and below, those exhibitors above the line are moved below the line. Only the lines with ties are moved. The original lines in all other classes remain as originally drawn. There is the possibility of having a significantly different number of exhibitors for each class.

If there are ties in the Lewis Classes, the Lewis Class premiums within that class will be assigned as follows:

- The amount of Lewis Class premium paid to each tied exhibitor will be equal. The amount of the premium will be calculated by adding the original amount of the Lewis Class premium for the tied place plus the Lewis Class premiums for the subsequent places until the number of Lewis Class premium places equals the number of tied exhibitors and dividing the sum total by the number of tied exhibitors.
- If the number of tied exhibitors is greater than the remaining Lewis Class premium places then the sum total of all remaining Lewis Class premium places will be divided by the number of tied exhibitors with no further premiums paid.
- Example 1 – Two (2) exhibitors tied for first (1st) place. The premiums for first (1st) and second (2nd) place will be added together and divided by two (2). The next highest score(s) will receive the third (3rd) place premium.
- Example 2 – Four (4) exhibitors are tied for second (2nd) place. The premiums for second (2nd) and third (3rd) place will be added together and divided by four (4). Since there are only three (3) Lewis Class premium places no further premiums will be paid.

Lewis Class Calculation Example

Total number of Contestants in Lewis Class = 7 Total number of Classes = 2

$27/2=13.5$ 13 is the base number for each class - .5 is the remainder

$2 \times .5 = 1$ The lower classes need to have 1 added to the base number

Class 1 – 13

Class 2 – 14
