

# Georgia National Fairgrounds & Agricenter

GNFA has adopted a policy of no outside shavings effective immediately.

This policy is to help offset the rising cost of cleanup and disposal. Bedding will still be provided at the fair like always. The difference is that we ask you to buy any additional bedding from the facility. Shows will still be offered the same options as always with the bedding included in the stalls or pens. Shows have the option to not bed and then the bedding would have to be bought from GNFA. Each show decides what to charge as their pen fee.

There will be someone on site to sell shavings at each event. We do have a new online portal to pre order shavings with a QR code that is displayed around the barns. You can also go to the GNFA website and click on the shavings and pellet tabs.

We currently have 3 options of bedding. They are yellow pine \$7/bag, White pine \$12/bag, and pellets \$8/bag. All these prices include tax & delivery to stall or pen.

This policy is for all species of livestock.

Thank you,

J. Kelley Owen
