Georgia National Fairgrounds & Agricenter

Greetings,

Welcome to the 37th Annual Georgia National Fair! As the Agricultural and Youth Livestock Director, I am honored to welcome you to 11 days of exciting events, competitions, and time-honored traditions as we celebrate Freedom 250 a tribute to the spirit, heritage, and resilience that define our nation.

My journey with the Georgia National Fairgrounds began in 1993 as a teenager exhibiting cattle at the Georgia Jr. Beef Futurity. What started as a passion for livestock has grown into a lifelong connection with this community. Being part of an event that reflects the values of hard work, dedication, and agricultural principles deeply rooted in our country's history makes this role especially meaningful.

Our motto, "Family, Traditions, and Memories," aligns perfectly with the spirit of Freedom 250. For generations, families have gathered here to celebrate not only agriculture, but the freedoms and opportunities that bring us together. From cheering on competitors to enjoying grandstand entertainment and the laughter of the Midway, the fairgrounds will once again come alive with energy, pride, and community.

The success of the Georgia National Fair is made possible by the incredible dedication of our staff, exhibitors, volunteers, sponsors, and community partners. Your commitment reflects the very best of what this celebration stands for, and we are sincerely grateful for the role each of you plays in making this event a success.

Join us October 8th through October 18th as we celebrate the Georgia National Fair and the spirit of Freedom 250. Whether you are a first-time visitor or a long-standing supporter, we look forward to welcoming you for a memorable experience filled with fun, tradition, and patriotic pride.

We hope to see you there as we celebrate freedom, community, and the traditions that bring us together.

Warm Regards,

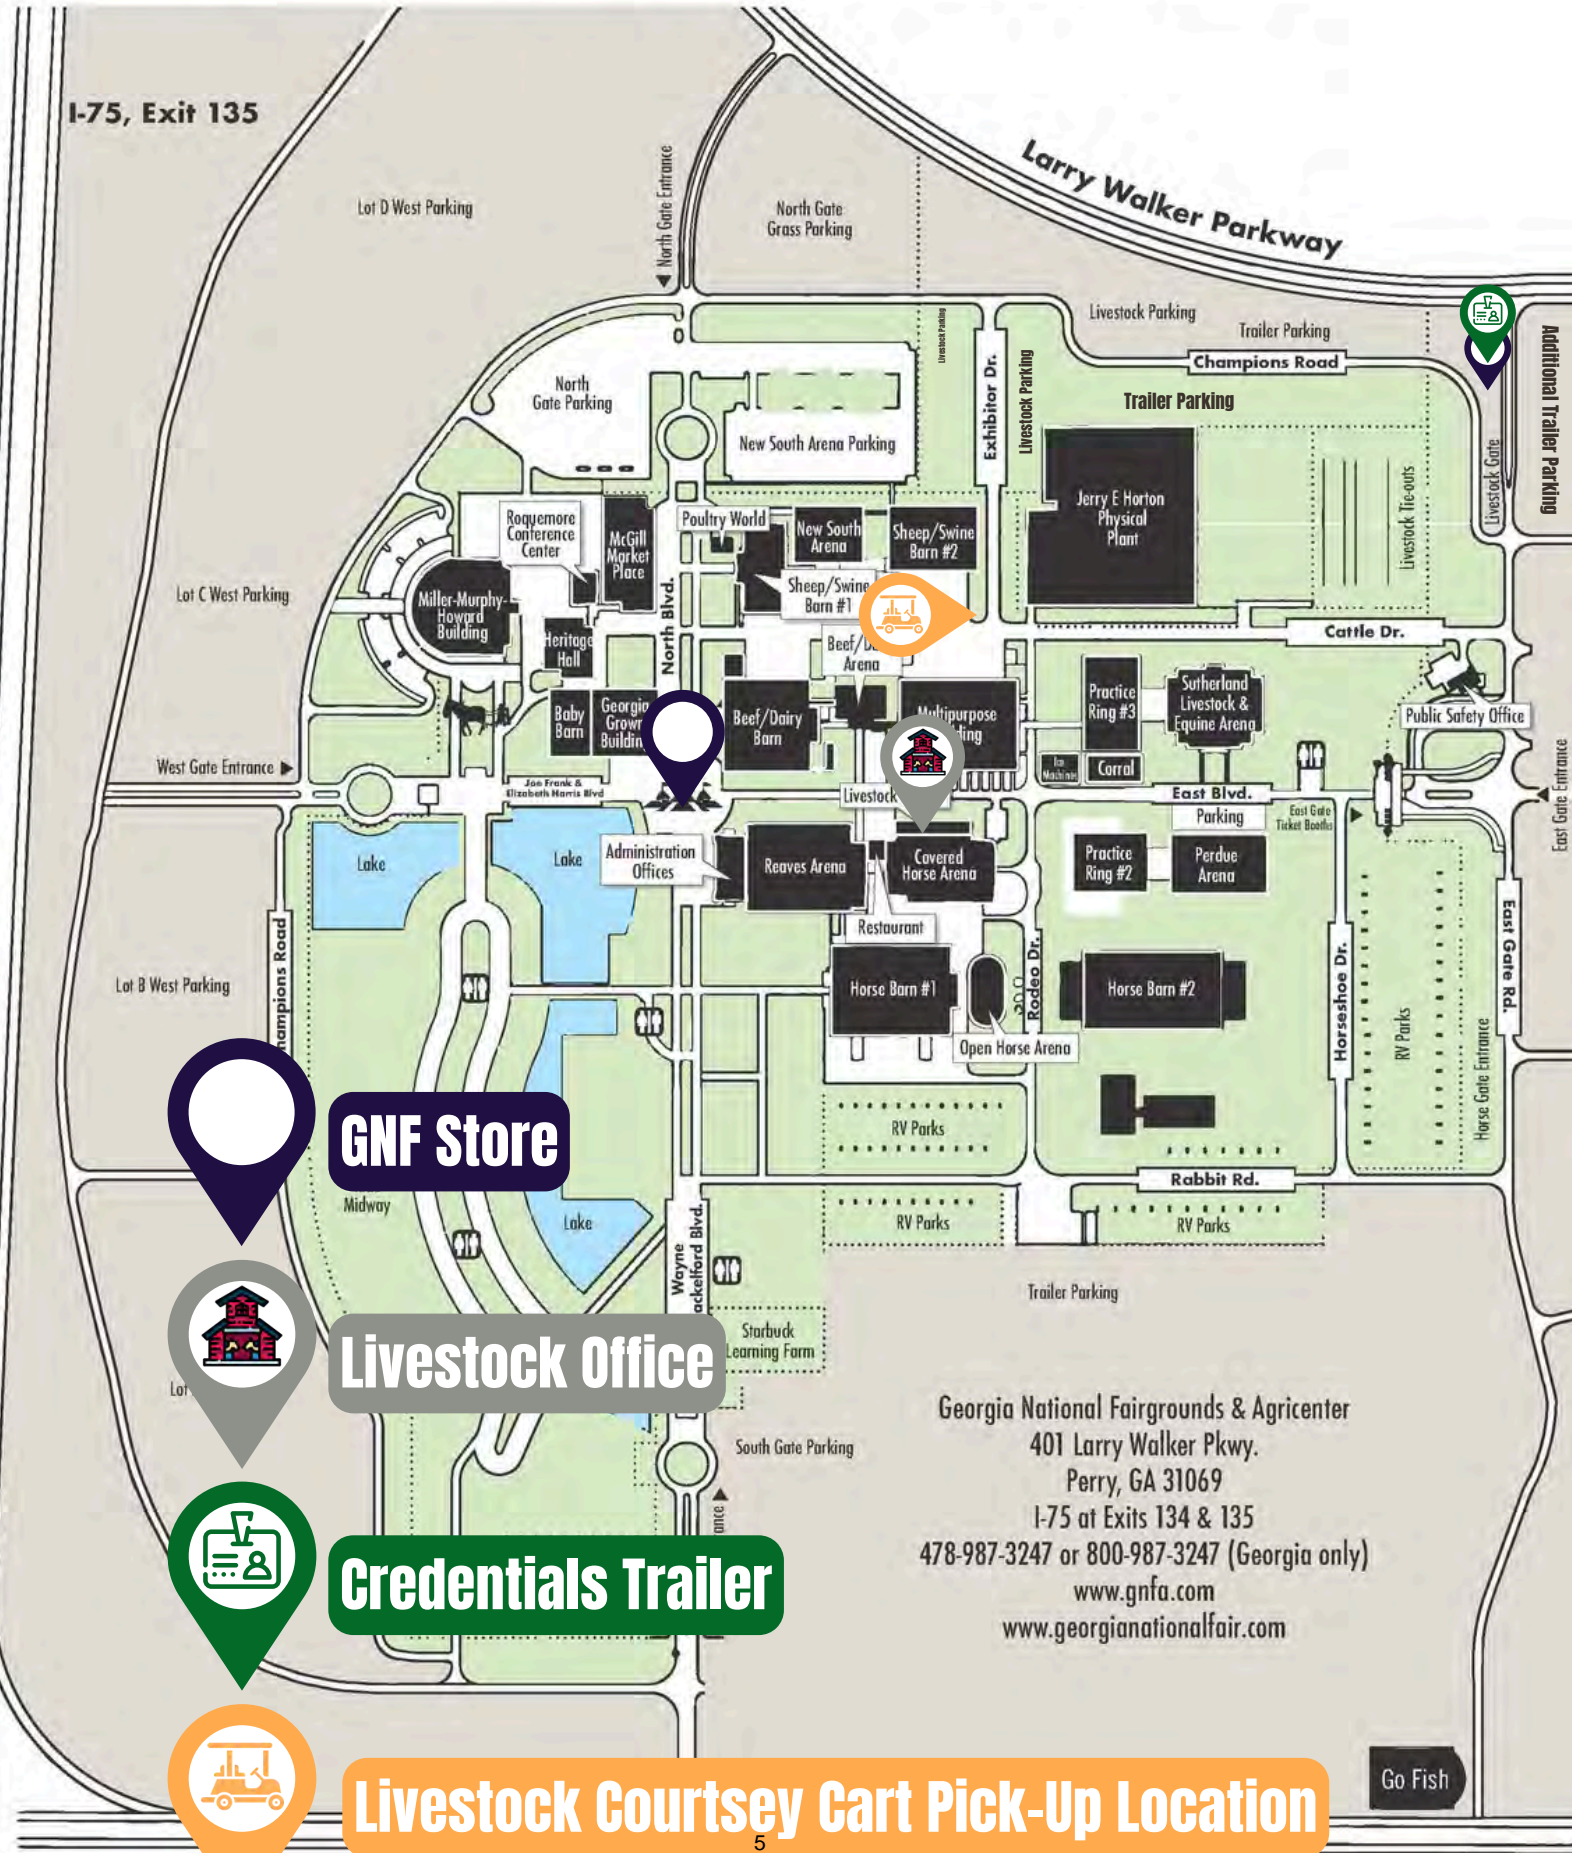

J. Kelley Owen

General Rules and Regulations

All exhibitors are cautioned to carefully read the following rules and regulations, as they will be strictly enforced.

The Georgia National Fair (GNF) will be held on the Georgia National Fairgrounds & Agricenter in Perry, October 8-18, 2026, unless postponed, or extended by the Georgia Agricultural Exposition Authority (GAEA), all of which they hereby claim and reserve the right to do from any cause whatsoever which they may deem necessary for the general good of all concerned.

Administration of Rules and Regulations

The GNF reserves to the GAEA the final and absolute right to interpret these rules and regulations and to arbitrarily settle and determine all matters, questions, and differences in regard there to, or otherwise arising out of or connected with or incident to the show, and the right to amend or add to these rules as its judgment may determine. An exhibitor who violates any of the following rules will forfeit all privileges and premiums and be subject to such penalty as the GAEA may order.

I. Statement of Liability

- a) All livestock exhibits will be under the direction of the GAEA, but the GAEA will in no case be responsible for any loss or damage that may occur. Each exhibitor will be solely responsible for any consequential or other loss, injury or damage done to, or occasioned by, or arising from, any animal or article exhibited by him/her and for its description as given in the catalog, and shall indemnify the GAEA against all legal or other proceedings in regard thereto, as well as damage or injury to any other person or property, caused by the exhibitor, or any of the animals exhibited by him/her, or arising out of, or in any way connected with such exhibition of any of the animals so exhibited.
- b) The management reserves the right to remove from the grounds any exhibit, animal or fowl that may be falsely entered or may be deemed unsuitable or objectionable, without assigning a reason therefore, and if necessary, to return any money already paid for space or stalls, which shall exonerate them from any claim whatsoever on the part of the exhibitor or purchaser.
- c) Pursuant to the Official Code of Georgia Annotated Chapter 12 of Title 4, (O.C.G.A § 4-12-) State of Georgia warning notices for all livestock, equine, llama activities are as follows:
 - i. An equine activity sponsor or equine professional is not liable for an injury to or the death of a participant in equine activities resulting from the inherent risks of animal activities.
 - ii. A llama activity sponsor or llama professional is not liable for an injury to or the death of a participant in llama activities resulting from the inherent risks of animal activities.
 - iii. A livestock activity sponsor or livestock professional is not liable for an injury to or the death of a participant in livestock activities resulting from the inherent risks of animal activities.

II. Testing and Responsibility

- a) **DRUGS & DIURETICS:** Administration of any drug of any kind or description internally or externally is prohibited, except for treating a recognized disease or injury as prescribed by a licensed veterinarian. For the purpose of these rules, the term “drug” shall mean: the sale, possession or use of any substance which is controlled by license under federal, state or local laws or regulations and any substance commonly used by the medical or veterinary professions which affect the circulatory, respiratory, or central nervous systems of an animal. The use of any *diuretic, tranquilizers, or anti-inflammatory drugs* for any purpose whatsoever on any animal in the show is prohibited. Show management reserves the right to take blood, tissue, milk and/or urine samples for analysis. Any animal entered is subject to testing. The administration of any drug of any kind or description internally or externally for the treatment of a disease or injury must be done in accordance with regulations established by the United States Food and Drug Administration.
- b) **EXHIBITOR RESPONSIBILITY:** The exhibitor shall be the absolute insurer of and shall be responsible for the condition of an animal exhibited at the Georgia National Fair Livestock competitions, regardless of the acts of a third party. Extent of knowledge on the part of the exhibitor with regards to the drugs or

substance found in an animal is not relevant to any issue, and it shall not be a defense that person or persons unknown introduced the prescribed substance into the animal prior to, or at arrival, or after arrival on the Georgia National Fairgrounds property.

- i. Any animal exhibited in any 4H/FFA Junior show being treated with a prescription or over-the-counter medication (the use of any diuretic, tranquilizers, or anti-inflammatory drugs for any purpose whatsoever on any animal in the show is prohibited) that has not completed its recommended withdrawal time must be accompanied by an original, complete veterinary prescription. This prescription must be provided to management upon request at any time during the show and will be required at the time of residue testing if that animal is selected. The prescribed medication(s) must be approved for the use on the treated animal.
 - ii. Should testing and inspection procedures used by the GNF reveal evidence of the presence of a foreign substance or drug exceed established tolerance levels, not medically necessary, is deemed to provide a competitive advantage, or not approved for such use by the Food and Drug Administration or United States Department of Agriculture, the exhibitor, a member of the exhibitor's immediate family or any other person shown to have had care, custody or attendance of the animal in any way, at the discretion of the Georgia Agricultural Exposition Authority, may be subjected to the penalties provided for in these rules.
 - iii. When testing and inspection procedures identify a positive sample, the exhibitor will be provided the opportunity to send a second sample (if available) to a laboratory of their choice and at their own expense. In addition, the exhibitor will be provided the opportunity to submit a written appeal to the Residue Review Committee.
- c) **PENALTIES:** An exhibitor determined to have violated these rules or whose animal has been found to contain evidence of drugs as described in these rules may be subject to the following penalties at the discretion of the Georgia Agricultural Exposition Authority:
- i. Forfeiture of prize money
 - ii. Forfeiture of titles, trophies, and awards
 - iii. Banned from future livestock competition at the Georgia National Fair and the Georgia National Junior Livestock Show.
 1. The exhibitor and animal will be simultaneously disqualified and ineligible to exhibit for all species at the Georgia National Junior Livestock Show and the Georgia National Fair for twelve (12) months or one complete show year (whichever is greater) from rule infraction. This disqualification also applies to the animal itself, and it may not be exhibited by any other individual at any Georgia National Fair or Georgia Junior National Livestock Shows. After the twelve (12) months or one complete show year (whichever is greater) suspension has been completed, the exhibitor will then be placed on probation for twenty-four (24) months or two show years (whichever is greater).
 2. During this probation period, management reserves the right to residue test any/all entries of the individual on probation that are entered at the Georgia National Junior Livestock Show and/or the Georgia National Fair. The exhibitor is responsible for full payment of costs incurred for any positive samples. Residue tests will be sent to a laboratory of show management's choice.
 3. If, at any time following the first ban, any **Junior 4H/FFA animal** shown by that exhibitor tests positive for any unapproved drugs, prohibited drugs, or drugs that are not under the prescription of a licensed veterinarian, the exhibitor will be banned from the Georgia National Junior Livestock Show and the Georgia National Fair for the exhibitor's junior show career.
 - iv. Subject to investigation by federal, state, and local authorities for criminal prosecution.
 - v. Violation of these rules may result in disqualification from other 4-H and/or FFA activities.

Refusal to submit animals for testing or to cooperate in completion of minimum testing requirements will result in disqualification and subject the exhibitor to the same penalties provided for exhibitors whose animals test positive for drugs.

This policy was made in partnership between the Georgia Agricultural Exposition Authority, Georgia FFA, Georgia 4-H, and the University of Georgia Animal and Dairy Science Department.

III. Exhibitor Eligibility for Entry

- a) Competition is open to the public unless otherwise stated in the special rules governing a particular department.
- b) **CERTIFICATE OF REGISTRATION:** All animals in the breeding classes must be recorded in recognized books of record for their respective breeds. Exhibitors must produce certificates of registry at the request of the superintendent in charge.
- c) **OWNERSHIP:** Exhibitors entering an animal in any name other than the name of the bona fide owner or owners or showing an animal in a class for which it is not eligible may, at the discretion of the management, be barred from further showing, and any or all premiums previously awarded may be forfeited. Entries that have been erroneously entered will be transferred to their proper classes prior to judging. Animals owned in partnership may be entered in proper classes in one owner's name but must appear under this ownership in all classes entered.

d) Family Entries:

a. Each exhibitor must complete an entry through ShoWorks using the standard online entry process. If an exhibitor has no entries in the system, they will not be considered eligible for family entries.

b. Families must declare their intent to participate in family entries by July 15, 2026, at 11:59PM to qualify. Declarations must be submitted by completing and submitting the official Family Certification Form and Affidavit by the stated deadline.

c. At the time of species check-in, each sibling must declare if a change of exhibitor is going to happen.

d. To be eligible for family entries, exhibitors must be siblings, reside in the same household, house their animals at the same barn, be entered in the same species, and be registered as junior exhibitors.

e. If an animal is registered within a respective breed association under multiple siblings, but not all siblings are participating at the GNF, a family declaration must still be filled out prior to the deadline for family declaration.

f. Registered livestock will be eligible for family entries, if the animal is registered within the respective breed associations under all children's names. Animals that are registered under multiple sibling names will be allowed if all siblings are members of the respective national junior association. All names on the registration papers must be siblings and Bonafide members of the respective national junior breed association. Each sibling that may potentially show a registered animal must be registered for that species show at the GNF. For market and commercial species that do not have registration papers, siblings need to have an animal registered within that species specific show at the GNF for the family entry rule to apply.

- e) **HEALTH REQUIREMENTS:** Health Certificates meeting requirements set forth under Health Regulations printed in the Premium List are required of all animals. Diseased animals are barred entry (at all times) into the Fairgrounds area. Superintendents are instructed and authorized to refuse unloading privileges to animals showing any signs or characteristics of disease. Inspectors will check health papers upon arrival.
- f) **BREEDER AFFIDAVIT:** Barren animals will not be eligible for breeding classes; an affidavit that the animal is a breeder must be furnished on request.
- g) If an exhibitor has been disqualified from competition in a major show or has had a premium withheld or withdrawn on the grounds of rule violation, misrepresentation, fraud, or deception, he/she will not be allowed to compete at the Georgia National Fair. In cooperation with the member shows of the North American Livestock Show and Rodeo Managers Association and the Rule Infraction Database, the Georgia National Fair reserves the right to refuse entry to any exhibitor.
- h) To be eligible for entry, exhibitors and their livestock must meet and adhere to the requirements of Special Rules listed under the appropriate department or departments (in subsequent pages of this premium list).

- i) **ENTRIES AND ENTRY DEADLINE:** All livestock entries will be ONLINE ONLY. Entry deadline is August 1st, 2026. This substitute Showman must be a current member of either 4-H or FFA and must be approved by the Show Superintendent. If an exhibitor is unable to personally show their animal due to a disability, they may assign a substitute Showman (who is also a current member of either 4-H or FFA) to showcase their animal. However, the Show Superintendents must approve this substitution. It is important to note that the exhibitor with the disability must be physically present at the showing when the substitute Showman and animal enter. Georgia Born Guidelines for the Georgia Junior Livestock Sheep and Goat Shows

- The objective of these programs is to highlight Georgia-born animals, in hopes that it will increase the awareness of all Georgia producers.
- We welcome all sponsors who would like to unconditionally support this objective. No stipulations can be made based on organizational membership.
- Procedure:
 1. Exhibitors will indicate if an animal is Georgia Born (GB) when registering for the state show.
 2. The GB status will be confirmed at check-in by the animal's scrapie tag (sheep and goats).
 3. During the show, the top three GB animals will be identified in each class as the three highest-placing animals. If these are not the first, second, or third place animals, the clerk will tell the exhibitor (e.g. if it is the fourth, fifth, and seventh placed exhibitors) before leaving the ring that they are one of the top three GB and need to come back at the division drive.
 4. During the division drive, if the grand champion is GB, it will automatically serve as the champion GB. If not, it will pass to the reserve division champion. If the reserve division champion is not, it will pass to the third overall. If none of these are GB, the champion drive will be "reloaded" with first, second, and third place GB from each class. From this point, the judge will be asked to select a grand, reserve, and third GB.
 5. If an overall top five is selected, and the grand and reserve are not GB, but one or more of the remaining top five are GB, these will not automatically serve as the GB champion and/or reserve. After the top five are selected, all divisional GB champions, reserves, and thirds will be brought back in for the selection of the Top 5 GB animals. If the third, fourth, or fifth overall are GB, they will be included in the drive for GB champion and reserve.
 6. There will be a Grand Champion, Reserve Champion, and third selected from each Division and a Grand and a Top 5 selected Overall.
 7. All GB selections will take place after the selection of the overall division drives and champion drives.
- All management and organization will be performed by the staff of the Georgia Junior National Livestock program. Sponsors are not permitted to organize or manage the eligibility or selection of GB animals in any way.
- All sponsors are invited to the show and encouraged to come. No sponsors are allowed in the ring until after selections are made.

- 22. Classification:** See pages 24 – 29 in the Georgia National Fair Livestock Premium Book for steer breed classification guidelines and make sure that your entry/entries meet the guidelines. Entries will not be allowed to change breeds after the entry deadline. Registration papers, breeder affidavits or other paperwork will not be considered during the steer classification process.
- 23. Classes:** The Georgia National Fair Jr. Market Beef Show is structured so that the divisions will be separated into breeds and then divide classes based on weight. Divisions will be:
- a. Market Heifers:** The market heifer division will be shown first, and classes will be divided based on weight.
 - b. Breed Divisions:** Any breed with a minimum of seven (7) steers after check-in/weigh-in and classification will be considered a breed division.
 - c. Crossbreed Division:** This division will consist of steers with varying percentages of British and Continental breeds.
- 24. Championship:** The first (1st) and second (2nd) place market animal from each class will compete for the Grand and Reserve Champion of their respective breeds. All breed Grand Champions and Reserve Grand Champions will compete in the Overall Championship Drive and the conclusion of the breed shows.
- 25. Premiums:** Exhibitors participating in the Georgia National Fair must furnish their Social Security Number upon Fair entry to ensure prompt processing of awards without any potential loss. This requirement is solely aimed at preventing any delays or forfeiture of premiums granted. Social Security Numbers are used exclusively for the purpose of generating an IRS-1099 form for exhibitors earning \$600.00 or above in monetary rewards from the Georgia National Fair.

Show Time: 8:00 AM on Sunday, October 11th in the Foster Rhodes Arena

Show Rules

1. Exhibitors participating in the Junior Commercial Dairy Heifer Show are required to comply with the GNF General Rules & Regulations stated on pages 17-24.
2. **Age:** This event is dedicated to showcasing commercial dairy heifers and it is required that all commercial dairy heifers must be born between March 1, 2025, and August 1, 2026. The Show Committee holds the authority to determine the age of the heifers by mouth examination.
3. **Weight:** Commercial Dairy Heifers must weigh between 250 lbs. and 1,250 lbs. Any commercial dairy heifer that weighs less than 250 lbs. or over 1,250 lbs. will be disqualified.
4. **Eligibility:** Only exhibitors from the State of Georgia are qualified to participate in this show. Registration is available to all students in grades 4 – 12 who are members of Georgia 4-H and FFA.
5. **Animal Eligibility:** Commercial Dairy Heifers may be of mixed or purebred dairy breed that are not registered at the time of entry. Commercial Dairy Heifers that are entering into the Georgia National Fair Junior Commercial Dairy Heifer Show are not eligible to show in the Junior/Open Dairy Show the same year. Do not enter into both shows because violation of this rule will result in loss of premiums and/or awards.
6. **Ownership:** The ownership of the Dairy Heifer(s) should be completely transferred to the exhibitor by no later than Sunday, August 1st, 2026. It is imperative that the exhibitor maintains full ownership and possession of the animal(s) and diligently tends to their daily care starting from August 1st, 2026, until the day of the Georgia National Fair.
7. **Substitute Showmen:** The animal(s) presented at the Georgia National Fair must be shown by the exhibitor who originally entered them. However, if an exhibitor has more than one animal in a breed and/or weight class (excluding showmanship), they may have a Substitute Showman. This substitute Showman must be a current member of either 4-H or FFA and must be approved by the Show Superintendent. If an exhibitor is unable to personally show their animal due to a disability, they may assign a substitute Showman (who is also a current member of either 4-H or FFA) to showcase their animal. However, the Show Superintendents must approve this substitution. It is important to note that the exhibitor with the disability must be physically present at the showing when the substitute Showman and animal enter. In the event that the

exhibitor is unable to be physically present, it is required for them to observe the event remotely through an online platform.

- 8. Health Certificates:** Animals participating in this event must comply with the Health Certificates specified in the Health Requirements and Farm Animal Livestock Requirements mentioned on pages 25-28 of this Premium Book. These certificates are obligatory for all animals. Adhering to this requirement is extremely crucial as it ensures the well-being of all animals. Failure to produce the health paper will result in heifers being denied access and requested to be removed from the premises.
- 9. Identification:** All Jr. Commercial Dairy Heifers must have an official State of Georgia ear tag with only one (1) official tag per heifer. Tattoos are required on all solid color dairy heifers regardless of breed, but it is recommended that all dairy heifers have a tattoo. The animals' tattoo and ear tag number does not need to correspond, but the tattoo/ear tag number in the animal's ear should exactly match the tattoo/ear tag number indicated on the entry form during the animal's weighing process.
 - a. Photograph:** All Junior Commercial Dairy Heifer entries must submit a photograph that clearly shows the animal from the side, and the Stage of Georgia ear tag must be readable in the picture.
 - b. Tag Covering: All breeder/ promotional tags will have to be covered by black tape. Any method used to cover identification tags must not alter the natural appearance or structure of the ear, or cause discomfort to the animal. Failure to comply with this rule will result in disqualification from the class.**
- 10. Entries:** The entry fee for participation in the exhibition is set at \$20.00 per entry. Each exhibitor is eligible to enter an unlimited number of commercial dairy heifers but will only be able to bring/show a maximum of four (4) commercial dairy heifers.
- 11. Online Entries:** [Livestock Competitions \(georgianationalfair.com\)](http://georgianationalfair.com)
- 12. Entry Deadline:** The deadline to submit entries for the 37th Annual Georgia National Fair is *Saturday, August 1st, 2026, at 11:59 PM*. The deadline to submit LATE entries is *Friday, August 7th, 2026, at 12:00pm*. The late entry fee is an additional \$100 PER ENTRY. We kindly inform you that the late entry deadline will not be extended. To participate in the livestock exhibition, all entries must be completed online and accompanied by a payment made through a credit/debit card.

**Note: Please be aware that the GNFA Livestock Department operates from Monday to Friday, starting at 7:00 AM and concluding at 4:00 PM. The office is closed on both Saturdays and Sundays. If the entry deadline coincides with a weekend or a holiday, our office personnel will not be available to provide any assistance.*
- 13. Refunds:** There will be no refunds.
- 14. Stalling/Bedding:** To maintain a uniform arrangement, every county is required to collectively stall 4-H/FFA participants in their designated area. The responsibility of stalling dairy heifers lies with the show barn manager who may exercise their judgment in making any necessary

modifications. Wood shavings will be provided for bedding upon arrival. Absolutely no straw, sand or other materials will be allowed for bedding in the barns.

- 15. Nightly Barn Occupants:** The Georgia State 4-H/FFA rules do not allow junior livestock exhibitors and/or their advisors/teachers to stay in the barn overnight. The Georgia National Fair rules only allow an overnight stay in the barn to tend to lactating animals and commercial dairy heifers do not fall into the category of lactating animals.
- 16. Tack Areas:** Tack areas will be assigned on availability based upon the number of dairy heifers that “actually check-in”.
- 17. Fans:** All fans that will be used for the cooling of livestock must be attached to the tie panel in the animal stalling/bedding area and cannot be attached by any extension greater than 42” from the tie panel. Fans that are on a fan stand in the alley “Butt Fans” will not be permitted.
- 18. Neck Ropes:** It is required for participants to bring their own neck ropes, which should be used for securing both attended and unattended dairy heifers.
- 19. Tie-Outs:** Cattle can be tethered in the designated tie-out area every evening after 8:00 PM. The tie-out space is available on a "first come, first serve" basis. Please note that tie-out areas are exclusively designated for cattle. Exhibitors are allowed to use any type of natural bedding they prefer within the specified tie-out area. However, it is important to note that no equipment like fans, generators, tents, etc., is permitted in the tie-out area. While exhibitors can set up pens in the tie-out area, electric fences are strictly prohibited. Panels can be set up as pens in the tie-outs, with a maximum limit of 12'x12' pen space. It is the exhibitors' responsibility to ensure that both the pens and animals are securely positioned. If any rules are violated, the GNF Show Management will monitor and remove panels accordingly. Additionally, it is allowed to use vehicles solely for the purpose of delivering bedding and feed. However, please ensure that the vehicles are not left unattended and refrain from parking them in the tie-out area.
- 20. Horns:** To ensure compliance with show requirements, it is mandatory to dehorn all commercial dairy heifers. In the event of any regrowth of horns, prompt action must be taken to rasp them down to one inch (1”) in length, so they appear presentable during the show. If a commercial dairy heifer is not dehorned it will be disqualified.
- 21. Control:** All dairy heifers must possess the ability to be consistently handled and controlled while wearing a halter. Nose tongs are prohibited when exhibiting heifers. Should any heifer display disruptive behavior, the judge or show superintendent(s) reserve the right to remove the animal from the showing. It is important to note that this decision is final, and no appeals will be entertained.
- 22. Force Filling of Commercial Dairy Heifers:** The act of forcibly filling dairy heifers with any substance, be it water or otherwise, is strictly forbidden. This prohibition extends to the use of pumps, tubes, hoses, and similar equipment. However, the use of drenches is permitted, provided they are used to aid the animal, such as electrolytes, calming agents, and bloat guards. When administering drenches, the applicators must not exceed a capacity of 150 cc/ml. It is essential that all commercial dairy heifers exhibit their natural confirmation and structure without any artificial modifications, with the exception of grooming, hair treatment, and hoof trimming. Any

attempts to alter the heifer's natural composition or appearance in an unnatural manner will lead to disqualification and the forfeiture of any premiums and/or prizes.

- 23. Classes:** The Georgia National Fair Commercial Dairy Heifer Show is structured so that the heifers will be separated into classes by weight. There will be no reweighs once the heifer leaves the scale area.
- 24. Championship:** The first (1st) and second (2nd) place heifer from each class will compete for the Grand and Reserve Champion of their respective weight division. All division Grand Champions and Reserve Grand Champions will compete in the Overall Championship Drive.
- 25. Scholarship:** The Grand Champion Commercial Dairy Heifer will receive a \$375 scholarship sponsored by AgGeorgia Farm Credit.  **AGGEORGIA FARM CREDIT**
- 26. Premiums:** Exhibitors participating in the Georgia National Fair must furnish their Social Security Number upon Fair entry to ensure prompt processing of awards without any potential loss. This requirement is solely aimed at preventing any delays or forfeiture of premiums granted. Social Security Numbers are used exclusively for the purpose of generating an IRS-1099 form for exhibitors earning \$600.00 or above in monetary rewards from the Georgia National Fair.

6. **Substitute Showmen:** The animal(s) presented at the Georgia National Fair must be shown by the exhibitor who originally entered them. However, if an exhibitor has more than one animal in a breed and/or weight class (excluding showmanship), they may have a Substitute Showman. This substitute Showman must be a current member of either 4-H or FFA and must be approved by the Show Superintendent. If an exhibitor is unable to personally show their animal due to a disability, they may assign a substitute Showman (who is also a current member of either 4-H or FFA) to showcase their animal. However, the Show Superintendents must approve this substitution. It is important to note that the exhibitor with the disability must be physically present at the showing when the substitute Showman and animal enter. In the event that the

Show Rules

1. Exhibitors participating in the Junior Dairy Heifer Show are required to comply with the GNF General Rules & Regulations on pages 17-24.
2. The Junior and Open Dairy Show will be judged at the same time. If applicable, make sure that you enter into both Junior and Open Dairy Show classes because it will not be allowed at check-in.
3. **Age:** This event is dedicated to showcasing registered dairy heifers and it is required that all dairy heifers must be born before May 31, 2026. The Show Committee holds the authority to determine the age of the females by mouth examination.
4. **Eligibility:** Exhibitors may participate after they reach nine years of age. All owners (exhibitors) must be in good standing with a National/State Dairy Breed Association.
5. **Animal Eligibility:** Dairy females that are entering into the Georgia National Fair Junior/Open Dairy Heifer Show are not eligible to show in the Junior Commercial Dairy Heifer Show the same year. Do not enter into both shows because violation of this rule will result in loss of premiums and/or awards.
6. **PDCA:** All regulations set forth by the Purebred Dairy Cattle Association will apply.
7. **Ownership:** The ownership of the Dairy female(s) should be completely transferred to the exhibitor by no later than Saturday, August 1st, 2026. It is imperative that the exhibitor maintains full ownership and possession of the animal(s), and diligently tends to their daily care starting from August 1st, 2026, until the day of the Georgia National Fair. Leased or project animals that are owned by another party may be shown provided they meet the requirements of their respective National and State Dairy Breed Association. A copy of the lease agreement or affidavit indicating animal project responsibility must be present at check-in.
8. **Substitute Showmen:** The animal(s) presented at the Georgia National Fair must be shown by the exhibitor who originally entered them. However, if an exhibitor has more than one animal in a breed and/or weight class (excluding showmanship), they may have a Substitute Showman. This substitute Showman must be approved by the Show Superintendent. If an exhibitor is unable to personally show their animal due to a disability, they may assign a substitute Showman to showcase their animal. However, the Show Superintendents must approve this substitution. It

is important to note that the exhibitor with the disability must be physically present at the showing when the substitute Showman and animal enter. In the event that the exhibitor is unable to be physically present, it is required for them to observe the event remotely through an online platform.

- 9. Health Certificates:** Animals participating in this event must comply with the Health Certificates specified in the Health Requirements and Farm Animal Livestock Requirements mentioned on pages 25-28 of this Premium Book. These certificates are obligatory for all animals. Adhering to this requirement is extremely crucial as it ensures the well-being of all animals. Failure to produce the health paper will result in heifers being denied access and requested to be removed from the premises.
- 10. Identification:** All open dairy animals must have an RFID tag or tattoo.
 - a. Tag covering: All breeder identification tags must be covered by black tape. Any method used to cover identification tags must not alter the natural appearance or structure of the ear or cause discomfort to the animal. All tags must remain properly affixed to the animal. Failure to comply with this rule will result in disqualification from the class.**
- 11. Entries:** The entry fee for participation in the exhibition is set at \$20.00 per entry. Each exhibitor is eligible to enter a maximum of two (2) dairy females per class. Only one (1) entry per exhibitor is allowed for the following classes: *Best Three Junior Female, Best Three Senior Female, and Breeders Herd of Five.*
- 12. Online Entries:** [Livestock Competitions \(georgianationalfair.com\)](http://georgianationalfair.com)
- 13. Signatures:** The online entry process includes a section where the exhibitor must agree to the rules and regulations. This agreement is signified by selecting the check box, which will act as the exhibitor's signature.
 - 14. Entry Deadline:** The deadline to submit entries for the 37th Annual Georgia National Fair is *Saturday, August 1st, 2026, at 11:59 PM.* The deadline to submit LATE entries is *Friday, August 7th, 2026, at 12:00pm.* The late entry fee is an additional \$100 PER ENTRY. We kindly inform you that the late entry deadline will not be extended. To participate in the livestock exhibition, all entries must be completed online and accompanied by a payment made through a credit/debit card.

**Note: Please be aware that the GNFA Livestock Department operates from Monday to Friday, starting at 7:00 AM and concluding at 4:00 PM. The office is closed on both Saturdays and Sundays. If the entry deadline coincides with a weekend or a holiday, our office personnel will not be available to provide any assistance.*
- 15. Refunds:** There will be no refunds.
- 16. Stalling/Bedding:** The responsibility of stalling dairy animals lies with the show barn manager who may exercise their judgment in making any necessary modifications. Wood shavings will be provided for bedding upon arrival. Absolutely no straw, sand or other materials will be allowed for bedding in the barns.

- 17. Tack Areas:** Tack areas will be assigned on availability based upon the number of dairy females that “actually check-in”.
- 18. Fans:** All fans that will be used for the cooling of livestock must be attached to the tie panel in the animal stalling/bedding area and cannot be attached by any extension greater than 42” from the tie panel. Fans that are on a fan stand in the alley “Butt Fans” will not be permitted.
- 19. Neck Ropes:** It is required for participants to bring their own neck ropes, which should be used for securing both attended and unattended dairy heifers.
- 20. Tie-Outs:** Cattle can be tethered in the designated tie-out area every evening after 8:00 PM. The tie-out space is available on a "first come, first serve" basis. Please note that tie-out areas are exclusively designated for cattle. Exhibitors are allowed to use any type of natural bedding they prefer within the specified tie-out area. However, it is important to note that no equipment like fans, generators, tents, etc., is permitted in the tie-out area. While exhibitors can set up pens in the tie-out area, electric fences are strictly prohibited. Panels can be set up as pens in the tie-outs, with a maximum limit of 12'x12' pen space. It is the exhibitors' responsibility to ensure that both the pens and animals are securely positioned. If any rules are violated, the GNF Show Management will monitor and remove panels accordingly. Additionally, it is allowed to use vehicles solely for the purpose of delivering bedding and feed. However, please ensure that the vehicles are not left unattended and refrain from parking them in the tie-out area.
- 21. Milking Parlor:** The Milking Parlor hours will be posted on the parlor when Jr./Open Dairy check-in begins.
- 22. Control:** All dairy females must possess the ability to be consistently handled and controlled while wearing a halter. Nose tongs are prohibited when exhibiting. Should any heifer or cow display disruptive behavior, the judge or show superintendent(s) reserve the right to remove the animal from the showing. It is important to note that this decision is final, and no appeals will be entertained.
- 23. Force Filling of Dairy Cattle:** The act of forcibly filling dairy cattle with any substance, be it water or otherwise, is strictly forbidden. This prohibition extends to the use of pumps, tubes, hoses, and similar equipment. However, the use of drenches is permitted, provided they are used to aid the animal, such as electrolytes, calming agents, and bloat guards. When administering drenches, the applicators must not exceed a capacity of 150 cc/ml. It is essential that all commercial dairy heifers exhibit their natural confirmation and structure without any artificial modifications, with the exception of grooming, hair treatment, and hoof trimming. Any attempts to alter the heifer’s natural composition or appearance in an unnatural manner will lead to disqualification and the forfeiture of any premiums and/or prizes.
- 24. Registration Certificates:** All registered dairy animals that enter to show in a breed division will be required to present their original registration certificate or a digital copy at the time of check-in. Also, they must be certified by the respective breed association to be 87% or higher purebred to be eligible for entry. Registration certificates must be solely in the exhibitor’s name.

- 25. Breed Divisions:** Breed divisions will be held for those breeds listed that have seven (7) entries actually checked in. Breed divisions will be **Brown Swiss, Guernsey, Holstein, Jersey, Ayrshire.**
