2024 California Fair Season

Welcome to the 2024 California fair season!

California fairgrounds continue to play a vital role in our state. As we enter a new year, and prepare for the new fair season, there is so much to be excited about. As a California fair exhibitor, you have a key part to play in teaching the public about the history of agriculture and its importance for the Golden State. Whether you are a new or a seasoned exhibitor, this is a unique opportunity to engage with members of your community, form a connection with California's farmers and ranchers, and attract future generations of agricultural leaders.

Annual fairs in California provide an invaluable family experience and proudly display our state's vast diversity of cultures and traditions, all while operating as economic engines and creating jobs within their communities. When fairgrounds are not hosting their annual fairs and other events, they serve their communities as resilience centers. During various floods, storms, and wildfires last year, fairgrounds across the state were activated by their local Office of Emergency Services to serve as evacuation centers for people, pets, and livestock.

Time and time again, fairgrounds demonstrate their importance to our state, and so much of this would not be possible without the good work of our dedicated fair exhibitors. Thank you for your advocacy and commitment to our state and the agricultural community. We look forward to another successful year in 2024!

Sincerely,

A handwritten signature in black ink, appearing to read "Gavin Newsom", with a long horizontal line extending to the right.

Gavin Newsom
Governor of California

December 20, 2023

Thank you all for your efforts in showcasing California's bountiful agriculture!

California is very fortunate to have some of the richest agricultural resources in the world and your exhibits play a vital role in presenting this to your communities and the public. Each fair has a unique, local agriculture flavor that brings people together to celebrate the tradition and innovation of our farmers and ranchers.

In addition to helping promote California's agriculture, the annual fair events also educate the general public on new technology that improves agriculture's effect on the environment, stewardship of water and natural resources, and practices that help preserve farmland for future generations.

When fairgrounds are not hosting the county fair, they are also used for quinceaneras, weddings, funerals, and many other community events. In times of need, fairgrounds are amongst the first to open their doors and be used as resiliency centers to serve their communities as cooling centers, evacuation shelters, first responders, food hubs, and workforce development. Fairgrounds are equipped with kitchens, sanitation facilities, and provide a safe space for sheltering people, pets, and livestock.

Your support of California fairgrounds and the annual fair is extremely important to the success of current and future generations and I look forward to hearing about the great success of the 2024 season.

Yours truly,

Karen Ross
Secretary

Form is due when the animal crosses the scale or in the livestock office immediately following.

Every exhibitor of a market animal at the Glenn County Fair Junior Livestock Program must complete this form prior to the sale of their animal through the Junior Livestock Auction.
