

Safety Rules/Range Procedures

DESIGNATED RANGE SAFETY OFFICER

The designated Range Safety Officer (RSO) is the first person to shoot at the range unless otherwise designated. The RSO is responsible for maintaining a safe shooting environment, designating the range “hot” or “cold” and requesting the assistance of Great Guns staff if there is a problem (970-897-2277). When the current range safety officer leaves the range, the next person who arrived at the range after them is now the RSO.

HOT/COLD RANGE

A “hot” range means shooting is allowed downrange. A “cold” range means no shooting is allowed, guns are empty, action open, locked back and resting on the bench. All shooters must remain behind the yellow line until the range is called hot. **DO NOT** touch your gun while people are downrange. Do not load magazines at the bench. Case and uncase your firearms only when the range is hot. If the person who made the range cold cannot be found, a Great Guns employee must approve shooting to commence/call range “hot.” Shooting is allowed during Great Guns hours of operation, when the range is declared “hot” and once all shooters understand the range rules.

CEASE FIRE

If a cease fire is called, stop shooting, set your gun down with muzzle downrange and step away from the bench and behind the yellow line. Do not approach the bench until the range is clear and declared “hot.”

SHOTGUN RANGES

On the 5-Stand, Skeet and Sporting Clays Ranges, two shells are allowed in your gun. On the Trap ranges, only one shell is allowed in your gun. Firearms are only to be loaded when standing in your “box” or at your station. Only shot between 7.5 and 9 is allowed. If a clay target machine is not throwing ideal targets or is malfunctioning, let a range employee know. **DO NOT** try to fix it yourself.

FIREARM SAFETY RULES

1. **ALWAYS** keep your gun pointed in a safe direction.
2. **ALWAYS** keep your finger off the trigger until ready to shoot.
3. **ALWAYS** keep your gun unloaded until ready to shoot.
4. Both eye and ear protection are **always REQUIRED** by persons at or near the range.
5. Know your target and what is beyond.
6. Be sure gun is safe to operate.
7. Know how to use the gun safely.
8. Use only correct ammunition for your gun.
9. Never use alcohol or drugs before or during shooting.
10. Be aware that certain guns and shooting activities require additional safety precautions.

PARKING

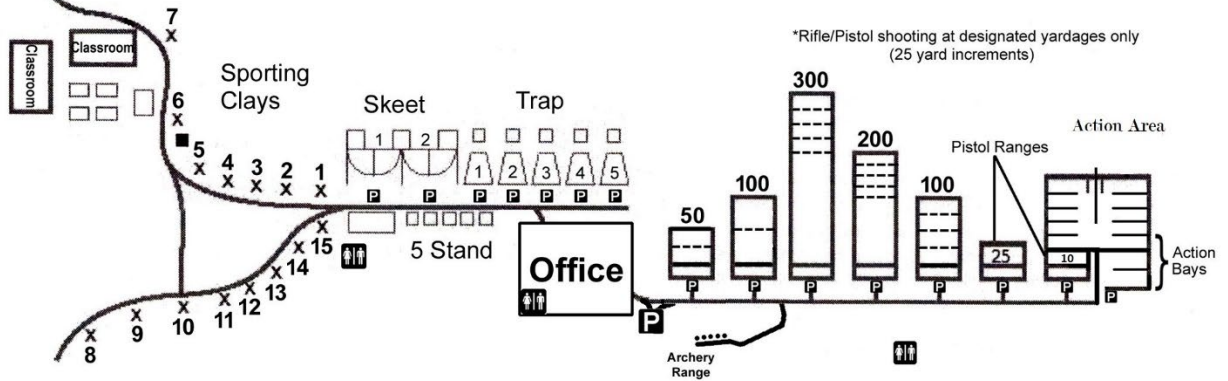

Park vehicles in front of the range you are using. If conditions are wet, parking downgrade is at your own risk.
