

The Hillsborough County Fair Harvest Queen program provides young women with opportunities to develop leadership, communication, professionalism, and community involvement while representing agriculture and our local fair industry throughout the year. Sponsorship support helps cover scholarships, educational opportunities, travel, appearances, program materials, and community outreach activities that allow participants to grow both personally and professionally. Contributions directly invest in the next generation of leaders while preserving the traditions and values of our agricultural community. With your support, the Harvest Royalty program can continue creating meaningful experiences that build confidence, service, and lifelong leadership skills.
