General Principles

1. By submitting an Indiana State Fair Entry Form or online entry, 4-H Exhibitors agree to all Terms & Conditions.
 - a. Exhibitors entered under one account are also responsible and held accountable to all Terms and Conditions.
2. The Indiana State Fair is fully committed to ensuring integrity in all 4-H Competitions. As such, there is No Tolerance for any violation of Terms & Conditions; intent is not relevant (i.e., strict liability) and any determined violations including testing results are final and binding. 4-H Exhibitors should expect that any animal exhibit may be tested at any time while on the Fairgrounds or at harvest.
3. The Indiana State Fair is fully committed to carrying out the Animal Wellness & Care Plan and ensuring the proper treatment of all animal exhibits. Therefore, sick animals shall not be exhibited because of the risk to the animal exhibit, other animal exhibits, the 4-H Exhibitor, other 4-H Exhibitors, other persons, and the integrity of 4-H Competitions. Based on Animal Wellness &

Care Plan, the Board or Show Management may prohibit an animal exhibit from showing at their sole discretion.

Care Of Animal Exhibits

4. 4-H Exhibitors are completely responsible for the care and custody of animal exhibits at the Indiana State Fair.
5. 4-H Exhibitors may receive clipping and grooming assistance from members of their immediate family (father, mother and siblings), from a current Indiana 4-H member, and from individuals enrolled in the Indiana 4-H Approved Animal Grooming Assistance Program. Temporary guardianships established for the intent of animal exhibition or grooming purposes are not permitted and shall result in immediate disqualification.
 - a. State Fair and 4-H officials reserve the right to request identification from any individual grooming any animal(s), ID refusal and violations to the policy may result in the disqualification of an animal entry.
 - b. To access the Indiana 4-H Approved Animal Grooming Assistance Program contact your local Purdue Extension Office.
6. Ownership of the animal exhibits passes from the 4-H Exhibitors or their families to the Indiana State Fair Commission when the Indiana State Fair Commission takes possession of the animal exhibits for harvesting.

Code of Ethics

7. In order to protect the integrity of the Indiana State Fair 4-H Competitions and the food supply, the Indiana State Fair reserves the right to disqualify any animal(s) they have reasonable cause to believe have been fitted in an unethical manner.
 - a. By submitting an Indiana State Fair Entry Form or online entry, 4-H Exhibitors represent that the exhibitors' animal(s) natural conformation and structure has not been altered in any way. This alternation is also known as "unethical fitting" and includes but is not limited to injection of air, gas, or other foreign substances, cutting/tearing of the hide or removal of tissue in an attempt to alter the physical appearance or shape of the animal, numbing an animal's tail, cutting tendons of an animal, using foreign substances to build or cosmetically re-shape feet.
 - b. Any animal found to have surgical alterations other than dehorning, castration, or docking as permitted by the species-specific rules may be disqualified. Unethical fitting also includes attempts to disrupt or change normal dental development. The act of artificially filling animals internally, which includes stomach pumping or any other method per os (by esophagus) is prohibited for all species.
 - c. No injection sites (including sites from acupuncture treatments) may be found in marketable areas such as top, rounds, loin, hips, etc.
 - d. The administration of any drug prohibited by Federal, State, or Local law or any drug used in a manner prohibited by Federal, State, or Local law is prohibited.
 - e. In such cases where unethical fitting appears to have been attempted, the Indiana State Fair may appoint a veterinarian to inspect the entry. The Indiana State Fair will follow a course of action based on the findings and conclusions of the examining veterinarian. Any 4-H Exhibitor that is disqualified for any rules or code of ethics violations will forfeit all premiums

Drug & Alterations Testing/Examination Principles

8. The Indiana State Fair 4-H Animal Testing Program protects the integrity of the Indiana State Fair, 4-H Competitions and the food supply. At no time shall animal exhibits have any substance present, alteration or tissue anomalies that:
 - a. Violates standards established by the United States Department of Agriculture (USDA).
 - b. Violates standards established by the Food and Drug Administration (FDA). Should testing results reveal non label compound use, consideration may be given if credible veterinary disclosure or testimony is provided, accompanied by credible documentation citing appropriate exercise of the Animal Medicinal Drug Use Clarification Act of 1994 (AMDUCA) within an existing Veterinarian Client Patient Relationship (VCPR) at the time of treatment is provided in a timely manner when requested by State Fair officials before, not after an Appeal Process as outlined in General Terms & Conditions 34-50 has been initiated and is recorded and present on the exhibit's Animal Affidavit.
 - c. Is determined by the Purdue University Meat Lab Manager or State or Federal Meat Inspectors to be unacceptable for human consumption either during or post-harvest.

- d. Provides any potential performance enhancing quality or any potential showing advantage including but not limited to tampering, altering, or misrepresenting any exhibit; coloring that alters or misrepresents breed characteristics; pumping air or other substances to alter conformation; methods to induce artificial fill; performing surgical and/or non-surgical procedures to alter the animal's configuration or natural conformation of any part of the animal's body; and unethical fitting. The following generally accepted management practices are allowed: hoof trimming, dehorning, removal of hair, castration, branding, tattooing, ear notching, and docking of tails.

Treatment of Acute Injury Policy for 4-H Animal Exhibits at the 2022 ISF.

9. In the event that an animal suffers an acute injury, it is permissible for the animal to be treated with FDA approved medications. An ISF veterinarian must administer all treatments. The determination of the time of injury and its impact on the animal is solely based on the evaluation and diagnosis of the attending ISF veterinarian. For market animals, all withdrawal times must be completed prior to the start of the show. Failure to meet this withdrawal time requirement shall disqualify an animal from exhibition. Non-market animals are exempt from withdrawal times being completed by the time of show with the exception of any breeding females which may be loaded on market trucks at the ISF.
10. The use by non-veterinarians (exhibitor or otherwise) of animal compounds or other substances in any manner other than in accord with the labeling approved by FDA is a violation of federal law and individuals found to be in violation may be disqualified and/or ejected from the event at the discretion of Show Management.

Animal Affidavit

11. Upon check-in at the State Fairgrounds, an animal affidavit (found at <https://www.indianastatefair.com/p/state-fair/competitions--contests/livestock-information>) shall be submitted for **all animal exhibits** (i.e., market and breeding) in the:
 - a. Beef Cattle Department,
 - b. Dairy Cattle Department,
 - c. Swine Department,
 - d. Sheep Department,

 - g. Meat Goat Department.
12. All medications, vaccinations, injections, medical treatments, and any foreign substances administered, in any form or manner, from the ownership deadline (May 15, 2022) through the day of check-in must be recorded.
13. Disclosing drugs and/or alterations on the animal affidavit does not affect the imposition of penalties should there be a violation of the Code of Ethics or drug testing /examination principles outlined above. Attaching accompanying veterinary documentation to support any Animal Affidavit claims is recommended.
14. A separate affidavit will be required for each event a 4-H Member enters. **(ie If an affidavit is submitted by the 4-H Member exhibiting barrows a new affidavit will be required if they are also exhibiting gilts.)**
15. Failure to complete the animal affidavit shall result in automatic disqualification and may result in additional imposed penalties as listed below in General Terms & Conditions 36-40.

Veterinary Treatment Of Animal Exhibits

16. Upon check-in at the State Fairgrounds, all 4-H Exhibitors irrevocably consent to emergency medical care that may be needed to preserve an animal's life or prevent extreme suffering. 4-H Exhibitors and any person affiliated with them hereby waive any claim related to emergency medical care and, to the fullest extent permitted by law, 4-H Exhibitors and any person affiliated with them hereby agree to indemnify, defend and hold harmless the Indiana State Fair Board, Indiana State Fair Commission, Purdue University, Indiana 4-H Program, Cooperative Extension, the State of Indiana, and respective agencies, affiliates, agents, officers, and employees from all claims and suits including court costs, attorney's fees, and other expenses related to emergency medical care. If the following conditions have been met, the Indiana State Fair is expressly authorized to perform any medical treatment, including but not limited to medical practices/procedures, administering of medications, surgery, and euthanasia, for an animal in the absence of the 4-H Exhibitor if:

- a. The 4-H Exhibitor is unreachable after due diligence has been made to contact the 4-H Exhibitor, and

17. Only the State Fair Veterinarians may administer drugs to animal exhibits at the Fairgrounds.
18. Within 2 hours of treatment, the State Fair Veterinarians shall report all performed treatments to the Department Superintendent on an Indiana State Fair-provided reporting form.

The exception to this policy will be unloading the animal for euthanizing and disposing of the animal. - a. The owner shall immediately notify the Superintendent in charge of that department.
 - b. The Department Superintendent shall immediately notify the State Fair Veterinarian and the Livestock Coordinator about the animal in question and circumstances evolving around how this condition happened.
 - c. Show Management and the owner (or representative) will consult each other to come to the best decision for the animal with the emphasis being for the well-being of the animal. Only the persons that are available need to be involved in the decision. If euthanasia is determined to be the best option, this will be at the owner's expense.
 - d. Livestock that becomes non-ambulatory after arriving at the Indiana State Fairgrounds must be disposed of or removed for treatment within 12 hours of discovering or receiving notice of the animal's condition. If the animal is treatable and Show Management agrees, the owner must remove that animal from the Fairgrounds (at the owner's expense) within the 12-hour period.

If necessary, fairgrounds staff will assist moving the carcass to a designated area/into the owner's vehicle.

- Fire extinguishers are located throughout every barn and building. They may be used for approved purposes only. Do not use a fire extinguisher if you are not trained on its proper use.

- During a severe weather situation, you will be asked to remain inside, away from windows and doors whenever possible. Staff may be instructed to close all doors and windows, including overhead doors.
- Larger barns and buildings will be used for shelter-in-place (points of refuge) to allow Fairgoers to seek shelter. This may cause an influx of people into livestock areas and result in the postponement of a show or exhibition. Exhibitors should be mindful of this, keep aisles and walkways clear, and tend to their animals accordingly.

Food Preparation/Cooking Policies & Procedures

- Cooking inside and adjacent to barns and buildings is not advised. The Indiana State Fair Biosecurity plan recommends that food be excluded from animal areas. If cooking and/or food preparation is necessary, the following policies and procedures must be followed:

Animal Wellness & Care

The Animal Wellness & Care Plan (AWAC) was established to reinforce the Indiana State Fair's commitment and belief in the proper treatment of all animals in exhibition. The Indiana State Fair holds exhibitors of the various species of animals being exhibited to the highest standards in wellness, care and ethics of exhibition. The AWAC is responsible for ensuring the most up to date standards as well as to be a source for the public to seek answers to their questions relating to the health and safety of the animals involved in the Indiana State Fair. Failure or refusal by an exhibitor or fairgoer to comply with the Animal Wellness & Care Plan can result in penalties up to and including but not limited to removal and a ban from the Fairgrounds for the duration of the event.

Biosecurity

The Indiana State Fair Biosecurity Plan was developed to prevent the outbreak of diseases carried by both animals and humans that spread pathogens that can be transmitted to and from farm animals, as well as through the food supply. Many diseases and pathogens can be prevented through maintaining the cleanliness of facilities and encouraging good hygiene. The Biosecurity Plan will be enforced during the Indiana State Fair and all exhibitors are expected to carryout and preform basic biosecurity and hygienic task including:

- Hand Washing/sanitizing following exposure to animals and always before consuming food or drinks
- Excluding human food and food preparation from animal areas
- Maintaining general cleanliness of animals and animal areas
- Properly disposing of animal waste/soiled bedding in properly identified/designated areas
- Cleaning-up after your animal if it soils/has a biological event in a building/Fair common space
- Reporting the appearance or evidence of animal/human sickness or distress to Fair officials

Failure or refusal to comply with the above can result in penalties up to and including but not limited to removal and a ban from the Fairgrounds for the duration of the event.

The Indiana State Fair is committed to providing opportunities for all 4-H participants to show their animals as part of the State Fair. The State Fair also wants to ensure the integrity of its 4-H competitions as is evidenced by the various terms and conditions set forth in this Entry Book, including its policy with respect to testing for unauthorized substances in certain animals that are entered into these competitions and the penalties associated with positive results. By entering into these competitions, you agree to these terms and conditions and as such, we strongly recommend that you read this information carefully prior to submitting your entry.

INDIANA 4-H PROGRAM PHILOSOPHY AND EXPECTATIONS

The Indiana 4-H Youth Development program serves the youth of Indiana by providing a strong educational youth development program. This program delivers educational experiences in a variety of settings. Caring, capable and contributing adults assist in the 4-H program as role models for youth. The rich heritage of the 4-H Program is one to be valued and passed along to future generations. The Indiana 4-H Youth Policies and Procedures Handbook includes certain standards and guidelines to assure that 4-H is a positive youth development program. County 4-H policy is guided by the county 4-H policy making or governing board (i.e., 4-H Council) as provided by the County Extension Board. Legal authority for the 4-H Program rests with the Director of the Cooperative Extension Service at Purdue University. No county 4-H policy may conflict with state 4-H policy or with federal guidelines and requirements. Deadlines for county and state participation should be carefully constructed so as to encourage rather than to discourage participation. Such deadlines should be well published. Members not complying with established and published dates and deadlines for exhibition may be denied the opportunity to exhibit. It is the policy of 4-H to be an inclusive organization. No county policy or practice should be used to arbitrarily exclude youth from either membership or participation. Youth should participate in 4-H Youth Development opportunities at levels and times that best suit the youth's development.

Per state and federal guidelines, volunteers and Extension Educators may not require youth to attend 4-H club meetings in order to complete 4-H or exhibit their work.

4-H MEMBERSHIP:

Youth may become 4-H members when they enter the third grade and may continue their membership through the completion of grade 12. Each individual may continue membership for a maximum of ten (10) consecutive years. An individual's 4-H grade is determined by the school grade in which he or she is classified at the time of year he or she enrolls in 4-H. A member does not advance in 4-H grade until he or she enrolls in 4-H for the subsequent year. Each member should enroll in the division of a project/subject that would best suit his/her interest and potential for personal growth and would enhance their family involvement. Opportunities in the 4-H program are available to all Indiana youth as defined regardless of race, religion, color, sex, age, national origin or ancestry, marital status, parental status, sexual orientation or disability. Married young men and women of 4-H age may participate in any of the 4-H projects and activities. However, married persons must participate by the same terms and conditions and/or guidelines as unmarried participants. Membership in 4-H is gained by annually enrolling through a Purdue University Cooperative Extension Service Office located in each of Indiana's 92 counties. The Indiana 4-H Youth Development program year is October 1 to September 30 annually. Enrollment is an annual process attained by completing individual 4-H enrollment via the 4-H Online enrollment process. Statewide 4-H Online enrollment occurs annually October 1 through January 15.

COMPLETION:

The completion of a 4-H experience may include a variety of options and must not be misinterpreted solely as exhibition of a project at a local, county, or state fair. There are a number of ways that a young person may participate in the 4-H Youth Development Program in addition to the club-based option. Participating in these 4-H opportunities enable the youth to build skills that will serve them well throughout their adult lives. Some of these participation options do not include the preparation of a specific exhibit by an individual that would be on display at a fair or similar event. In some cases, the youths' actual participation may be the final product that results in their completion of a year of 4-H. Some examples of this participation include working as a team to develop a robot for a workshop or challenge; completing a Spark Club experience; participating in State 4-H Band or Chorus; taking part in a science training or experiment; participating in an after school 4-H experience; etc. 4-H members are considered complete in their 4-H educational experience for the year when they have (1) completed the 4-H member enrollment process prior to the established and published date for enrolling; and (2) had an officially recognized 4-H volunteer/Extension Educator verify the existence of the completed project/subject or the member's participation in a 4-H educational experience. Additionally, 4-H members who participate in a club- or fair-based 4-H project/subject will submit a completed 4-H record sheet based on printed or web-based educational materials (used by Indiana 4-H Youth Development) prior to the established and published date. Though exhibiting in local, county, and state exhibits/fairs is not required for project completion, as it does not necessarily relate directly to content and skills learned in the development of the 4-H project, project exhibition is encouraged as a

continuation of the educational experience. Extension employees and volunteers are obligated to eliminate (and should not create) any practices that limit, deprive, or tend to deprive any youth of opportunities for membership and/or participation in the Indiana 4-H program.

EXHIBITION AT THE INDIANA STATE FAIR:

Exhibition of 4-H projects in local, county or state exhibits/fairs is considered a privilege and is voluntary on the part of the exhibitor. The exhibition of 4-H projects provides 4-H members an opportunity to display their 4-H projects, enter into competition and participate in an educational/social environment with their peers. With exhibition also comes the responsibility for abiding by all of the terms and conditions pertaining to the respective 4-H project. Not following the established terms and conditions of the projects will be grounds for exclusion from the competition/exhibition or the project itself.

1. If DNA is not submitted by May 15th to the County Extension Office that animal is not eligible to show at the Indiana State Fair.(Required for: BEEF,DAIRY BEEF, DAIRY FEMALES, SWINE, SHEEP AND MEAT GOATS)
2. An exhibit may not be entered in more than one State Fair 4-H class except in some animal classes where designated. In a State Fair class requiring more than one item, all items must be exhibited by the same 4-H member. All parts of an exhibit made in one class must belong to one 4-H member.
3. All 4-H exhibits at the State Fair must be prepared during the current 4-H year. Eligibility rests solely with the State 4-H Youth Program Leader or their designee on entries in all 4-H classes.
4. Any 4-H exhibit removed from display prior to the official release will be disqualified. Any 4-H placings/prizes (including ribbons, money, medals, trophies, etc.) awarded that exhibit will be forfeited.
5. 4-H exhibitors having an entry in animal classes at State Fair are expected to show their own animals. In cases where this cannot be done, the owner may request another Indiana 4-H member to serve as a substitute showman. Substitute showmen must be approved in writing by the 4-H show manager, 24 hours prior to showing of the animal(s) needing a substitute showman. Requests will only be granted for medical emergencies, conflicts with showing other animals, or circumstances deemed unavoidable by the 4-H show manager. Failure to be excused from a job and/or participation in a non 4-H-related creative arts or sporting event or practice will not result in a substitute showman being granted.

4-H ANIMAL OWNERSHIP, POSSESSION AND EXHIBITION:

Each 4-H member shall own his/her own 4-H exhibit. Ownership must be in effect on or before the county and state ID deadlines and continuously until after the 4-H show at the County and/or State Fair.

7. 4-H animals exhibited after the May 15 State 4-H animal ID deadline (May 16 in 2022 since the 15th falls on a weekend) at any show by anyone other than the individual whose 4-H enrollment record is connected to the ID of the animal in Indiana 4-H Online will not be eligible to be shown in the 4-H show at the Indiana State Fair. This term/condition does not apply to siblings, who may show each other's animals at any show

- during the year without jeopardizing State Fair eligibility. 4-H animals that are selected by 4-H Extension Staff or 4-H Adult Volunteers for use in supreme showmanship contests (Master Showmanship, Round Robin, etc.) may be used in those county events without jeopardizing State Fair eligibility. This policy applies to all 4-H animal projects.  13. **Breed Verification Screening Options-** All beef breeds (including dairy beef) may use one of the following four screening methods to ensure that steers meet the breed specifications listed in the 4-H Entry Book:
 1. Screen the steers utilizing a three-person breed classification committee (using classifiers appointed by the breed association and/or color) and require a registration certificate and a legible tattoo that is identical to the tattoo listed on the animal's registration paper. The Charolais, Charolais Composite Heifers, Hereford and Red Angus breeds will use this method.
 2. Screen the steers utilizing a three-person breed classification committee (using classifiers appointed by the breed association) and not require a registration certificate. The breed using this method is: Dairy beef. Dairy Steers/Feeder Steers sifted by screening committee will be eligible to show in a class by themselves but not eligible to receive premiums or show for champion.
 3. Require a registration certificate (that meets the breed's requirement for breed purity) for each steer and a legible tattoo identical to the tattoo listed on the animal's registration paper. Under this option, the departmental screening committee described previously would not screen steers for visual markings. The breeds using this method are: Chianina, Chi-Angus, Mini-Hereford, Red Poll, Shorthorn, and Simmental.
 4. Require a registration certificate (that meets the breed's requirement for breed purity) for each steer and a legible tattoo identical to the tattoo listed on the animal's registration paper. Additional screening of steers for breed purity or paternity requirements (i.e. must be sired by a registered Limousin bull) would be accomplished using a form of biological testing (i.e. blood testing or DNA fingerprinting using blood or hair samples). Under this option, the screening committee described previously would not screen steers for visual markings. Under this option, the cattle barn Superintendent would disqualify a steer upon receiving notice that the animal in question had failed to blood type to the requirements of the breed association involved. The breeds using this method are: Angus, Gelbvieh, Limousin, Maine-Anjou, Santa Gertrudis and Shorthorn, and Belted Galloway.

2022 Award Donors

Any monetary or non-monetary awards bestowed by outside associations, persons, industries, etc. are not paid or given through the Indiana State Fair.

The Indiana Angus Association will provide additional awards to the Champion 4-H Angus Steer, \$1000 and the Res. Champion 4-H Angus Steer \$500.

Eligibility Requirements:

- 1) Must abide by all ISF Rules
- 2) Must abide by all American Angus Assoc. rules
- 3) Must be able to pass Purebred Angus Parentage DNA test.

The American Angus Association, 3201 Frederick Ave., St. Joseph, MO, will participate in premiums offered in individual classes for the junior Angus heifers, as included in its standard show classification according to the premium schedule based on the number of head shown. The premium assistance provided by the American Angus Association for participation in this show is in addition to the premiums offered by the show itself. The Association contributions will be distributed by the Indiana Angus Association.

A minimum of fifteen (15) head must be shown in the junior Angus heifer classes to receive American Angus Association premium participation. The show is not required to have all classes to be eligible for premiums.

To be eligible for Association premiums, the entries must be recorded in the sole name of the junior exhibitor and the issue date on the registration certificate must conform to the individual show's requirements regarding ownership.

Premiums from the Association are paid only to registered Angus cattle and only if the registration number is a part of the show report provided to the Association. Therefore, all cattle should be registered at the time of entry to make certain they receive the Association's portion of premiums. The Association does not pay on premiums offered in championship classes. An animal may only be counted one time toward the total count for premium participation by the Association.

Exhibitors must have the original registration certificate issued by the American Angus Association available for inspection at the show for each animal or another current proof of ownership issued by the American Angus Association pedigree look up. Any animal upon check-in which does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks or hot-branded marks) corresponding to the permanent identification mark on the registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-identified (tattooed/branded) and re-checked at the show.

Only one person at a time shall lead animals into the show ring.

Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association Rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2: Association Rules; Rule 800 Series; including Rule 800 - 810. These rules can be found at www.angus.org.

Altering the conformation and/or appearance of an animal for exhibition is prohibited. This includes the covering of white skin, false tail heads (or use of any false hair), with the exception of false tail switches. The use of graphite, powders, hemp or other similar substances used externally are also prohibited. Other prohibited products include those used internally such as steroids, illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.

At any show for which the American Angus Association appropriates funds toward the payment of premiums, no exhibitors, individuals assisting exhibitors or member owners at such show shall be allowed to use any coloring agents, on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a "white towel" or "white glove" test. No aerosol cans or other pressurized containers will be allowed in designated make- up/line-up areas.

All animals exhibited are subject to DNA marker or blood type test to verify accuracy of parentage as covered under the Association Rules and for other testing as required by the individual show.

Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association Rules, including the barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.
