2. To maintain a high degree of confidence and integrity in the livestock shows, the Jefferson County Fair Park Committee reserves the right to disqualify any animal fitted in an unethical manner and/or disqualify the exhibitor. Unethical fitting shall include any injection of gas, solid or liquid to alter normal conformation. In addition, it shall include any cutting or tearing of the hide, cutting or tearing underneath the hide or removal of tissue in any attempt to alter the shape or appearance. It shall also include attempts to disrupt or change normal dental development, dyeing or coloring hair, adding artificial tailheads, switches, polls, hair and heels, as well as any attempt to change the conformation and degree of firmness by administration of fluids internally or externally in a liquid or solid state. The use of any medication not prescribed under a veterinarian's direction is prohibited.
3. All exhibitors, their immediate family and any other parties involved in the unethical fitting and showing of an animal will be subject to forfeiture of award(s) and premium(s), and/or dismissal from the Fair Park; and/or being barred from competition immediately in the department in which the violation has occurred and/or from all departments entered; and/or in future competition at the Jefferson County Fair.

## International Association of Fairs & Expositions (IAFE)

### National Code of Show Ring Ethics (Jefferson County Fair is a member of the IAFE)

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to Junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating there to is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs and livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood or other substances from the animal to be used in testing. Animals not entered in any event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state, and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other samples taken from live-stock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collections and preservation, transfer to the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.
5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.

7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show against such individuals published in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering of an animal in a fair or livestock show is giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions provided by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

## 2022 Animal Health Regulations for Wisconsin Fairs and Exhibitions

This is a summary of animal health requirements for fairs, shows and exhibitions only. They are not necessarily the same as requirements for importing animals into Wisconsin or moving them within the state for other purposes. They may change if animal diseases occur in Wisconsin or elsewhere, so you should always check our website or contact us for current information. Ref. s. ATCP 10.87, Wis. Admin. Code

General Requirements for show organizers	<p>All fairs or exhibitions of any length must obtain, review, and keep for five years all re-quired records and test results:</p> <ul style="list-style-type: none"> <li>· Exhibitor's name and address</li> <li>· Animal identification (number, type, description, and when required, official identification (see requirements for different animals))</li> <li>· Documents showing compliance with disease testing and other health requirements</li> <li>· Livestock premises number, if any, where animals originated</li> <li>· Documentation showing legal importation to the event (if applicable) and, when re-quired, movement to the event (see requirements for different animals below)</li> <li>· For swine, a record of any swine transported directly to a slaughtering establishment</li> <li>· For swine, a record of any swine transported to an animal market where all animals sold at the market sale for that day were shipped directly to a slaughtering establishment</li> </ul> <p>Fairs or exhibitions lasting more than 24 hours must appoint a licensed veterinarian to inspect all animals daily.</p> <p>Please note: Except in specific circumstances, if an animal already bears an official 840 eartag, that eartag must not be removed and additional official eartags must not be applied. Instead the existing eartag must be read and recorded when a record of that animal is required. (Ref. s. ATCP 10.045, Wis. Admin. Code)</p> <p>These regulations apply to all fairs and exhibitions, including additional events (like rodeos, shows, or other organized events) that occur in conjunction with the fair.</p>
Diseases	<p>Animals that show evidence of having contagious or infectious diseases may not be commingled (or housed/kept) with other animals at a fair, show, or other exhibition in such a way as to allow disease to spread. Such animals should not attend the fair, show, or exhibition. Animals may be denied entry if they arrive at these events with contagious or infectious diseases, isolated and/or removed if they develop disease after arriving, or be subject to other action as would be necessary to control disease.</p> <p>Bovine animals with ringworm, mange, warts or scab will be removed from the fair or exhibition premises, unless the veterinarian in charge finds warts or ringworm lesions are incapable of transmitting disease.</p>
Cattle and bison	<p>Cattle from within Wisconsin have no requirements for tests or health documents. Cattle from outside Wisconsin must:</p> <ul style="list-style-type: none"> <li>· Be accompanied by certificate of veterinary inspection (CVI or health certificate) documenting official animal identification (ID) and all required tests and certifications</li> <li>· Have at least one form of official individual ID (including steers)</li> <li>· Meet all of Wisconsin's normal requirements for import</li> </ul> <p><a href="https://datcp.wi.gov/Pages/Programs_Services/CattleBison.aspx">https://datcp.wi.gov/Pages/Programs_Services/CattleBison.aspx</a></p> <p>Acceptable animal IDs for all cattle from outside Wisconsin</p> <ul style="list-style-type: none"> <li>· USDA metal ear tag number that is part of the National Uniform Eartagging System (NUES) (starts with state 2-digit code, also known as "brite" tag); this includes the orange brucellosis vaccination tag</li> <li>· 15-digit "840" tags (visual or RFID)</li> <li>· Valid only if applied before March 11, 2015:</li> <li>· Manufacturer-coded RFID tag - 15-digit number with the first three digits in 900s</li> <li>· American ID tag – 8 to 12-digit number prefaced with "USA"</li> <li>· Brucellosis requirements for cattle from outside Wisconsin</li> <li>· No cattle from outside Wisconsin are currently required to be brucellosis tested or vaccinated to come to fairs and shows in Wisconsin</li> <li>· Tuberculosis (TB) requirements for cattle from outside Wisconsin</li> </ul> <p>For requirements by state, see:</p> <p><a href="https://datcp.wi.gov/Pages/Programs_Services/CattleBison.aspx">https://datcp.wi.gov/Pages/Programs_Services/CattleBison.aspx</a></p>

Cattle and bison (cont.)	<p>Cattle from Michigan's Modified Accredited Zone (for cattle from Michigan's TB Free Zone, see requirements by state above) also need:</p> <ul style="list-style-type: none"> <li>· Import permit</li> <li>· To originate from a herd that has a negative whole-herd TB test within 12 months before arrival in Wisconsin that includes all animals 1 year and older</li> <li>· Negative individual TB tests within 60 days before entering Wisconsin</li> <li>· To return directly to the state of origin after the show, and there must be a statement on the CVI that they will be doing so</li> </ul> <p>For information on obtaining an import permit:</p> <ul style="list-style-type: none"> <li>· Online <a href="https://datcp.wi.gov/Pages/Programs_Services/AnimalMovementPermits.aspx">https://datcp.wi.gov/Pages/Programs_Services/AnimalMovementPermits.aspx</a></li> <li>· Email <a href="mailto:DATCPAnimalImports@wi.gov">DATCPAnimalImports@wi.gov</a></li> <li>· Call 608-224-4872</li> </ul> <p>Cattle from Canada must meet current federal requirements to enter the United States. (See <a href="https://www.aphis.usda.gov/regulations/vs/iregs/animals/downloads/ca-protocol-imp-cattlebison.pdf">https://www.aphis.usda.gov/regulations/vs/iregs/animals/downloads/ca-protocol-imp-cattlebison.pdf</a>)</p> <p>Requirements are subject to change as conditions warrant. For swine originating from herds with positive tests, include the herd plan number on the CVI.</li> <li>· Terminal Exhibitions: No testing requirements.</li> </ul> <p><i>Note: Terminal Exhibitions are those at which the swine go directly from the fair/show to the slaughtering establishment OR to a slaughter only market sale. If going to a slaughter only market sale, contact the Division of Animal Health fair inspector for required information to collect.</i></p> <p><i>Note: If the fair intends to use a load-out facility, contact the Division of Animal Health in advance to discuss requirements that must be met.</i></p> <p>Swine from outside Wisconsin need a certificate of veterinary inspection that includes the following:</p> <ul style="list-style-type: none"> <li>· The negative results of the PRRS test from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin including test date, type, and results.</li> <li>· The negative results of the PEDv test from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin including test date, type, and results.</li> <li>· A statement that the veterinarian has inspected the entire herd of origin within the past 30 days and that no clinical signs of PRRS and PEDv or any other apparent disease was present at the time of inspection</li> <li>· Official individual identification (ID)</li> <li>· If the herd of origin tests positive for PRRS and/or PEDv, contact the Department of Agriculture, Trade and Consumer Protection at 608-224-4872 for options.</li> </ul> <p>Acceptable methods of ID for swine are:</p> <ul style="list-style-type: none"> <li>· USDA silver ear tag</li> <li>· USDA 840 ear tag, either visual or RFID</li> <li>· Breed association tattoo if the pig is a purebred and the tattoo is registered</li> <li>· An ear tag with the premises identification number and a unique identifier</li> <li>· Ear notch if the pig is a purebred and the notch is registered</li> </ul> <p>Requirements are subject to change as conditions warrant. # 2022 JEFFERSON COUNTY FAIR

## MASTER SHOWPERSON

On Sunday, July 17 at 10 am in the MAP Building/Indoor Arena, the best of the best show person from the 2022 Jefferson County Fair will compete for the title of Master Show Person. A representative from each of the below mentioned Supreme Show persons will participate in a multi species competition where talented show persons demonstrate their showmanship abilities in a variety of species to be an all-around 2022 Jefferson County Fair Master Show Person.

- 1) Eligibility: The Supreme Champion Show person from the following shows Dairy, Beef, Swine, Sheep, Goat and Horse are all eligible to participate. A Supreme Champion Show person participant may only represent one species in the Master Show Person competition. If a Supreme Champion has won the right to represent more than one species the following criteria will be used to determine which species they will represent:

- Species department the participant exhibited the most classes in at the current Fair
- Species which had the least amount of exhibitors who participated in showmanship

If an eligible participant chooses not to participate in the Master Show person competition, the option to participate will default to the species Reserve Supreme Champion Show Person, followed by species Honorable Mention Supreme Champion Winner. If an eligible participant is not identified for the species, the highest placing participant in the oldest showmanship age group will be offered the opportunity. If the supreme champion participants don't wish to participate in the Master show person competition they must notify the fair office by 4 pm on the Friday of Fair or they may lose future Jefferson County Fair eligibility or current years premiums.

- 2) Participants will be provided animals by Fair Management. Animal selection will be determined by random draw with the first person drawing in each species being the winner of that respective species, followed by the representative from the next species to be shown.
- 3) Show accessories such as combs, brushes, show sticks, show harness, etc., will be provided by the Fair Park.
- 4) Participants are encouraged to wear collared shirt, jeans, and closed toe footwear.
- 5) Participants are not allowed use of their cell phones once the competition begins until it is completed. Participants found with a cell phone will be penalized by losing one placing in the species they represent.
- 6) A Judge will rank each participant in each species from first place to last with a corresponding rank value (Ex. 1<sup>st</sup> = 1 pt., 2<sup>nd</sup> = 2 pts., etc.) The participant with the lowest overall score once all judging is completed will be the winner. In the event of a tie:

First Tie-Breaker = One High score and One Low score will be removed from the tied contestants and their scores recalculated, the person with the lower score will break the tie.

Second Tie-Breaker = The contestant with the most 1<sup>st</sup> place rankings will be the winner.

If a tie still remains after implementing Tie-Breaker criteria the results will be determined as tied and both participants will receive the prizes as posted.

- 7) Each participant is required to attend a meeting at 6 pm on Friday of Fair in the Conference Room located in the Activity Center across from the Fair Office. At this meeting the rules will be reviewed and each participant will receive their packet. All required document(s) must be turned in to the fair office by 9 am on Sunday.
