3. An animal is eligible to enter or compete in an open Charolais breeding class if registered in country of origin outside the United States and is eligible for purebred registry in the AICA Herdbook.
4. Animals registered in the AICA Colored Division Registry (QF & QM initialed registration numbers) must meet the parameters of the AICA Color Card.
5. All animals to be eligible may be approved by a sifting committee designated by the American-International Charolais Association. Stall space will not be provided for any Charolais cattle that have not been accepted by the sifting committee.
6. All animals are subject to a medical examination to determine age, and each animal will be present in the show ring in its natural conformation without alteration or modification. Use of artificial tailheads is not permitted.
7. Any animal not having a legible tattoo or firebrand number is ineligible and will be barred from showing.
8. Bulls from classes 19 - 23 must have a valid, satisfactory semen test certificate in possession. This certificate is valid for the entire show season.
9. All animals shown in individual classes must be weaned, with the exception of the Cow/Calf Class and calves at the side of females born after September 1, 2020. Silicone injection or other injection for cosmetic purpose shall be prohibited. Anabolic steroid use shall likewise be prohibited and any animal testing positive for anabolic steroid or diuretic use shall be presumed to be altered and modified."

At any American-International Charolais Association (AICA) sanctioned show (including shows receiving AICA premium funding and/or qualifying as a Roll of Excellence Show), the use of a coloring agent, flock and powder is prohibited. Use of these products will result in the immediate disqualification of a given animal at such show.
