SYSTEMS OF JUDGING

American System

The American System of Judging examines entries in competition with each other, rather than the individual merits of a particular entry. In each class placings will be one first, one second, one third, etc.

Danish System

The Danish System of Judging examines each entry on the basis of its own merits. In this system entries are not judged in competition with one another, but rather on the individual merits of any particular entry. All entries will be placed in one of the following groupings: Blue Ribbon, Red Ribbon, White Ribbon, and No-Ribbon

Danish System Groupings:

Blue Ribbon Group: Indicates that the exhibitor meets or exceeds product standards; overall the work is of high quality-Excellent. A high level (92 % -100%) of achievement toward the elements in the standards for the exhibits.

Red Ribbon Group: Indicated good quality (82% - 91%); however, there is room for improvement in the exhibit

White Ribbon Group: Meets standards well enough to be shown, (70% - 81%) but is only fair quality. This group rates only an average, acceptable or satisfactory rating for the standards established.

No-Ribbon Group: No ribbon may be given if exhibits for one reason or another fail to produce that level of achievement which can be reasonably expected in relation to the specific class in which they are entered.

The directors of the 15th District Agricultural Association are appointed by the Governor of the State of California. Directors provide leadership to represent the interests of the area served, and establish policy accordance with the laws of what fairs can and should do. The Board of Directors is actively involved throughout the year in a committee system to oversee the management for the Fair and other fairground events. Directors serve without compensation; the Association is a state agency supported in part by horse racing taxes, but the majority of revenue is self-generated.
