## KERN COUNTY FAIR AND EVENT CENTER HERE FOR KERN COUNTY COMMUNITY

**Bakersfield, California** – Fairs throughout the US are working together to help their communities during these uncertain times.

The Kern County Fair and Event Center is happy to extend the use of our facility to the County of Kern and Kern Medical as we work together for our community.

“The Board of Directors and staff are continuously working on ways we can help.” said CEO Michael Olcott “We want our community to know that we are here for them through the good times and the bad.”

With Fairs being cancelled throughout out the Country, the Kern County Fair is staying hopeful that there will be a 2020 Kern County Fair.

We understand how important the Fair and the Fairgrounds are to our community and to the people we serve. We are doing everything we can to make sure that when the green light is given to resume normal activities, we will be ready to serve Kern County and its visitors.

To receive future Fair announcements follow us on Facebook, Twitter, and Instagram.

The 2020 Kern County Fair is still scheduled to run September 23 – October 4.
