We will utilize additional space in show arenas to allow for social distancing. Make ready areas will be limited to exhibitors and one guest, minimizing the number of people in one area and providing a 6-foot separation.

Our schedule times have been altered to help minimize gatherings and limit the number of people in one area at any given time. Providing a safe environment for our exhibitors and guests.

Sanitization and Disinfection:

We will deploy cleaning team members, increasing our efforts to sanitize and disinfect high traffic and touch point areas frequently.

We have increased the number of hand sanitizer stations throughout the livestock area providing our guests with free hand sanitizer for healthy clean hands. An increased number of hand sanitizer stations will be placed in key high traffic areas.

We will continuously monitor and sanitize restrooms frequently. A staff member will be assigned to each restroom area and will disinfect, clean, and sanitize all high touch point areas within the restrooms frequently.

To maximize sanitation efforts and promote clean germ free hands, we will provide and encourage the use of hand sanitizer at the entrance and exit of all areas including but not limited to seating areas, offices, etc.

Training, Signage, & Communication:

Livestock employees, volunteers, and judges will undergo training/in service instructing them on how to stay safe and keep our attendees safe and healthy.

Health Certificate

1. Health Certificates are required for entry into all LSU AgCenter 4-H and FFA livestock shows in Louisiana.
2. Livestock moving interstate must also meet the entry requirements of the destination state.
3. Health certificates are required for entry into all LSU AgCenter 4-H and FFA livestock shows in Louisiana. However, health certificates that are written for livestock movement within the state (intrastate movement) are subject to state rules so Louisiana has allowed some exemptions for official identification and health certificates written for LSU AgCenter 4-H and FFA shows only.
4. LDAF/LSU AgCenter guidelines for intrastate movement to Louisiana 4-H and FFA Shows are:
 - a. Original or copy of an official health certificate is required for each family.
 - b. In-state health certificates are valid for 60 days and must be written by a Category II accredited veterinarian.

Ear notching is NOT acceptable identification for swine unless it is a breed registered ear notch and breed registry papers must accompany the health certificate.
 - b. If an animal is presented for a health certificate by a single family, then the standard one family, one destination health certificate should be written. It is valid for 60 days if it is written for an LSU AgCenter show. The parish-wide certificate is a convenience for the Parish County Agent and attending veterinarian to coordinate multiple families and multiple species with a group veterinary visit.
 - c. The veterinarian must make a visual inspection of all animals listed on the health certificate.
6. Health certificates may be checked by LDAF personnel at district and state shows.

Exhibition of animals by anyone else will result in the animal being ineligible for competition at the State Fair of Louisiana.
12. The State Fair of Louisiana does NOT provide security or guard service and is not responsible for acts of third party. Exhibitors and exhibitor's parents/guardians agree that the State Fair of Louisiana shall be entitled to disqualify any exhibitor whose animal test positive for any drug even if the exhibitor and exhibitors' parents/guardians are innocent of any wrongdoing and had no role in the administration of the drug show by drug test. Even if the source of drug is unknown. The State Fair shall be entitled to disqualify the exhibitor. Disqualification results in forfeiture of all prize monies, auction proceeds, and forfeit all rights and privileges to exhibit livestock in the future at the State Fair of Louisiana.
13. All animals entered in the junior division will be subject to testing for unauthorized use of medications or drugs. Any exhibitor refusing to comply with this rule will be eliminated from competition and the animal will be disqualified from the show.
14. **Observe Drug Withdrawal Requirements:** The Federal Food and Drug Administration and the U.S. Department of Agriculture, Meat Inspection Division, require that the use of certain drugs, antibiotics, hormones and insecticides be discontinued in or on food producing animals for specific minimum periods of time prior to the sale of the animals for slaughter. Failure to observe these withdrawal periods, which are

stated on the label of the original container, may result in illegal and perhaps harmful residues in food products for which fines and/or jail sentences may be levied.

15. **Emergency Treatment:** If an animal requires emergency treatment while on the showgrounds, only a licensed veterinarian will be allowed to administer any drug chemical or feed additive. Animals which are administered treatment with a withdrawal or extended elimination time period will be disqualified from competition.

Each Brangus, Red Brangus, UltraBlack or UltraRed animal for which an entry application or registration is received may be subjected to a DNA genotyping test in order to verify accuracy of parentage, according to Rules 5, 6, and 7 of the International Brangus Breeders Association (IBBA) Show Eligibility and Inspection of Exhibits. Staff or a representative of IBBA will supervise the collection of tail hair samples, which can be taken at shows, fairs and events where IBBA contributes premium money or where IBBA staff personnel participate. If a recorded parent is excluded (as a parent) as a result of DNA analysis, the owner of the animal may request, as his or her own expense, further determination of the actual parent. Failure to determine the sire or dam will result in the animal being listed in the IBBA Registry as a "Parentage Dispute," and the animal will be ineligible for future shows and exhibitions.

SHOW RULES VIOLATION POLICY

1. A show rules violation to be a valid complaint must be accompanied by a written statement describing the violation, the perpetrator of the violation, and signed by an active member of the IBBA. This written complaint will be presented to an Ethics Committee consisting of the Chairman, Vice-Chairman, Executive Committee Liaison, and an appointed member. All four people will be current members of the show committee. A minimum of two of these members must be present at the Show where the rule violation occurs. The Chairman shall appoint other members of the Show Committee to ensure a minimum of two on this committee at each IBBA approved show.
2. The Committee shall rule on the validity of the rule violation. The committee shall visit with the perpetrator, present the written complaint, and make a ruling on the complaint if valid.
3. The perpetrator is entitled to appeal any decision made by the Ethics Show Committee to the Executive Committee of the IBBA but the Executive Committee has the right to disqualify the perpetrator from the IBBA approved show after hearing an appeal. The Executive Committee's decision will be final.
4. Without the Executive Committee's decision, the perpetrator cannot be disqualified from this particular IBBA approved show. However, the animal can be disqualified by the Ethics Committee if the rule violation is deemed valid. 5. For and in consideration of the opportunity to participate in any Brangus function, each exhibitor hereby releases the Association, its officers, directors and representatives from
