

COVID-19 SAFETY GUIDELINES

YOUR SAFETY IS OUR PRIORITY

In an effort to reduce the spread of COVID-19, the State Fair of Louisiana is taking extra precautions to assure the health and safety of our employees and guests. It is our mission to keep guests and staff safe while also continuing to make your visit a memorable experience.

Not Feeling Well?

Please self-check for COVID-19 symptoms before you visit the State Fair. If you or any member of your family is not feeling well, please do not visit.

Hand Sanitizer Stations

There will be hand sanitization stations throughout the Fairgrounds. We highly recommend the use of hand sanitization stations as well as washing your hands frequently.

Admission Ticketing

The State Fair of Louisiana will be implementing a new ticketing system with our partners at Saffire to speed up the admission process and limit contact. Although tickets will be available for purchase at our Entrance Gates, we strongly advise purchasing your tickets prior to arrival at the State Fair online at www.statefairloouisiana.com.

Face Coverings

Face coverings/masks are to be worn in all indoor spaces and are recommended in outdoor spaces when not consuming food and drinks or when social distancing is not possible. Face coverings are recommended unless impairment to an existing health condition. It is recommended that all guests over 7 years of age wear a face covering/mask.

Social Distancing

Follow social distancing guidelines carefully, maintaining at least 6 feet of space from others. This will apply throughout the State Fair, including lines, in exhibits, at food and beverage facilities, in show venues, and in restrooms.

The State Fair of Louisiana appreciates your understanding and cooperation with the COVID-19 Safety Guidelines issued by the State of Louisiana! We all need to work together to keep everyone safe and healthy!

Thank You!

State Fair of Louisiana Management

STAY SAFE

Please know that we have taken special precautions to secure your safety and prevent the spread of the coronavirus. Still, no facility can provide a guarantee against exposure or infection.
