

# Lend a Hand

Youth and adults contribute countless hours each year making their communities better by helping others in service projects.

## Animals

Become a part of the statewide service-learning focus. Volunteer at an animal shelter, collect food for needy animals or organize a pet therapy program for hospitals or nursing homes.

## Local Service

Get involved in your community by serving in a soup kitchen, packing bags for the homeless, helping in nursing homes or donating items for our military

## Volunteers Needed

Youth and adults are always welcomed to lead project clubs and help with events.
