Are you a veteran or serving in the armed forces?

Are you interested in learning to grow your own food and/or start a small farm business while providing food for the hungry in our community?

If you answered YES, consider joining us for the first ever Veteran Beginning Farming & Gardening program in Idaho!

Developed with vets, for vets, this 8-month long, flexible training program – offered on evenings and weekends – will put your unique skill set to work. Learn how to plan, plant, harvest, and market fresh vegetables, fruits, herbs and flowers in a real-world setting.

You'll be feeding your family and those in need.
