

# Preparing to Buy a Whole Goat

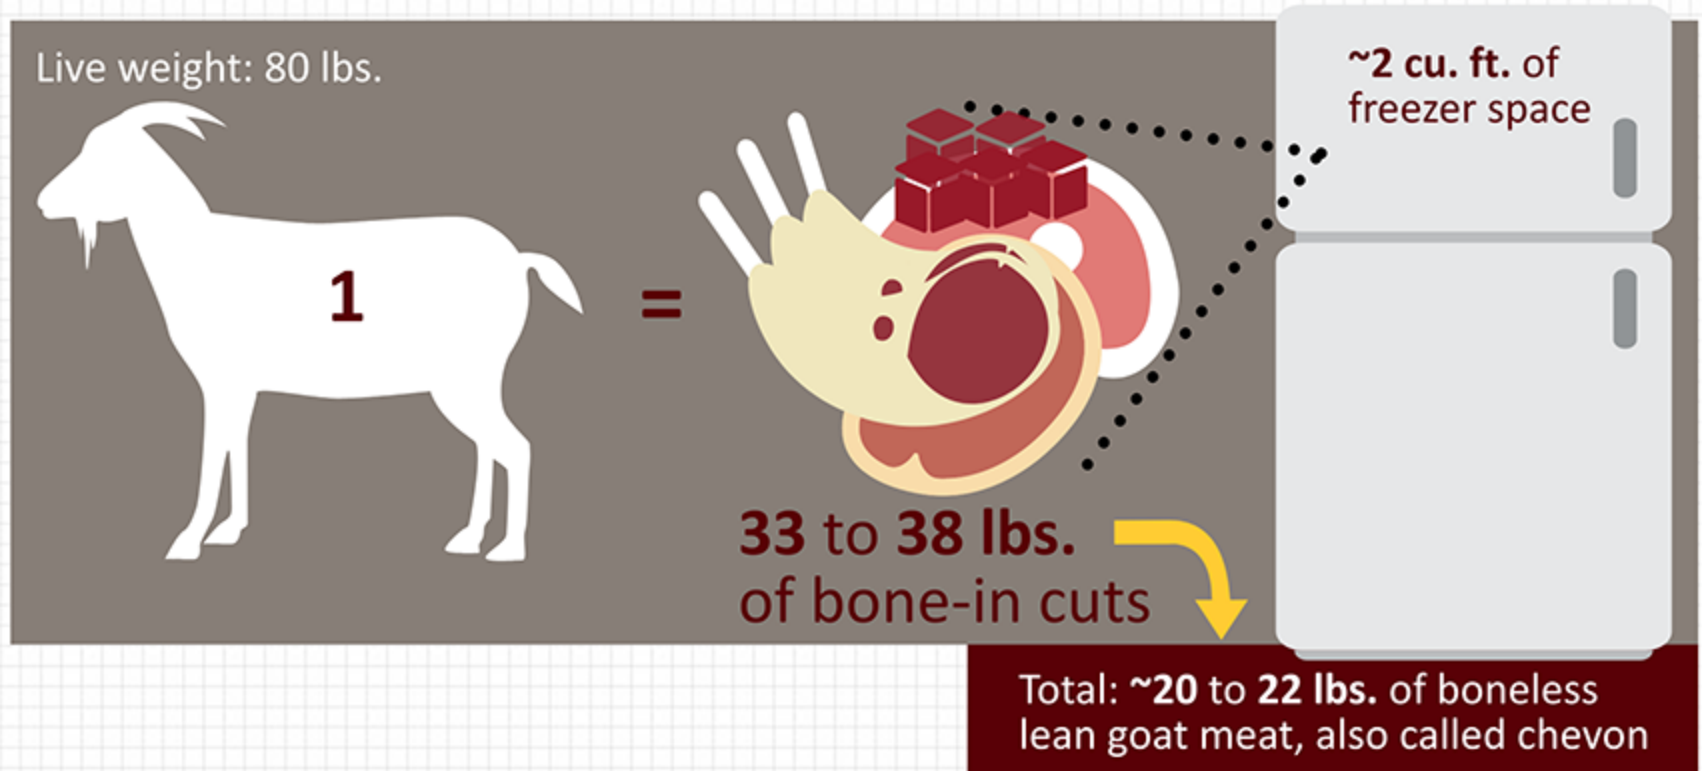

## How much meat is a whole goat?

Bone-in meat from a typical market goat with a live weight of **80 lbs**

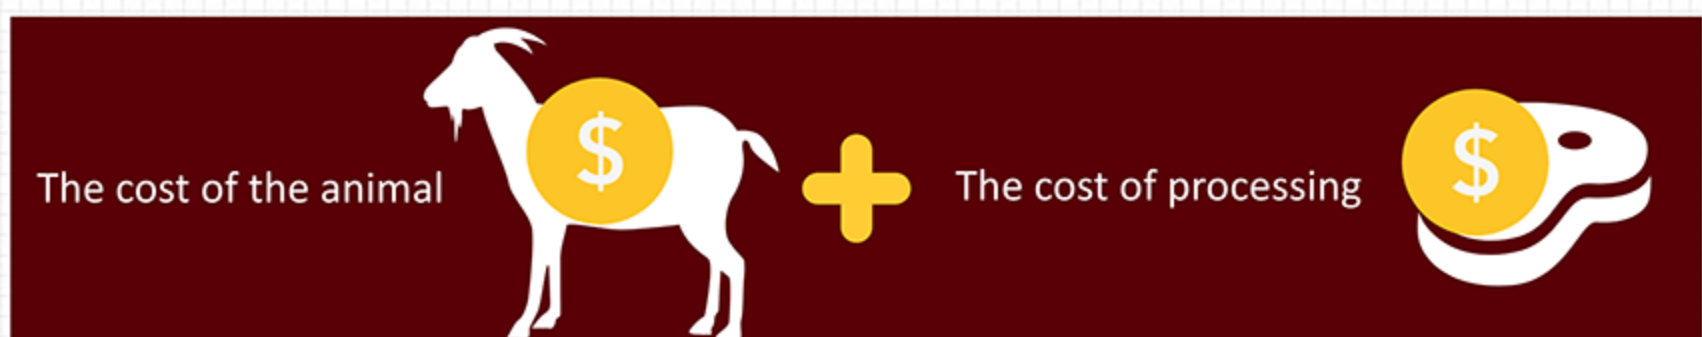

Goat cuts are commonly merchandised as **bone-in primals** or **cubed (bone-in) goat**. Different cut style or additional fabrication will vary quantity and meat cuts. Additionally, quantities of meat will depend on the animal.

## How much cooler/freezer space do you need?

## What costs should you expect?

Adapted by Travis Hoffman from McMillin and Pinkerton, 2008; Dugas and McMillin, 2019.
