What is 30 x 30?

The 30 x 30 program is a plan advanced by radical environmental activists to permanently protect 30% of America's land and oceans by 2030. The program was adopted by the Biden Administration through Executive Order 14008, "Tackling the Climate Crisis at Home and Abroad" (86 Fed. Reg. 7,619), signed January 27, 2021.

Proponents argue climate impacts are human-caused, and permanently preserving 30 percent of America's land and oceans is necessary to reverse climate change. This action must be taken immediately, they claim, to avoid impacts on the ecosystem and wildlife. However, the science and data do not justify these extreme policy measures.

30 x 30 is an unconstitutional policy shift, moving us from a nation founded on private property principles to one controlled by the administrative state.
