## GENERAL INFORMATION

**Purpose.** AIA Document A310—2010 establishes the maximum penal amount that may be due the Owner if the Bidder fails to execute the contract and to provide the required performance and payment bonds, if any. It provides assurance that, if a bidder is offered a contract based on its tendered proposal but fails to enter into the contract, the Owner will be paid the difference in cost to award the contract to the next qualified bidder, so long as the difference does not exceed the maximum penal amount of the bond.

**Related Documents.** A310 is not incorporated by reference into other AIA documents. For further reference on bonding procedures, see AIA Document A701™—1997, Instructions to Bidders; and AIA Document G612™—2001, Owner's Instructions to Architect.

**Use of Non-AIA Forms.** AIA Document A310 may be used with any appropriate AIA or non-AIA document. CAUTION SHOULD BE EXERCISED BEFORE ITS USE TO VERIFY ITS COMPLIANCE WITH CURRENT LAWS AND REGULATIONS BY CONSULTING WITH AN ATTORNEY OR A BOND SPECIALIST.

## USING A310—2010

**Modifications.** Particularly with respect to professional or contractor licensing laws, building codes, taxes, monetary and interest charges, arbitration, indemnification, format and font size, AIA Contract Documents may require modification to comply with state or local laws. Users are encouraged to consult an attorney before completing or modifying a document.

In a purchased paper AIA Contract Document, necessary modifications may be accomplished by writing or typing the appropriate terms in the blank spaces provided on the document, or by attaching Supplementary Conditions, special conditions or referenced amendments.

Modifications directly to purchased paper AIA Contract Documents may also be achieved by striking out language. However, care must be taken in making these kinds of deletions. Under NO circumstances should standard language be struck out to render it illegible. For example, users should not apply blocking tape, correction fluid or Xs that would completely obscure text. Such practices may raise suspicion of fraudulent concealment, or suggest that the completed and signed document has been tampered with. Both parties should initial handwritten changes.

Using AIA software, modifications to insert information and revise the standard AIA text may be made as the software permits.

By reviewing properly made modifications to a standard AIA Contract Document, parties familiar with that document can quickly understand the essence of the proposed relationship. Commercial exchanges are greatly simplified and expedited, good faith dealing is encouraged, and otherwise latent clauses are exposed for scrutiny.

AIA Contract Documents may not be retyped or electronically scanned. Retyping can introduce typographic errors and cloud legal interpretation given to a standard clause. Furthermore, retyping and electronic scanning are not permitted under the user's limited license for use of the document, constitute the creation of a derivative work and violate the AIA's copyright.

**Identification of the Parties.** The Contractor, the Surety, and the Owner should be identified using their respective full names and addresses or legal titles under which the bond is to be executed. The state in which the Surety is incorporated also should be identified in the space provided.

**Bond Amount.** The dollar amount of the bond should be provided in both written and numerical form.

**Project Description.** The proposed project should be described in sufficient detail to identify (1) the official name or title of the facility; (2) the location of the site; (3) the proposed building type, size, scope or usage; and (4) the project number required by the owner, if any. A project number may be required by certain public owners to adequately identify the project to which the bond pertains.

**Execution of the Bond.** The bond must be signed by both the Contractor and the Surety. The parties executing (signing) the bond should print their title and impress their corporate seal, if any. Where appropriate, attach a copy of the resolution or bylaw authorizing the individual to act on behalf of the firm or entity. As to the Surety, this usually takes the form of a power of attorney issued by the Surety company to the bond producer (agent) who signs on its behalf.

Bidders will be required to guarantee materials and workmanship for a period of one year after completion of project.

All bidders shall be actively registered with the NM Department of Workforce Solutions and shall maintain that registration throughout the term of the contract.

#### **Bid Bond Required**

#### **Payment and Performance Bonds Required**

Such requirements will be based on an individual project basis. Contractor shall provide payment and performance bonds to the County within 10 working days of request.

#### **Use of Brand Names and Numbers**

Brand names and numbers are for reference only; equivalents will be considered. Where a brand name or equal is indicated, it is for the purpose of describing the standard of quality, performance and characteristics desired and is not intended to limit or restrict competition. "No substitute" specifications may be authorized ONLY if required to match existing equipment.

#### (NMAC 1.4.24, subsection D)

Use of a brand name is for the purpose of describing the standard of quality, performance and characteristics desired and is not intended to limit or restrict competition. When bidding an "or equal" the burden of persuasion is on the supplier or manufacturer who has not been specified to convince the procurement officer that their product is, in fact, equal to the one specified. The procurement officer is given the responsibility and judgment for making a final determination on whether a proposed substitution is an "or equal".

**Equivalent Items Bid**

If the Bidder offers an item other than the one specified, which the Bidder considers comparable, the manufacturer's name and model number of that item must be specified in the bid and sufficient performance specifications and descriptive data provided to permit a thorough evaluation. A separate sheet(s) may be attached for this purpose. Failure to provide the appropriate information may result in disqualification of the bid.

**Restrictive Specifications**

Specifications stated in this request are not intended to exclude any Bidder. If any Bidder is of the opinion that the specifications as written preclude them from submitting a response to this IFB, it is requested that their opinion be made known to the Procurement Manager, in writing, as soon as possible but preferably at least five (5) working days prior to the bid opening date.

#### **D. BID FORMAT**

1. To preclude any possible errors or misrepresentations, bid prices must be affixed legibly in ink or typewritten. Corrections or changes must be signed or initialed by Bidder prior to the scheduled bid opening. Failure to comply will be just cause for rejection of the bid.

Bids must be submitted in a sealed envelope. The bid title, the bid number and the opening date and time should be clearly indicated on the bottom left hand side of the front of the envelope. ## **V. BID OPENING, PROCESSING AND AWARD**

This section describes how bids received are handled and assessed. It also describes how the award process works as well as the role of the Contract provided in and the role of Purchase Orders that may follow Contract award.

### **A. BID RECEIPT**

Bids shall be accepted unconditionally per NMSA 1978, Section 13-1-105 (2005). Only those bids received before the deadline for the receipt of bids will be considered. Bids received after the deadline ("late bids") will be retained in the procurement file, unopened, and shall not be considered for award.

The County may use other sources of information to confirm the validity of bids submitted and the ability of the Bidder to perform.

The bid price(s) on the Bid Form from timely received and responsive bids will be tabulated (price compared) to identify the lowest price(s) bid. If applicable, the price(s) bid will be adjusted (for comparison and award purposes only) for those Bidders that have submitted a valid Preference Certificate with their bid.

#### **5. Discrepancies in Price(s)**

In case of an error in the Extended Price and Unit Price, the Unit Price shall govern.

#### **6. Determination of Lowest Price**

After completion of the bid tabulation, the County will examine the results to determine which Bidder offers the lowest price to the County in accordance with the specifications and terms and conditions set forth in the Invitation for Bids.

#### **D. CONTRACT AWARD AND ORDER PROCESS**

Upon award, this IFB, along with the awarded bid or bids, will constitute a binding contract price agreement under which order may be placed by Lea County on an as needed basis for the term of the contract.

Award made under this IFB will constitute an existing price agreement that will be available for use by other qualified government agencies to issue orders against, at the discretion of the vendor. (Pursuant to §13-1-129 NMSA)

Furthermore, the state agency or local public body may cancel a solicitation or proposed award for a proposed contract pursuant to Section 13-1-181 NMSA 1978 or a contract that is executed may be ratified or terminated pursuant to Section 13-1-182 NMSA 1978 of the Procurement Code if: 1) a prospective contractor, a family member of the prospective contractor, or a representative of the prospective contractor gives a campaign contribution or other thing of value to an applicable public official or the applicable public official's employees during the pendency of the procurement process or 2) a prospective contractor fails to submit a fully completed disclosure statement pursuant to the law.

Pursuant to the Procurement Code, Sections 13-1-28, et seq., NMSA 1978 and NMSA 1978, § 13-1-191.1 (2006), as amended by Laws of 2007, Chapter 234, any prospective contractor seeking to enter into a contract with any state agency or local public body **for professional services, a design and build project delivery system, or the design and installation of measures the primary purpose of which is to conserve natural resources** must file this form with that state agency or local public body. This form must be filed even if the contract qualifies as a small purchase or a sole source contract. The prospective contractor must disclose whether they, a family member or a representative of the prospective contractor has made a campaign contribution to an applicable public official of the state or a local public body during the two years prior to the date on which the contractor submits a bid or, in the case of a sole source or small purchase contract, the two years prior to the date the contractor signs the contract, if the aggregate total of contributions given by the prospective contractor, a family member or a representative of the prospective contractor to the public official exceeds two hundred and fifty dollars (\$250) over the two year period.

Furthermore, the state agency or local public body may cancel a solicitation or proposed award for a proposed contract pursuant to Section 13-1-181 NMSA 1978 or a contract that is executed may be ratified or terminated pursuant to Section 13-1-182 NMSA 1978 of the Procurement Code if: 1) a prospective contractor, a family member of the prospective contractor, or a representative of the prospective contractor gives a campaign contribution or other thing of value to an applicable public official or the applicable public official's employees during the pendency of the procurement process or 2) a prospective contractor fails to submit a fully completed disclosure statement pursuant to the law.

The state agency or local public body that procures the services or items of tangible personal property shall indicate on the form the name or names of every applicable public official, if any, for which disclosure is required by a prospective contractor.
