## Creating Connections Through Cohesive Wellness - Say Goodbye to the Traditional Buffet

#WellnessWednesday

The traditional buffet where everyone uses shared serving utensils is a thing of the past. While the Lynnwood Convention Center is currently installing sneeze guards and counter-top shields on all buffets and action stations, we are taking things further and developing a Supplemental Wellness Menu to address the service needs of a post-COVID-19 world.

At the Lynnwood Convention Center, buffets will become attended stations and action stations where guests will be able to get a variety of small plates to place on our new high-end trays.

Our breakfast and lunch menus will have increased hot and cold boxed options served in a reusable bento box.

Grab-and-go breakfast and break options will feature pre-packaged house-made items. This will reduce the risk of cross-contamination and continue to provide the quality and flavor our kitchen is known for.

Stay tuned next week for the unveiling of the Supplemental Wellness Menu and changes coming to plated meals!

Until then,  
The Lynnwood Convention Center Team
