Creating Connections Through Cohesive Wellness - Healthy Operations in a Physical Distancing World

#WellnessWednesday

The best way to predict your future is to create it.

~Abraham Lincoln

The landscape of events will be different when we are able to meet again. Although we don't have a crystal ball to see the future, here are a few of the things we are working on operationally.

The Lynnwood Convention Center has reconfigured our room capacities and seating diagrams to focus on physical distancing. This will allow additional space to ensure personal wellness as people go back to meeting in person.

Our priority of cleanliness will be enhanced with additional attention being made to highly touched surfaces, like door handles, and audio visual equipment, like microphones, as well as having hand sanitizer stations available throughout the venue. Our staff will be also be going through additional training on disinfecting.

If you are interested in a tour of the venue, please reach out to info@lynnwoodcc.com and one of our team members will gladly take you on a **Virtual 360 Site Tour**. Let us bring the Convention Center to you as you and your team shelter in place!

Stay Healthy!
