PIE vs. COBBLER...

What Is Pie?

Pie is a baked dish featuring a fruit filling encased in dough, which is called a pie crust or pie shell once baked. Pies can have a double-crust (filling is fully encased in pie dough), single-crust (open top, with a single, blind-baked bottom crust), or somewhere in between (think fancy lattice tops). Pies can be sweet or savory or steak and ale pie, anyone?

What Is Cobbler?

A cobbler is a freeform dessert consisting of a fruit base and a slightly sweet biscuit topping. The biscuit dough is traditionally dropped over the top of the fruit to create a cobbled together crust in a baking dish.

While the sheer enjoyment resulting from either fruit dessert is about equal (and both play quite nicely with a scoop of vanilla ice cream or fluffy dollop of whipped cream), pie and cobbler require different levels of finesse. Cobblers are rougher and perhaps more rustic, while an expert pie dough takes a bit of practice to get just right. A cobbler recipe can be whipped up in roughly an hour, whereas a pie can take all day.
