

PUBLIC HEARING – APRIL 30, 2024

The Florida Department of Transportation (FDOT), District One, invites you to the public hearing for the DeSoto Bridge Replacement PD&E study on Tuesday, April 30, 2024.

This hearing is being conducted to present the preferred alternative and all analysis to date, as well as to give interested persons an opportunity to express their views concerning the location, conceptual design, and social, economic, and environmental effects of the proposed improvements.

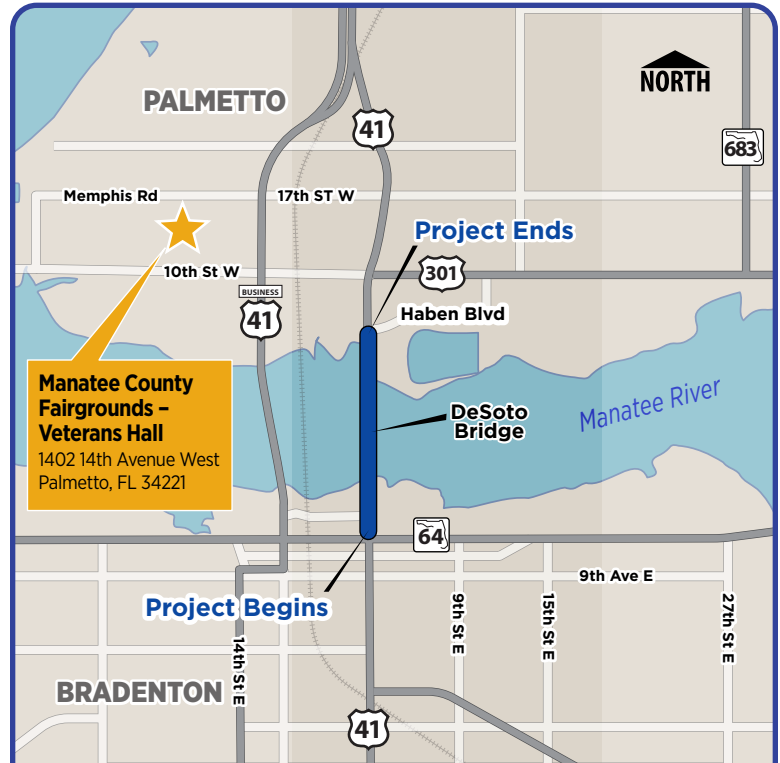

You can participate live online or in-person. The information presented in either format will be the same, and all attendees will have the opportunity to comment.

ABOUT THE PROJECT

FDOT, District One, began a PD&E study in late 2022 to evaluate two alternatives along a 1.3 mile segment of US 41 from SR 64 (Manatee Avenue East) to Haben Boulevard in Manatee County, including the DeSoto Bridge.

The purpose of the PD&E Study is to evaluate an in-kind replacement of the bridge. The existing bridge was constructed in 1957 and is experiencing corrosive deterioration and does not accommodate multi-modal travel. The existing bridge provides 40 feet of vertical clearance over the river and has four lanes, with two in each direction.

The new bridge will be similar in length and profile to the existing one. It will include wide inside and outside shoulders and a 12-foot barrier separated shared use path on both sides of the bridge to accommodate bicyclists and pedestrians.

IN-PERSON OPTION:

Tuesday, April 30, 2024

Manatee County Fairgrounds – Veterans Hall
 1402 14th Avenue West
 Palmetto, FL 34221

- Anytime between 5 – 6 p.m. Open house
