

Welcome to the Manatee County Fair rabbit showmanship guide

Curriculum in this packet was developed by the Florida State Fair as part of their 2022 Rabbit Skillathon material. The topic this year is health care management.

Showmanship is a “vet check” on your animal. You will be going through the steps with your rabbit to check for any health issues that it may have. The second part of showmanship is based on your rabbit knowledge. This guide will serve as an introduction to general health care management. **Make sure you follow all the links in the material** along with studying breed specific questions.

The easiest way to find the skillathon is to google Florida State Fair Rabbit Skillathon 2022 click the PDF Introduction
